## Race Of Death:

**Race to Death** Leigh Russell, 2015-01-27 A man plummets to his death during the York Races Despite the large crowds no witnesses are able to help confirm whether the death was a suicide or a murder Newly promoted Detective Ian Peterson is plunged into the complex case that splashes across the headlines Meanwhile the killer has begun to hunt his next victim and before long the body count increases With pressure to solve the crimes mounting Ian must put aside his personal life despite pressure from his wife But the killer is following the investigation far more intensely than Ian realizes and time is running out as the case suddenly gets a lot closer to home Race, Class, and the Death Penalty Howard W. Allen, Jerome M. Clubb, 2009-01-01 In *Race Class and the Death Penalty* Howard W Allen and Jerome M Clubb examine historical trends in the use of capital punishment in the United States Employing empirical data the authors explore how frequently the death penalty has been used and how its frequency of use has changed where the death penalty was used most often the offenses charged and the characteristics of the executed Not surprisingly their findings indicate that minority groups particularly African Americans and those of lower social and economic status in general have been executed in disproportionate numbers The authors conclude that while the use of the death penalty has progressively declined and the range of capital offenses has narrowed disparities in the use of capital punishment between social groups and regions that appeared in the colonial period have persisted into the twenty first century *Race and Crime* Elizabeth Brown, George Borganian, 2018-10-02 Criminal justice practices such as policing and imprisonment are integral to the creation of racialized experiences in U S society Race as an important category of difference however did not arise here with the criminal justice system but rather with the advent of European colonial conquest and the birth of the U S racial state *Race and Crime* examines how race became a defining feature of the system and why mass incarceration emerged as a new racial management strategy This book reviews the history of race and criminology and explores the impact of racist colonial legacies on the organization of criminal justice institutions Using a macrostructural perspective students will learn to contextualize issues of race crime and criminal justice Topics include How coloniality explains the practices that reproduce racial hierarchies The birth of social science and social programs from the legacies of racial science The defining role of geography and geographical conquest in the continuation of mass incarceration The emergence of the logics of crime control the War on Drugs the redefinition of federal law enforcement and the reallocation of state resources toward prison building policing and incarceration How policing courts and punishment perpetuate the colonial order through their institutional structures and policies *Race and Crime* will help students understand how everyday practices of punishment and surveillance are employed in and through the police courts and community to create and shape the geographies of injustice in the United States today *Vital Statistics of the United States*, 1992 *The Our Race Quarterly*, 1914 **After Death--what?** William Henry Platt, 1878 *Race and Crime* Helen Taylor Greene, Shaun L. **Life and Death Matters** Robert Baldwin, 2008-06-01 Dr Robert Baldwin would be the first to tell you that he used to be an average white Southern male a family man with conservative ideals and a growing medical practice he was living out his life without too much introspection In 1997 however Baldwin was diagnosed with the auto immune disease myasthenia gravis In his compelling new memoir *Life and Death Matters* Baldwin discusses his health scare and his subsequent search for truth in both the Christian church and society at large Baldwin goes on to tackle one of the most precarious moral issues of our time the death penalty with statistical fact and thoughtful religious sympathy While volunteering as a prison minister Baldwin immerses himself in this issue proving himself to be a most thoughtful individual with an eye for social injustice and an ear for those in most need of counsel

Dismantling the Death Penalty Mark Costanzo, 2025-01-31 *Dismantling the Death Penalty* is a succinct accessible and lively overview of research on the costs and consequences of capital punishment Professor Costanzo uses diverse sources of information including closing arguments from murder trials interviews with jurors statistical analyses of murder rates survey data and quotes from defendants politicians and the families of victims to understand the effects and effectiveness of the death penalty Each chapter answers an essential question How do juries decide who is sentenced to death Do executions deter potential murderers Does the

public support the death penalty Is it cruel and unusual Is it cheaper than life imprisonment How serious are errors and biases in the system Is the death penalty morally justified Although the emphasis is on social scientific research this comprehensive analysis also places the practice of killing murderers in historical political and moral context The opening chapter chronicles the long bloody history of executions and changes in how when and why we kill criminals The closing chapter evaluates the politics and future of capital punishment as well as alternatives to execution Annual Report of the Commissioners of the District of Columbia District of Columbia. Board of Commissioners,1903 **The Death Gap** David A. Ansell,2017-04-21 We hear plenty about the widening income gap between the rich and the poor in America and about the expanding distance separating the haves and the have nots But when detailing the many things that the poor have not we often overlook the most critical their health The poor die sooner Blacks die sooner And poor urban blacks die sooner than almost all other Americans In nearly four decades as a doctor at hospitals serving some of the poorest communities in Chicago David A Ansell MD has witnessed firsthand the lives behind these devastating statistics In *The Death Gap* he gives a grim survey of these realities drawn from observations and stories of his patients While the contrasts and disparities among Chicago's communities are particularly stark the death gap is truly a nationwide epidemic as Ansell shows there is a thirty five year difference in life expectancy between the healthiest and wealthiest and the poorest and sickest American neighborhoods If you are poor where you live in America can dictate when you die It doesn't need to be this way such divisions are not inevitable Ansell calls out the social and cultural arguments that have been raised as ways of explaining or excusing these gaps and he lays bare the structural violence the racism economic exploitation and discrimination that is really to blame Inequality is a disease Ansell argues and we need to treat and eradicate it as we would any major illness To do so he outlines a vision that will provide the foundation for a healthier nation for all Inequality is all around us and often the distance between high and low life expectancy can be a matter of just a few blocks But geography need not be destiny urges Ansell In *The Death Gap* he shows us how we can face this national health crisis head on and take action against the circumstances that rob people of their dignity and their lives *A Commentary on St. Paul's Epistle to the Romans* Joseph Agar Beet,1882 *Medicine, Science, and Making Race in Civil War America* Leslie A. Schwalm,2023-02-14 This social and cultural history of Civil War medicine and science sheds important light on the question of why and how anti Black racism survived the destruction of slavery During the war white Northerners promoted ideas about Black inferiority under the guise of medical and scientific authority In particular the Sanitary Commission and Army medical personnel conducted wartime research aimed at proving Black medical and biological inferiority They not only subjected Black soldiers and refugees from slavery to substandard health care but also scrutinized them as objects of study This mistreatment of Black soldiers and civilians extended after life to include dissection dismemberment and disposal of the Black war dead in unmarked or mass graves and medical waste pits Simultaneously white medical and scientific investigators enhanced their professional standing

by establishing their authority on the science of racial difference and hierarchy Drawing on archives of the U S Sanitary Commission recollections of Civil War soldiers and medical workers and testimonies from Black Americans Leslie A Schwalm exposes the racist ideas and practices that shaped wartime medicine and science Painstakingly researched and accessibly written this book helps readers understand the persistence of anti Black racism and health disparities during and after the war
