An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2001-12-21 First published in 2002 An American Health Dilemma is the story of medicine in the United States from the perspective of people who were consistently officially mistreated abused or neglected by the Western medical tradition and the US health care system It is also the compelling story of African Americans fighting to participate fully in the health care professions in the face of racism and the increased power of health corporations and HMOs This tour de force of research on the relationship between race medicine and health care in the United States is an extraordinary achievement by two of the leading lights in the field of public health Ten years out it is finally updated with a new third volume taking the story up to the present and beyond remaining the premiere and only reference on black public health and the history of African American medicine on the market today No one who is concerned with American race relations with access to and quality of health care or with justice and equality for humankind can afford to miss this powerful resource

Black Liberation and Socialism Ahmed Shawki, 2005-11-01 A socialist scholar sheds light on the interwoven histories of racism and capitalism in the United States with vital lessons for today s struggle In Black Liberation and Socialism Ahmed Shawki underscores the need to a struggle against racism that is equally clear eyed in its opposition to the economic and political system that supports it capitalism Shawki begins with a socialist perspective on the history of slavery in the United States He then presents a sharp analysis of the country s movements against racism from the separatism of Marcus Garvey to the militancy of Malcolm X and the Black Panther Party to the eloquence of Martin Luther King Jr and more In the decades since the civil rights movement many gains have been made but there is still far to go to win genuine change Black Liberation and Socialism is an essential primer on the history and future of the struggle against racism

Settler Colonial City David Hugill, 2021-11-23 Revealing the enduring link between settler colonization and the making of modern Minneapolis Colonial relations are often excluded from discussions of urban politics and are viewed instead as part of a regrettable past In *Settler Colonial City* David Hugill confronts this culture of organized forgetting by arguing that Minnesota's largest city is enduringly bound up with the power dynamics of settler colonial politics Examining several distinct Minneapolis sites *Settler Colonial City* tracks how settler colonial relations were articulated alongside substantial growth in the Twin Cities Indigenous community during the second half of the twentieth century creating new geographies of racialized advantage Studying the Phillips neighborhood of Minneapolis in the decades that followed the Second World War *Settler Colonial City* demonstrates how colonial practices and mentalities shaped processes of urban reorganization animated non Indigenous advocacy research informed a culture of racialized policing and intertwined with a broader culture of American imperialism It reveals how the actions assumptions and practices of non Indigenous people in Minneapolis produced and enforced a racialized economy of power that directly contradicts the city's progressive reputation Ultimately *Settler Colonial City* argues that the hierarchical and racist political dynamics that characterized the city's prosperous beginnings are not exclusive to a bygone era but rather are central to a recalibrated settler colonial politics that continues to shape contemporary cities across the United States

The Color of Politics Chris Danielson, 2013-03-07 This detailed analysis examines the role of race and racism in American politics since the 1980s and contends that despite the election of Barack Obama the effects of white supremacy still divide American society and affect voter behavior today How have the increasing diversity of our people and the election of the first black president influenced American politics This book investigates every aspect of race and politics from voter ID laws to redistricting to the use of racially divisive issues in campaigns Each of the seven chapters explores a specific political issue from its historical origin to its legacy in present day politics and the book features some of the most controversial topics on the subject including disguised racism and the myth of a post racial America *The Color of Politics* Racism in the American Political Arena Today considers a wide spectrum of political issues as it relates to minority populations The author asserts that from the Bradley effect of the 1980s to the discourse used by the Tea Party racism has left a lasting imprint on contemporary politics over the last 30 years

What Is This Thing Called Jazz? Eric Porter, 2002-01-31 Despite the plethora of writing about jazz little attention has been paid to what musicians themselves wrote and said about their practice An implicit division of labor has emerged where for the most part black artists invent and play music while white writers provide the commentary Eric Porter overturns this tendency in his creative intellectual history of African American musicians He foregrounds the often ignored ideas of these artists analyzing them in the context of meanings circulating around jazz as well as in relationship to broader currents in African American thought Porter examines several crucial moments in the history of jazz the formative years of the 1920s and 1930s

the emergence of bebop the political and experimental projects of the 1950s 1960s and 1970s and the debates surrounding Jazz at Lincoln Center under the direction of Wynton Marsalis Louis Armstrong Anthony Braxton Marion Brown Duke Ellington W C Handy Yusef Lateef Abbey Lincoln Charles Mingus Archie Shepp Wadada Leo Smith Mary Lou Williams and Reggie Workman also feature prominently in this book The wealth of information Porter uncovers shows how these musicians have expressed themselves in print actively shaped the institutional structures through which the music is created distributed and consumed and how they aligned themselves with other artists and activists and how they were influenced by forces of class and gender What Is This Thing Called Jazz challenges interpretive orthodoxies by showing how much black jazz musicians have struggled against both the racism of the dominant culture and the prescriptive definitions of racial authenticity propagated by the music's supporters both white and black

Conceptualizing Racism Noel A.

