Rabelais and His World, By Mikhail Bakhtin. Translated by Helene Iswolsky Mikhail Bakhtin,1968 Mikhail Bakhtin Katerina Clark,Michael Holquist,1984 Traces the life of Bakhtin a Russian literary critic recently rediscovered and discusses his major works on Freud Dostoevsky Rabelais Marxism and the philosophy of language *Narrative Structure and Philosophical Debates in Tristram Shandy and Jacques le fataliste*. Margaux Whiskin,2014-01-02 Contrary to what might be expected from a philosophical novel Sterne and Diderot do not impose their own views upon the reader The author s voice is but one amongst many others Margaux Whiskin s argument hinges on Bakhtinian dialogism which can be defined as the presence of interacting voices and views In Tristram Shandy and Jacques le fataliste dialogism occurs through the narrative structure allowing for the confrontation of the contradictory discourses in the philosophical debates and enabling them to engage in dialogue instead of establishing the authorial voice as the sole valid discourse in the text Through those contradictions the philosophical content takes on a different form that of a refusal of systematic discourse Sterne and Diderot do not offer a solution to the various questions debated in their novels However they do offer a philosophical approach whereby the confrontation of contradictory ideas creates a dynamic for the pursuit of truth By engaging in dialogue and constantly opening questions where there is no single right answer Sterne and Diderot redirect the focus of the reader and invite him to perceive truth not as a destination to be reached or as a closed conclusion but as being present in the quest itself in the ongoing dialogues and debates

Corporeal Words Alexandar Mihailovic,1997 This text explores Mikhail Bakhtin s reliance on the terms and concepts of theology It begins with an identification of the theological categories and terms recalling Christology in general and Trinitarianism in particular that emerge throughout Bakhtin s long and varied career Alexander Mihailovic discusses the elaborately wrought subtextual imagery wordplay and palpable orality of Bakhtin s theology of discourse and explores the role that theology plays in supporting Bakhtin s ideas about the anti hierarchical drift of language and culture *The Lyre of Orpheus* Christopher Partridge,2013-10-21 The myth of Orpheus articulates what social theorists have known since Plato music matters It is uniquely able to move us to guide the

imagination to evoke memories and to create spaces within which meaning is made Popular music occupies a place of particular social and cultural significance Christopher Partridge explores this significance analyzing its complex relationships with the values and norms texts and discourses rituals and symbols and codes and narratives of modern Western cultures He shows how popular music's power to move to agitate to control listeners to shape their identities and to structure their everyday lives is central to constructions of the sacred and the profane In particular he argues that popular music can be important edgework challenging dominant constructions of the sacred in modern societies Drawing on a wide range of musicians and musical genres as well as a number of theoretical approaches from critical musicology cultural theory sociology theology and the study of religion *The Lyre of Orpheus* reveals the significance and the progressive potential of popular music

Soviet Narratology and Spatial Story Design Sylke Rene Meyer, 2025-10-20 Based on Soviet narratology this book offers a genealogy of spatial user centric story design and its current applications situating spatial story design as medium sui generis that evolved as a counternarrative to agonal games on the one hand and in distinction to linear narrative such as classical novels and cinema on the other hand Following a discussion of Russian Formalism that relativized the notion of authorial intention and emphasized the primacy of structure the analysis considers the works of Mikhail Bakhtin who laid out the groundwork for a chronotopical spatial analysis of literature that contributes to a grammar of user generated narrative as well as the works of Juri Lotman and the Tartu Moscow Semiotic School The author shows how these works have been influential through the works topological semantics that provide a vocabulary for literary analysis and practical tools for spatial story design to predict to some extent user behavior and through the semiotic study of text culminating in a cybernetical method of systems thinking that allows for process control of user generated spaces She demonstrates that cybernetical research in the United States contributed to the development of agonal shooter games while cybernetical research in the Soviet Union had a massive influence on role playing games and consequently interactive storytelling and spatial story design Delineating how Soviet narratology had a formative yet somehow unnamed influence on the development of structuralist and post structuralist narrative theory this book will be an essential read for academics and artists in performance art game design interactive storytelling narratology philosophy but also AI research and human machine interaction

Without Rhyme Or Reason Marvin Richards, 1998 On 29 April 1841 a week after his thirty fourth birthday Louis Aloysius Bertrand died of tuberculosis This malady his destitute poverty and his errant existence qualify him as a

quintessential poet maudit whose one great work *Gaspard de la Nuit* (Fantasies à la manière de Rembrandt et de Callot) was not published until 1842. Now widely considered as the first collection of prose poems to appear in France, Gaspard inspired writers like Baudelaire, Mallarmé, Huysmans, and André Breton. This study offers a rereading of Bertrand's book grounded in modern critical theory, including the work of Derrida, Bakhtin, Barbara Johnson, Genette, Lacoue-Labarthe, and Nancy. It elaborates a new perspective on a work that contains all the paradoxes of the genre with which theorists still struggle.

Rabelais and his world (Tvorčestvo Fransa Rable, engl.) Michail M. Bakhtin, Elena A. Izvol'skaja, 1968 **Feasting & Fasting in Opera** Pierpaolo Polzonetti, 2021-11-11

Feasting and Fasting in Opera shows that the consumption of food and drink is an essential component of opera both on and off stage. In this book, opera scholar Pierpaolo Polzonetti explores how convivial culture shaped the birth of opera and opera-going rituals until the mid-nineteenth century, when eating and drinking at the opera house were still common. Through analyses of convivial scenes in operas, the book also shows how the consumption of food and drink, and sharing or the refusal to do so, define characters' identity and relationships. Feasting and Fasting in Opera moves chronologically from around 1480 to the middle of the nineteenth century, when Wagner's operatic reforms banished refreshments during the performance and mandated a darkened auditorium and absorbed listening. The book focuses on questions of comedy, pleasure, embodiment, and indulgence, looking at fasting, poisoning, food disorders, body types, diet, and social, ethnic, and gender identities in both tragic and comic operas from Monteverdi to Puccini. Polzonetti also sheds new light on the diet Maria Callas underwent in preparation for her famous performance as Violetta, the consumptive heroine of Verdi's *La traviata*. Neither food lovers nor opera scholars will want to miss Polzonetti's page-turning and imaginative book.

The Ends of Satire Daniel Bowles, 2015-02-24

How are we to think of satire if it has ceased to exist as a discrete genre? This study proposes a novel solution, understanding the satiric in the postwar era as a set of writing practices: figures of inversion, myth-making, and citation. By showing how writers and theorists alike deploy these devices in new contexts, this book reexamines the link between German postwar writing and the history of satire and between literature and theory.
