Race History:

Race and History Eugène Pittard, 1926 **A State-by-State History of Race and Racism in the United States**

Patricia Reid-Merritt, 2018-12-07 Providing chronologies of important events historical narratives from the first settlement to the present and biographies of major figures this work offers readers an unseen look at the history of racism from the perspective of individual states From the initial impact of European settlement on indigenous populations to the racial divides caused by immigration and police shootings in the 21st century each American state has imposed some form of racial restriction on its residents The United States proclaims a belief in freedom and justice for all but members of various minority racial groups have often faced a different reality as seen in such examples as the forcible dispossession of indigenous peoples during the Trail of Tears Jim Crow laws crushing discrimination of blacks and the manifest unfairness of the Chinese Exclusion Act Including the District of Columbia the 51 entries in these two volumes cover the state specific histories of all of the major minority and immigrant groups in the United States including African Americans Hispanics Asian Americans and Native Americans Every state has had a unique experience in attempting to build a community comprising multiple racial groups and the chronologies narratives and biographies that compose the entries in this collection explore the consequences of racism from states perspectives revealing distinct new insights into their respective racial histories *God, Race, and History* Matt R. Jantzen, 2021-02-05 In crafting racial visions of the modern world European thinkers appropriated the Christian doctrine of providence constructing the idea of European humanity's rule over the globe on the model of God's rule over the universe As a powerful ordering theory of the relationship between God and creation time and space self and other the doctrine served as an intellectual framework for the theorization of whiteness as the male European subject replaced Jesus Christ as the human being at the center of world history Through an analysis of the work of G W F Hegel Karl Barth and James H Cone *God Race and History* examines this subversion of the Christian doctrine of providence as well as subsequent attempts within modern Protestant theology to liberate the doctrine from its captivity to whiteness It then develops a constructive political theology of providence in conversation with Delores S Williams and M Shawn Copeland discerning Jesus Christ at work through the Holy Spirit in the struggles of ordinary overlooked and oppressed human creatures to survive and to carve out a flourishing life for themselves their communities and their world **Slavery, Race and American History** John David Smith, 2015-03-04 These essays introduce the complexities of researching and analyzing race This book focuses on problems confronted while researching writing and interpreting race and slavery such as conflict between ideological perspectives and changing interpretations of the questions *History of the Negro Race in America from 1619 to 1880* George Washington Williams, 1882 *A Cultural History of Race in the Renaissance and Early Modern Age* Kimberly Ann Coles, Dorothy Kim, 2023-06-01 The past is always an interpretive act from the lens of the present Through the lens of critical race theory the essays collected here explore new analytical models theoretical frameworks and

methodological approaches in attempting to reimagine the European Renaissance and early modern periods in terms of global expansion awareness and participation Centering race in these periods requires that we acknowledge the people against whom social hierarchies and differential treatment were directed This collection takes Europe as its focus but White Europeans are not centred in it and the experiences of Black Africans Asians Jews and Muslims are not relegated to the margins of a shared history Situating Europe within a global context forces the reconsideration of the violence that attends the interaction of peoples both across cultures and enmired within them The less we are attentive to the cultural interactions cross cultural migrations and global dimensions of the late medieval and early modern periods the less we are forced to recognize the violence intolerance power struggles and enforced suppressions that attend them **Race Or Ethnicity?**

Jorge J. E. Gracia, 2007 What is race What is ethnicity Should we think of them as identities Can they be effectively individuated How are they related How do the relations between them influence pressing issues concerned with social identity gender racism assimilation exploitation justice the law and public policy And how are the answers to these questions affected by the Black and Latino experience in the United States From the Preface This collection of new essays explores the relation between race and ethnicity and its social and political implications Although much work has been done on the philosophy of race in the past century in the United States the concept of ethnicity has only recently awoken the interest of American philosophers and the relations between race and ethnicity remain largely unexamined The discussion is divided into two parts dealing on the one hand with the nature and the relation between race and ethnicity and on the other with the social consequences of the complex relations between them Part I explores in particular the debated topic of racial and ethnic identities Does it make sense to speak of racial and ethnic identities and especially of black and Latino identities And if it does make sense how should these identities be conceptualized and how are they related to gender Part II examines how race and ethnicity have influenced the lot of some social groups in significant ways How do racially defined institutions deal with racial assimilation How do different conceptions of race and ethnicity influence public policy and various forms of racism How can exploited racial and ethnic groups be effectively recognized And what is the role of affect in social justice as dispensed by the courts **A Brief History of the Human Race** Michael Cook, 2003 Why has human history been crowded

