Race And Resistance African Americans In The Twentyfirst Century Vol 1:

The Twenty-first Century African American Novel and the Critique of Whiteness in Everyday Life E. Lâle

Demirtürk,2016-05-25 This book examines the post 9 11 African American novels developing a new critical discourse on everyday discursive practices of whiteness The critique of everyday life in the racial context of post 9 11 American society is important in considering diverse forms of the lived experiences and subjectivities of black people in the novels They help us see that African American representations of the city have political significance in that the neo urban novel explores the possibility of a black dialogic communication to build a transformative social change Since the real power of Whiteness lies in its discursive power the book reveals the urgency to understand not only how whiteness works in everyday life in American society But it also explores how to cultivate new possibilities of configuring and performing Blackness differently as a response to the post 9 11 configurations of the culture of fear to produce new ways of interactional social relations that can eventually open up the space of critical awareness for white people to work against rather than reinforce discursive practices of White supremacy in everyday life This book explores how the multiple subjectivities and transformative acts of blackness can offer ways of subverting the discursive power of the white embodied practices What defines post 9 11 America as a nation that is consumed by the fear of racialized terrorists is its roots in the fear of uncontrollable Blackness as excess and ominous threat in the domestic terrain through which the ideology of White supremacy has constructed for governing through Whiteness African American urban novels published in the twenty first century respond to the discursive power of normative Whiteness that regulates black bodies selves and lives This book demonstrates how black people contest white dominant social spaces as sites of black criminality and exclusion in an attempt to re signify them as the sites of black transformative change through personal and grassroots activism through their performativity of Blackness as an agential identity formation in their interpersonal urban social encounters with white people Hence the vulnerable spaces of Whiteness in interracial urban encounters as it pervasively addresses those moments of transformative change enacted by Black characters in the face of the discursive practices of whiteness in the everyday life These novels celebrate multifarious representations of black individuals who are capable of using their agency to subvert White discursive power in finding ways in their personal and grassroots activism to transform the culture of fear that locates Blackness as such in an attempt to make a difference in the American society at large

The Freedom Riders Across Borders Barbara Lüthi,2022-08-30 The Freedom Riders Across Borders Contentious Mobilities provides the first comprehensive transnational historical analysis of the Freedom Rides It explores the transnational history of these social movements and the struggles for the right to mobility and other civil rights in the United States of America Australia and Palestine between 1961 and 2011 This book makes a significant contribution to the transnational studies of social movements and the burgeoning field of mobility studies by investigating the specific constellations of mobility as historically and geographically specific formations of movement as well

as investigating how the images ideas and strategies of Freedom Riders were adapted translated and moved across time and space Foremost this book speaks to the pressing questions of the past and present concerning the politics and inequalities of mobilities impacting different social groups in different ways From a historical perspective it gives answers to the intensified interest and questions concerning the dynamics techniques and contentious politics of social movements in a globalized environment The book details how the question of mobility has come to constitute political conflict and protest over norms restrictions and representations It shows not only that mobility is a differentially accessed resource which shapes and is shaped by political processes but also that contestation is an equal part of forming mobility The book identifies vehicles as a mobile site of contestation and in the context of the Freedom Rides as a site of strategic political action In doing so L thi makes a persuasive case for mobility to be given a central place in the study of progressive social movements As such this book will be of great interest to researchers in a number of disciplines including history geography and sociology *Fannie Lou Hamer's Revolutionary Practical Theology* Karen D. Crozier,2020-10-12 In Fannie Lou Hamer s Revolutionary Practical Theology Crozier acknowledges analyses and constructs the civil and human rights leader s Christian thought and practice Commonly known for her political activism Hamer is presented as a religious thought leader whose embodiment of ideas and ideals helped to disrupt and transform the Jim Crow of the South within and beyond electoral politics Through primary source documents of Hamer s oral history interviews autobiographical writings speeches and multimedia publications on or about her life and legacy Crozier allows Hamer to have her say on racial and environmental justice concerns Crozier introduces Hamer as a revolutionary practical theologian who resided on the margins of the church academy and society

Fear of a Hip-Hop Planet D. Marvin Jones,2013-04-01 Is Gangsta Rap just black noise Or does it play the same role for urban youth that CNN plays in mainstream America This provocative set of essays tells us how Gangsta Rap is a creative report about an urban crisis our new American dilemma and why we need to listen Increasingly police politicians and late night talk show hosts portray today s inner cities as violent crime ridden war zones The same moral panic that once focused on blacks in general has now been refocused on urban spaces and the black men who live there especially those wearing saggy pants and hoodies The media always spotlights the crime and violence but rarely gives airtime to the conditions that produced these problems The dominant narrative holds that the cause of the violence is the pathology of ghetto culture Hip hop music is at the center of this conversation When 16 year old Chicago youth Derrion Albert was brutally killed by gang members many blamed rap music Thus hip hop music has been demonized not merely as black noise but as a root cause of crime and violence *Fear of a Hip Hop Planet* America s New Dilemma explores and demystifies the politics in which the gulf between the inner city and suburbia have come to signify not only a socio economic dividing line but a new socio cultural divide as well *Black Sporting Resistance* Joseph N. Cooper,2025-01-14 In recent years there has been increased attention towards activism in sporting spaces A vast majority of these contributions have focused on intra nation tensions and impact