Cazenave, 2015-11-19 Conceptualizing Racism is a provocative book that confronts the language we use to discuss and understand racism Author Noel A Cazenave argues that American social science has since its inception practiced linguistic racial accommodation that blurs our understanding of systemic racism and makes it difficult to effect meaningful change Conceptualizing Racism highlights how words matter in racism studies The author traces the history of linguistic racial accommodation through the development of sociology as a discipline and illustrates how it is at play today not only within the discipline but in public life

Beyond Black and White Manning Marable, 2016-11-15

Many in the US including Barack Obama have called for a post racial politics yet race still divides the country politically economically and socially In this highly acclaimed work Manning Marable rejects both liberal inclusionist strategies and the separatist politics of the likes of Louis Farrakhan Beginning by looking back at African American politics and the fight against racism of the recent past outlining a trenchant analysis of the New Racial Domain that must be uprooted he argues powerfully for a transformationist strategy which retains a distinctive black cultural identity but draws together all the poor and exploited in a united struggle against oppression

A People's History of Detroit Mark Jay, Philip Conklin, 2020-04-17

Recent bouts of gentrification and investment in Detroit have led some to call it the greatest turnaround story in American history Meanwhile activists point to the city's cuts to public services water shutoffs mass foreclosures and violent police raids In A People's History of Detroit Mark Jay and Philip Conklin use a class framework to tell a sweeping story of Detroit from 1913 to the present embedding Motown's history in a global economic context Attending to the struggle between corporate elites and radical working class organizations Jay and Conklin outline the complex sociopolitical dynamics underlying major events in Detroit's past from the rise of Fordism and the formation of labor unions to deindustrialization and the city's recent bankruptcy They demonstrate that Detroit's history is not a tale of two cities one of wealth and development and another racked by poverty and racial violence rather it is the story of a single Detroit that operates according to capitalism's mandates

Head Shops to Whole Foods Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today's companies have adopted the language but not often the mission of liberation and social change

From Power to Prejudice Leah N. Gordon, 2015-05-20 Gordon provides an intellectual history of the concept of racial prejudice in postwar America In particular she asks what accounts for the dominance of theories of racism that depicted oppression in terms of individual perpetrators and victims more often than in terms of power relations and class conflict Such theories came to define race relations research civil rights activism and social policy Gordon's book is a study in the politics of knowledge production as it charts debates about the race problem in a variety of institutions including the Rockefeller Foundation the University of Chicago's Committee on Education Training and Research in Race Relations Fisk University's Race Relations Institutes Howard University's Journal of Negro Education and the National Conference of Christians and Jews

Black Resistance/White Law Mary Frances Berry, 1995-02-01 How the government has used the Constitution to deny black Americans their legal rights From the arrival of the first twenty slaves in Jamestown to the Howard Beach Incident of 1986 Yusef Hawkins and Rodney King federal law enforcement has pleaded lack of authority against white violence while endorsing surveillance of black rebels and using constitutional military force against them In this groundbreaking study constitutional scholar Mary Frances Berry analyzes the reasons why millions of African Americans whose lives have improved enormously both socially and economically are still at risk of police abuse and largely unprotected from bias crimes

The City after Property Sara Safransky, 2023-06-30 In The City after Property Sara Safransky examines how postindustrial decline generates new forms of urban land politics In the 2010s Detroit government officials classified a staggering 150 000 lots more than a third of the city as vacant or abandoned Analyzing subsequent efforts to shrink the Motor City's footprint and budget Safransky presents a new way of conceptualizing urban abandonment She challenges popular myths that cast Detroit as empty along with narratives that reduce its historical decline to capital and white flight In connecting contemporary

debates over neoliberal urbanism to Cold War histories and the lasting political legacies of global movements for decolonization and Black liberation she foregrounds how the making of and challenges to modern property regimes have shaped urban policy and politics Drawing on critical geographical theory and community based ethnography Safransky shows how private property functions as a racialized construct an ideology and a moral force that shapes selves and worlds By thinking the city after property Safransky illuminates alternative ways of imagining and organizing urban life Settler Colonialism, Race, and the Law Natsu Taylor Saito, 2020-03-10 How taking Indigenous sovereignty seriously can help dismantle the structural racism encountered by other people of color in the United States Settler Colonialism Race and the Law provides a timely analysis of structural racism at the intersection of law and colonialism Noting the grim racial realities still confronting communities of color and how they have not been alleviated by constitutional guarantees of equal protection this book suggests that settler colonial theory provides a more coherent understanding of what causes and what can help remediate racial disparities Natsu Taylor Saito attributes the origins and persistence of racialized inequities in the United States to the prerogatives asserted by its predominantly Angloamerican colonizers to appropriate Indigenous lands and resources to profit from the labor of voluntary and involuntary migrants and to ensure that all people of color remain in their place By providing a functional analysis that links disparate forms of oppression this book makes the case for the oft cited proposition that racial justice is indivisible focusing particularly on the importance of acknowledging and contesting the continued colonization of Indigenous peoples and lands Settler Colonialism Race and the Law concludes that rather than relying on promises of formal equality we will more effectively dismantle structural racism in America by envisioning what the right of all peoples to self determination means in a settler colonial state
