K. Walker, 1999-11-30 Black business activity has been sustained in America for almost four centuries From the marketing and trading activities of African slaves in Colonial America to the rise of 20th century black corporate America African American participation in self employed economic activities has been a persistent theme in the black experience Yet unlike other topics in African American history the study of black business has been limited General reference sources on the black experience with their emphasis on social cultural and political life provide little information on topics related to the history of black business This invaluable encyclopedia is the only reference source providing information on the broad range of topics that illuminate black business history Providing readily accessible information on the black business experience the encyclopedia provides an overview of black business activities and underscores the existence of a historic tradition of black American business participation Entries range from biographies of black business people to overview surveys of business activities from the 1600s to the 1990s including slave and free black business activities and the Black Wallstreet to coverage of black women's business activities and discussions of such African American specific industries as catering funeral enterprises insurance and hair care and cosmetic products Also there are entries on blacks in the automotive parts industry black investment banks black companies listed on the stock market blacks and corporate America civil rights and black business and black athletes and business activities **The Crisis of the African-American Architect** Melvin L. Mitchell, 2003 another missing piece of our rich history and profound contribution to western civilization For history buffs please put this book on your must read list George C Fraser Author of *Race For Success* and *Success Runs In Our Race* Mitchell believes that the entire future of blacks in the field of architecture is in jeopardy He then discusses the impact of the Harlem Renaissance on black architecture and the subsequent emergence of Howard University as the center of the black

architectural universe The Journal of Blacks in Higher Education seminal Architecture Magazine In this long overdue book aimed at Black America and her allies Melvin Mitchell poses the question why haven t black architects developed a Black Architecture that complements modernist black culture that is rooted in world class blues jazz hip hop music and other black aesthetic forms His provocative thesis inspired by Harold Cruse s landmark book The Crisis of the Negro Intellectual exposes the roots of an eighty year old estrangement between black architects and Black America Along the way he provides interesting details about the politics of downtown development in the Marion Barry era of Washington DC Mitchell calls for a bold and inclusive New Black Urbanism He sees the radical reform and re missioning of the handful of accredited HBCU based architecture schools as a critical tool in refashioning a rapprochement between black architects and Black America
