Azzarello,2025-03-31 This book is a philosophical examination of the ways in which neoliberalism underpins and impedes public education It proposes that education s adoption of neoliberal logic generates a sense of despair amongst educators who often enter the profession with the hope of building a better more just world Drawing on the author s 27 years of experience as a secondary classroom teacher and engaging with a range of theoretical concepts cultural objects and scenes of violence from her time in the classroom *The Radical Potency of Despair* renders visible the ongoing harms that neoliberal logic creates for education and educators The author proposes a new ruptured fantasy of education and suggests that it is not hope that ignites educators who keep fighting for education but rather despair Despair is conceived of as a generative force provoking educators to hold time and space open for pedagogical encounters that interrupt the ongoing instrumentalization of education The author further conceptualizes a notion of thinking with images as a pedagogical interruptive force Thinking with images she argues gives students time and space to attend to what they see thus affording them the chance to think differently about the violence of modern society Such pedagogical interruptions are presented as a refusal of the normative order of education countering present infrastructures that aim to constrain and instrumentalize education A compelling and original volume it will appeal to scholars researchers and upper level students with interests in neoliberalism and education the philosophy of education critical pedagogy and educational policy and politics *We Go Where They Go* Kristin Schwartz,Michael Staudenmaier,Shannon Clay,Lady,2023-01-24 What does it mean to risk all for your beliefs How do you fight an enemy in your midst *We Go Where They Go* recounts the thrilling story of a massive forgotten youth movement that set the stage for today s anti fascist organizing in North America When skinheads and punks in the late 1980s found their communities invaded by white supremacists and neo nazis they fought back Influenced by anarchism feminism Black liberation and Indigenous sovereignty they created Anti Racist Action At ARA s height in the 1990s thousands of dedicated activists in hundreds of chapters joined the fights political and sometimes physical against nazis the Ku Klux Klan anti abortion fundamentalists and racist police Before media pundits cynical politicians and your uncle discovered antifa Anti Racist Action was bringing it to the streets Based on extensive interviews with dozens of ARA participants *We Go Where*

They Go tells ARA's story from within giving voice to those who risked their safety in their own defense and in solidarity with others. In reproducing the posters, zines, propaganda and photos of the movement itself, this essential work of radical history illustrates how cultural scenes can become powerful forces for change. Here at last is the story of an organic yet highly organized movement exploring both its triumphs and failures and offering valuable lessons for today's generation of activists and rabble rousers. *We Go Where They Go* is a page turning history of grassroots anti racism. More than just inspiration, it's a roadmap.

The Cultural and Social Foundations of Educational Leadership Romuald Normand, Leif Moos, Min Liu, Pierre Tulowitzki, 2021-07-12 This book identifies the cultural and moral foundations of country specific educational governance and school leadership and presents the principles of justice and the diversity of common goods that guide leadership practices in schools. It contributes to an existing research field that studies diversity and ethical leadership in schools. The social dimension of school leadership is not limited to issues related to equality and equity or social inclusion. The capacity of leaders to promote civic mindedness and social cooperation, consensus and acceptance of others, the right balance between freedom and duties and reciprocity of obligations are essential to maintain democratic rights and facilitate the life together while respecting ethnic and cultural differences. Therefore the book gathers contributions from a range of international authors capable of reporting these moral and cultural features while broadening the research perspectives on school leadership.

The Perils of Pedagogy Brenda Longfellow, Scott MacKenzie, Thomas Waugh, 2013-06-01 Whether addressing HIV/AIDS, the policing of bathroom sex, censorship or anti globalization movements, John Greyson has imbued his work with cutting humour, eroticism and postmodern aesthetics. Mashing up high art, opera, community activism and pop culture, Greyson challenges his audience to consider new ways that images can intervene in both political and public spheres. Emerging on the Toronto scene in the late 1970s, Greyson has produced an eclectic, provocative and award winning body of work in film and video. The essays in *The Perils of Pedagogy* range from personal meditations to provocative textual readings to studies of the historical contexts in which the artist's works intervened politically as well as artistically. Notable writers from a range of disciplines as well as prominent experimental and activist filmmakers tackle questions of documentary ethics, moving image activism and queer coalitional politics raised by Greyson's work. Close to one hundred frame captures and stills from almost sixty works along with articles, speeches and short scripts by Greyson, several never before published, supplement the collection. Celebrating thirty years of passionate, brilliant and affecting moviemaking, *The Perils of Pedagogy* will fascinate both specialists and general readers interested in media activism and advocacy, censorship and freedom of expression.

Schooling the System Funké Aladejebi, 2021-03-05 In post World War

II Canada black women's positions within the teaching profession served as sites of struggle and conflict as the nation worked to address the needs of its diversifying population. From their entry into teachers college through their careers in the classroom and administration, black women educators encountered systemic racism and gender barriers at every step. So they worked to change the system. Using oral narratives to tell the story of black access and education in Ontario between the 1940s and the 1980s, *Schooling the System* provides textured insight into how issues of race, gender, class, geographic origin, and training shaped women's distinct experiences within the profession. By valuing women's voices and lived experiences, Funk Aladejebi illustrates that black women as a diverse group made vital contributions to the creation and development of anti-racist education in Canada. As cultural mediators within Ontario school systems, these women circumvented subtle and overt forms of racial and social exclusion to create resistive teaching methods that centred black knowledges and traditions. Within their wider communities and activist circles, they fought to change entrenched ideas about what Canadian citizenship should look like. As schools continue to grapple with creating diverse educational programs for all Canadians, *Schooling the System* is a timely excavation of the meaningful contributions of black women educators who helped create equitable policies and practices in schools and communities.

Engaging Families, Educators, and Communities as Educational Advocates Sue Winton, Lauri Johnson, 2018-10-16 This edited collection broadens understanding of family-school-community partnerships by focusing on how community groups, educators, and university professors engage with public education to achieve their own goals rather than goals defined by schools, school systems, and governments. Authors critically examine various school-community partnerships that collectively aim to improve decision-making, democratize policy processes, resist policies that support the marketization of public education, and advocate for racial equality. The book's chapters focus on advocacy efforts within and across three national contexts: England, Canada, and the United States. Together, they expand current scholarship by demonstrating how different constituencies develop alliances, experience tensions, and navigate the politics inherent in change efforts. By examining the intersections of parent and community organizing, teacher unions, and school-community partnerships across national contexts, the chapters uncover fruitful new terrain for understanding the theory and practice of educational activism. This volume was originally published as a special issue of *Leadership and Policy in Schools*.
