Race in the College Classroom Maureen T. Reddy, Bonnie TuSmith, 2002 Winner of the 2003 American Educational Studies Association Critics Choice Awards Winner of the 2003 Gustavus Myers Outstanding Book Award Did affirmative action programs solve the problem of race on American college campuses as several recent books would have us believe If so why does talking about race in anything more than a superficial way make so many students uncomfortable Written by college instructors from many disciplines this volume of essays takes a bold first step toward a nationwide conversation Each of the twenty nine contributors addresses one central question what are the challenges facing a college professor who believes that teaching responsibly requires an honest and searching examination of race Professors from the humanities social sciences sciences and education consider topics such as how the classroom environment is structured by race the temptation to retreat from challenging students when faced with possible reprisals in the form of complaints or negative evaluations the implications of using standardized evaluations in faculty tenure and promotion when the course subject is intimately connected with race and the varying ways in which white faculty and faculty of color are impacted by teaching about race

Ed.D. Programs as Incubators for Social Justice Leadership Antonio L. Ellis, 2016-02-10 This book shares the thoughts of mostly North American scholars on many interrelated topics that have not previously been linked in academic research The focus of the book is the belief that the Ed D can prepare highly competent justice oriented scholars who will be engaged with communities Among these future leaders the contributors envision educators who not only lead public schools but also private foundations not for profit organizations and community centers An outstanding feature of this volume is that each chapter highlights existing and emerging issues such as but not limited to candidate recruitment and admission policies program funding fees and student expenses academic support services faculty recruitment compensation evaluation and promotion models on site on line instruction internship policy opportunities for graduate student employment publishing and conference engagement student supervision protocols and dissertation and capstone project parameters In addition the book explores cultural and socio political contexts public private sector relationships and the kinds of legislation that frame Ed D theory policy and practice from a social justice perspective At its best higher education is an indispensable space for spotlighting challenging and addressing injustice This important volume offers us the conceptual methodological empirical and pedagogical tools necessary for understanding the relationship between doctoral education and social justice work Antonio Ellis has assembled an impressive array of scholars who help us understand the promise and possibility of Ed D programs Marc Lamont Hill Host for the Black Entertainment Network Contributor for CNN and Distinguished Professor of African American Studies at Morehouse College This volume helps to clarify what is meant by social justice in school leadership settings and provides both philosophical and theoretical perspectives as well as strategies and curricular content that can assist in developing a common sense understanding of social justice The development of a mental frame of reference

is critical to being able to transfer that understanding and curricular content into beliefs and practices As a professor of educational leadership and a college administrator I am most pleased to find a volume that provides perspectives and strategies which can be employed by academicians teaching in leadership programs and practitioners as they lead and prepare others to become leaders Zollie Stevenson Jr Associate Vice President for Academic Affairs and Associate Professor Philander Smith College **Black Male Outsider** Gary L. Smith,2020-08-11 Building sustainable diversity in higher education isn t just the right thing to do it is an imperative for institutional excellence and for a pluralistic society that works Updated Edition Daryl G Smith has devoted her career to studying and fostering diversity in higher education In *Diversity's Promise for Higher Education* Smith brings together research from a wide variety of fields to propose a set of clear and realistic practices that will help colleges and universities locate diversity as a strategic imperative and pursue diversity efforts that are inclusive of the varied and growing issues apparent on campuses without losing focus on the critical unfinished business of the past To become more relevant to society the nation and the world while remaining true to their core missions colleges and universities must continue to see diversity like technology as central not parallel to their work Indeed looking at the relatively slow progress for change in many areas Smith suggests that seeing diversity as an imperative for an institution s individual mission and not just as a value is the necessary lever for real institutional change Furthermore achieving excellence in a diverse society requires increasing institutional capacity for diversity working to understand how diversity is tied to better leadership positive change research in virtually every field student success accountability and more equitable hiring practices In this edition which is aimed at administrators faculty researchers and students of higher education Smith emphasizes a transdisciplinary approach to the topic of diversity drawing on an updated list of sources from a wealth of literatures and fields The tables and figures have been refreshed to include data on faculty diversity over a twenty year period and the book includes new information about gender identity embedded bias student success the growing role of chief diversity officers the international emergence of diversity issues faculty hiring and important metrics for monitoring progress Drawing on forty years of diversity studies this third edition also includes more examples of how diversity is core to institutional excellence academic achievement and leadership development updates issues of language examines the current climate of race based campus protest addresses the complexity of identity and explains how to attend to the growing kinds of identities relevant to diversity equity and inclusion while not overshadowing the unfinished business of race class and gender