Yet there is a dearth of scholarship that has engaged in a theoretically grounded analysis of how Black sportspersons have exhibited resistance in and through sport across national borders across time space and context In this text Joseph N Cooper introduces the Black Sporting Resistance Framework BSRF as an analytic lens to examine how resistance actions in and through sport have contributed to the advancement of local and global racial justice efforts Key concepts such as African Black diaspora transnationalism internationalism sporting resistance typology and sport activism typology are incorporated throughout the book Black sporting resistance is also analyzed alongside broader social movements such as the Black Liberation Struggle Black Nationalism Pan Africanism and Black Radicalism Insights on the ways in which sport can be used to advance social justice in the future are presented *The African American Novel in the Early Twenty-First Century*, 2024-12-16 The African American Novel in the Early Twenty First Century comprises fourteen essays each focussing on recent widely known fiction by acclaimed African American authors This volume showcases the originality diversity and vitality of contemporary African American literature which has reached a bewildering yet exhilarating stage of disruption and continuity between today and yesterday homegrown and diasporic identities and local and global interrelatedness Additionally it delves into the complexity of the Black literary imagination and its interaction with broader cultural contexts Lastly it reflects on the evolution of the African American community its tribulations triumphs challenges and prospects

Frantz Fanon for the 21st Century Volume 1 Frantz Fanon's Discourse of Racism and Culture, the Negro and the Arab Deconstructed Daurius Figueira, 2018-11-19 Frantz Fanon 1925 1961 in the 1950s unleashed his discourse of the black white complex and the Negro thereby commencing his contribution to the international movement for liberation from colonial oppression and racism through a specific process of decolonisation In the 21st century the intensifying wave of racist assaults on non white peoples in the North Atlantic has once again raised the issue of racism white people and the North Atlantic State This book focuses on WE the non whites in our complicity with North Atlantic white supremacy through a deconstruction of Fanon's discourse which presents a 21st century analysis of the 21st century non white reality of our self hate self immolation and racism against non whites as ourselves and the beneficiary of this self hate white North Atlantic hegemony Black Feminist Mothering in 21st Century Literature Nicole Carr, 2025-05-23 Black feminist mothering can birth new worlds As today's world becomes increasingly hostile with the rising cost of food coupled with global warming's devastating impact we are in need of a feminism bold enough to imagine new pathways for survival Black feminist mothering may well be the remedy This volume positions Black feminist mothering as much more than a biological or caregiving role Building on key Black feminist tenets Carr examines Black women's maternal labors as a practice and proclamation for mothering ourselves tending to each other and nourishing our communities Far too often Black women's maternal intellectual and political labors are recognized only in service to white supremacist capitalism Mammy Breeder Welfare queen This text counters these dehumanizing iconographies to focus instead on the Black maternal's imaginative possibilities

Not only does Carr address Black women's resistance to white supremacist power plays but she also attends to Black heteropatriarchy and the burdens racial solidarity imposes on Black women. The Black maternal Carr argues is a cradle for Black revolution. As Assata Shakur famously declared, "We are pregnant with freedom." *Sports and Politics* Frank Jacob, 2020-08-24. Sport is everything but never solely sport. The commodification of human pleasure in or about many sports led to an increased political interest and dimension with regard to the major leagues and their stars. Corruption and scandals increased while the human being in sports was and still is very often exploited or mistreated. These problems often relate to the political dimension as well. Consequently, it seems very promising and necessary alike to take a closer look at the interrelation of sports and politics. The present volume addresses this interrelation from different angles when talking about issues like racism, gender inequality, or classism.

The Geographies of African American Short Fiction Kenton Rambsy, 2022-03-25. Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives. *The Geographies of African American Short Fiction* seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations: small towns, a famous metropolis, city sidewalks, a rural wooded area, apartment buildings, a pond, a general store, a prison, and more. In the process, these writers highlighted the extents to which places and spaces shaped or situated racial representations. Presenting African American short story writers as cultural cartographers, author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories. The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century. Anthology editors solidified the significance of a core group of short story authors including James Baldwin, Toni Cade Bambara, Charles Chesnutt, Ralph Ellison, Zora Neale Hurston, and Richard Wright. Using quantitative information and an extensive literary dataset, *The Geographies of African American Short Fiction* explores how editorial practices shaped the canon of African American short fiction.