into the last few thousand years Why has it happened at all Could it have happened in a radically different way What should we make of the disproportionate role of the West in shaping the world we currently live in This witty intelligent hopscotch through human history addresses these questions and more Michael Cook sifts the human career on earth for the most telling nuggets and then uses them to elucidate the whole From the calendars of Mesoamerica and the temple courtesans of medieval India to the intricacies of marriage among an aboriginal Australian tribe Cook explains the sometimes eccentric variety in human cultural expression He guides us from the prehistoric origins of human history across the globe through the increasing unification of the world first by Muslims and then by European Christians in the modern period illuminating the

contingencies that have governed broad historical change A smart literate survey of human life from paleolithic times until 9 11 Edward Rothstein The New York Times

A Cultural History of Race in Antiquity Denise Eileen McCoskey,2023-06-01 The era generally referred to as antiquity lasted for thousands of years and was characterized by a diverse range of peoples and cultural systems This volume explores some of the specific ways race was defined and mobilized by different groups including the Greeks Romans Egyptians Persians and Ethiopians as they came into contact with one another during this period Key to this inquiry is the examination of institutions such as religion and politics and forms of knowledge such as science that circumscribed the formation of ancient racial identities and helped determine their meanings and consequences Drawing on a range of ancient evidence literature historical writing documentary evidence and ancient art and archaeology this volume highlights both the complexity of ancient racial ideas and the often violent and asymmetrical power structures embedded in ancient racial representations and practices like war and the enslavement of other persons The study of race in antiquity has long been clouded by modern assumptions so this volume also seeks to outline a better method for apprehending race on its own terms in the ancient world including its relationship to other forms of identity such as ethnicity and gender while also seeking to identify and debunk some of the racist methods and biases that have been promulgated by classical historians themselves over the last few centuries

[Birthright Citizens](#) Martha S. Jones, 2018-06-28 Before the Civil War colonization schemes and black laws threatened to deport former slaves born in the United States Birthright Citizens recovers the story of how African American activists remade national belonging through battles in legislatures conventions and courthouses They faced formidable opposition most notoriously from the US Supreme Court decision in Dred Scott Still Martha S Jones explains no single case defined their status Former slaves studied law secured allies and conducted themselves like citizens establishing their status through local everyday claims All along they argued that birth guaranteed their rights With fresh archival sources and an ambitious reframing of constitutional law making before the Civil War Jones shows how the Fourteenth Amendment constitutionalized the birthright principle and black Americans aspirations were realized Birthright Citizens tells how African American activists radically transformed the terms of citizenship for all Americans

Race Ivan Hannaford, 1996 But he also finds the first traces of modern ideas of race and the protoscences of late medieval cabalism and hermeticism Following that trail forward he describes the establishment of modern scientific and philosophical notions of race in the nineteenth and twentieth centuries and shows how those notions became popular and pervasive even among those who claim to be nonracist

The History of White People Nell Irvin Painter, 2011-04-18 A New York Times Bestseller This terrific new book explores the notion of whiteness an idea as dangerous as it is seductive Boston Globe Telling perhaps the most important forgotten story in American history eminent historian Nell Irvin Painter guides us through more than two thousand years of Western civilization illuminating not only the invention of race but also the frequent praise of whiteness for economic scientific and political ends A story filled with towering historical figures *The History of White People* closes a huge gap in literature that has long focused on the non white and forcefully reminds us that the concept of race is an all too human invention whose meaning importance and reality have changed as it has been driven by a long and rich history of events

Reworking Race Moon-Kie Jung, 2006 In the middle decades of the twentieth century Hawai i changed rapidly from a conservative oligarchy firmly controlled by a Euro American elite to arguably the most progressive part of the United States Spearheading the shift tens of thousands of sugar pineapple and longshore workers eagerly joined the left led International Longshoremen s and Warehousemen s Union ILWU and challenged their powerful employers In this theoretically innovative study Moon Kie Jung

explains how Filipinos Japanese Portuguese and others overcame entrenched racial divisions and successfully mobilized a mass working class movement He overturns the unquestioned assumption that this interracial effort traded racial politics for class politics Instead he shows how the movement reworked race by developing an ideology of class that incorporated and rearticulated racial meanings and practices Examining a wide range of sources Jung delves into the chronically misunderstood prewar racisms and their imperial context the Big Five corporations concerted attempts to thwart unionization the emergence of the ILWU the role of the state and the impact of World War II Through its historical analysis Reworking Race calls for a radical rethinking of interracial politics in theory and practice
