Anderson, 2010-09-07 A powerful new argument for reviving the ideal of racial integration More than forty years have passed since Congress in response to the Civil Rights Movement enacted sweeping antidiscrimination laws in the Civil Rights Act of 1964 the Voting Rights Act of 1965 and the Fair Housing Act of 1968 As a signal achievement of that legacy in 2008 Americans elected their first African American president Some would argue that we have finally arrived at a postracial America but **The Imperative of Integration** indicates otherwise Elizabeth Anderson demonstrates that despite progress toward racial equality African Americans remain disadvantaged on virtually all measures of well being Segregation remains a key cause of these problems and Anderson skillfully shows why racial integration is needed to address these issues Weaving together extensive social science findings in economics sociology and psychology with political theory this book provides a compelling argument for reviving the ideal of racial integration to overcome injustice and inequality and to build a better democracy Considering the effects of segregation and integration across multiple social arenas Anderson exposes the deficiencies of racial views on both the right and the left She reveals the limitations of conservative explanations for black disadvantage in terms of cultural pathology within the black community and explains why color blindness is morally

misguided Multicultural celebrations of group differences are also not enough to solve our racial problems Anderson provides a distinctive rationale for affirmative action as a tool for promoting integration and explores how integration can be practiced beyond affirmative action Offering an expansive model for practicing political philosophy in close collaboration with the social sciences this book is a trenchant examination of how racial integration can lead to a more robust and responsive democracy *The Life of Elreta Melton Alexander* Virginia L. American Roulette Sarah Beth Kaufman, 2020-05-19 As the death penalty clings to life in many states and dies off in others this first of its kind ethnography takes readers inside capital trials across the United States Sarah Beth Kaufman draws on years of ethnographic and documentary research including hundreds of hours of courtroom observation in seven states interviews with participants and analyses of newspaper coverage to reveal how the American justice system decides who deserves the most extreme punishment The super due process accorded capital sentencing by the United States Supreme Court is the system's best attempt at individuated sentencing Resources not seen in most other parts of the criminal justice system such as jurors and psychological experts are required in capital trials yet even these cannot create the conditions of morality or justice Kaufman demonstrates that capital trials ultimately depend on performance and politics resulting in the enactment of deep biases and utter capriciousness American Roulette contends that the liberal democratic ideals of criminal punishment cannot be enacted in the current criminal justice system even under the most controlled circumstances
