The Space Race Matthew Brenden Wood,2018-05-01 On July 20th 1969 Neil Armstrong landed gently on the lunar surface and became the first person to set foot on another world People around the world stopped what they were doing to crowd around television sets and radios to witness one of the greatest achievements in human history a man walking on the moon How did we get there Why haven t we gone back In The Space Race How the Cold War Put Humans on the Moon kids ages 12 to 15 explore the race to the moon against the chilling backdrop of the Cold War The Space Race was

the period during and after the Cold War when America and the Soviet Union participated in a fierce competition to see which country could beat the other into space. It was a time of bitterness, fear, and secrecy, but it was also a moment in history when two countries directed resources toward pushing themselves to reach goals that were once thought unattainable. Would we have succeeded as far as we did without the competition to be first? While Neil Armstrong will be remembered as the first person to set foot on the moon, the people and events behind this accomplishment populate a fascinating tale of politics, science, technology, and teamwork that resulted in what might be the greatest accomplishment of the twentieth century. In *The Space Race*, middle school students explore this history of science and discover the political, social, and economic factors that led to incredible achievements in space, including the launch of Sputnik, the launch of Explorer I, and eventually the landing of Apollo 11 on the moon where Neil Armstrong took those famous first steps. Middle school students will meet some of the tens of thousands of engineers and scientists that worked for years to create the technology needed to send humans to the moon and return them safely to Earth. By showing space events against the backdrop of the turmoil back on Earth, readers understand that scientific achievement doesn't happen in a vacuum, even when it happens in space. A wealth of links to primary sources makes this an interactive learning experience, while science-minded STEAM activities link the historical and scientific material. Throughout the fun facts, cool photos, and investigative projects, kids are encouraged to explore creative and critical thinking and problem-solving strategies. *The Space Race* is one book in a set of four that explore great events of the twentieth century. Other titles in this set include *Globalization*, *Why We Care About Faraway Events*, *The Vietnam War*, and *World War II: From the Rise of the Nazi Party to the Dropping of the Atomic Bomb*. *Race for the Moon*, 2016-01-20. *Race for the Moon* was originally published by Harvey in 1958, long before we landed on the moon. The stories contained inside are the product of the time period, our race against the Reds, and the desire to reach the moon. This is sci-fi and told through the eyes of Jack Kirby, Joe Simon, Al Williamson, Bob Powell, and others. This fun series lasted three issues and is reprinted in its entirety, including the Harvey house ads. In color and fully restored. *The Moon-doggie*, Amitai Etzioni, 1964. **Space Race**, Tom McGowen, 2008-08-01. Discusses the United States' role in the space race in the 1960s, including the beginning of NASA, early space exploration, and the first moon landing by American astronauts. Provided by publisher. *The Race*, James L. Schefter, 1999. The messy and glorious saga of the golden years of the American space program, told in never-before-revealed detail by a man who was there. In 1963, a young reporter named Jim Schefter was given a dream job: cover America's race to the moon. Since the astronauts were under contract to Life, Schefter's employer, for their stories, he was given unparalleled access to the lives of all the players at NASA. Of course, for PR reasons, he could not write a fraction of what he saw. Then, now at last, he can tell it all. As incredible as the official story of the space program is, the true behind-the-scenes tale is more thrilling, entertaining, and ultimately more ennobling. There were vicious battles between the German, often ex-Nazi, rocket pioneers and the younger American engineers; feuds and practical jokes; astronauts whose

private lives were considerably more colorful than has been portrayed many near fatal accidents other than Apollo 13 political chicanery from the Kremlin and the White House and dozens of smart brave larger than life individuals pulling off the greatest exploration in the history of humankind No one could tell this story as fully and as well as Jim Schefter Given full access to NASA archives and the personal papers of many of the participants both Russian and American trusted by the astronauts and mission controllers who want the real story passed on to history Schefter brings to life a more innocent heroic era in all its bravado and complexity From drunken astronaut escapades and groupies to near disasters and ferocious political infighting the race to the moon was anything but the smooth journey of popular imagination Spacebusters Philip Wilkinson, 2023 Young children can harness their reading superpowers as they blast off into space along with Apollo 11 to learn about the astronauts the spacecraft the science and the very first Moon walk **Escape This Book! Race to the Moon** Bill Doyle, 2020-11-10 Part activity book part adventure novel The Escape This Book series makes YOU the star of history Doodle decide and demolish your way through the Apollo 11 Moon landing the perfect book for fun and educational reading Reader beware This book is filled with adventure that is out of this world You will have three chances to join the space program and help the Apollo missions reach the moon Flight Director You re the boss at Mission Control Can you make split second decisions to keep the astronauts safe on their trip to the moon Flight Commander You re the astronaut in charge on the spacecraft You ll face problems as big as an explosion on the ship and as small as what to eat in space Moon Buggy Driver You get to explore the moon s surface if you can safely land on its surface first In the Escape This Book series YOU are the star of history In this third book you ll complete challenges similar to what the astronauts faced on Apollo 11 and 13 and get to meet famous NASA employees like Neil Armstrong and Katherine Johnson Don t be afraid to rip or fold a page Your mission might depend on it
