Freeman, 2022-03-08

These letters between the pioneering environmentalist and her beloved friend reveal a vibrant caring woman behind the scientist. Los Angeles Times Rachel Carson author of *The Silent Spring* has been celebrated as the pioneer of the modern environmental movement. Although she wrote no autobiography she did leave letters and those she exchanged sometimes daily with Dorothy Freeman some 750 of which are collected here are perhaps more satisfying than an account of her own life. In 1953 Carson became Freeman's summer neighbor on Southport Island ME. The two discovered a shared love for the natural world; their descriptions of the arrival of spring or the song of a hermit thrush are lyrical but their friendship quickly blossomed as each realized she had found in the other a kindred spirit. To read this collection is like eavesdropping on an extended conversation that mixes the mundane events of the two women's family lives with details of Carson's research and writing and later her breast cancer. Few who read these letters will forget these remarkable women and their even more remarkable bond. Publishers Weekly Darting fresh sensuous pleasingly elliptical at times these letters also serve to tether the increasingly deified Carson firmly to earth just where she'd want to be. Kirkus Reviews starred review. It is not often that a collection of letters reveals character emotional depth personality indeed intellect and talent as well as a full biography might these letters do all that. The New York Times Book Review Provides insight into the creative process and a look into the daily lives of two intelligent perceptive women whose family responsibilities were at times almost crushing. Library Journal Dotted with vivid observations of the natural world and perceptive commentary on friendship family fame and life itself. Always Rachel will appeal to readers interested in biography and women's studies as well as those drawn to nature writing and the history of the environmental movement. Stowe, 2023-09-19 Winner 2024 Banff Mountain Book Award for Adventure Travel. A sensuous book more felt than described more described than explained more painted than penned part memoir part journal and part natural mystery tour. Carl Safina The New York Times Book Review A book to sweep you away from the shore into a wild world of water whale storm and starlight to experience what it's like to sail for weeks at a time with life set to a new rhythm. As a young girl Hannah Stowe was raised at the tide's edge on the Pembrokeshire coast of Wales falling asleep to the sweep of the lighthouse beam. Now in her midtwenties working as a marine biologist and sailor Stowe draws on her professional experiences sailing tens of thousands of miles in the North Sea North Atlantic Mediterranean Celtic Sea and the Caribbean to explore the human relationship with wild waters. Why is it she asks that she and so many others have been drawn to life at sea and what might the water around us be able to teach us. Braiding her powerful and deeply personal narrative and illustrations with stories of six keystone marine creatures the fire crow sperm whale wandering albatross humpback whale shearwater and the barnacle

Stowe invites readers to fall in love as she has with the sea and those that call it home and to discover the majesty wonder and vulnerability of the underwater world For fans of Rachel Carson and Annie Dillard *Move Like Water My Story of the Sea* is an inspiring heartfelt hymn to the sea a testament to finding and following a dream and an unforgettable introduction to a deeply gifted nature writer of a new generation *Sisterly Love* Marie A. Conn,Thérèse McGuire,2014-10-30 *Sisterly Love Women of Note in Pennsylvania History* is a collection of biographical sketches of women who have made or are making significant contributions to Pennsylvania history The authors of each chapter span across several disciplines and colleges in the Philadelphia area through SEPCHE the Southeast Pennsylvania Consortium of Higher Education In these essays you will meet artists political leaders entrepreneurs teachers computer experts environmentalists abolitionists and more Some of these women are well known many are not Yet each has helped to shape the state of Pennsylvania in compelling and meaningful ways *The Mutable Sea* Lee Anne White,2015-05-10 In turning her eye to the sea landscape photographer Lee Anne White has captured the simultaneous ebb and flow of the tide the ever changing nature of the shore and the colorful reflections of the evening sky in a series of lush intimate photographs Taken mostly after sunset on Amelia Island along northern Florida s Atlantic coastline these images convey the way gentle waves washing ashore make one feel calm relaxed and contemplative An essay by White as well as an excerpt from Rachel Carson s *The Edge of the Sea* set the tone for this book by reflecting on change at both the edge of the sea and life **Circles and the Cross** Loren Wilkinson,2023-08-21 *Circles and the Cross* is an invitation to explore two mysteries One is the miracle of the cosmos why is there something and not nothing The other is the miracle of consciousness why should this collection of stardust be an I and not just an it Our basic response to those mysteries is wonder and from wonder have grown the three great trees of human culture religion art and science This exploration is undertaken in the light of a third mystery the cross of Christ is the clearest picture we have of the triune Creator of both cosmos and consciousness That self emptying of the Creator out of love for the creation helps us understand the pleasures paradoxes and pains of science it helps us understand how evolution can be another name for creation it casts light on the Enlightenment and Romanticism In particular it illuminates the environmental movement an ethic in search of a religion Loren Wilkinson drawing on fifty years of teaching and writing about our relationship to creation invites you to join this journey into understanding how the cross of Christ sheds light on the mysteries that surround us and gives us hope in a difficult age *Literature, Writing, and the Natural World* James Guignard,T. P. Murphy,2020-06-12 The English Association of Pennsylvania State Universities held its annual meeting in 2006 at Mansfield University in Pennsylvania The conference theme was Literature Writing and the Natural World This collection grows out of the conference and indicates the desire to understand all aspects of our relationship with the natural world the function of literature in clarifying that relationship in ways science and politics cannot and the role of the literature teacher scholar wanting to respond to pressures of environmental change In these times interpretation is a vital task not only for the way it

educates us about our attitudes toward nature but because it develops the crucial skills of looking closely engaging reflecting and responding One could argue that as a culture Americans are behind the curve in understanding the ways we depend upon a healthy relationship with nature and one way among many depends upon examining it through texts and textual representation When the writers here dig into *The Main Woods* Jayber Crow the poetry of Pablo Guevara or the movie *Crash* they are contributing to our understanding of the ways in which we view nature and how that view plays a role in the way we relate to nature These days many disciplines engage global warming and other environmental issues routinely and the literature classroom should be no different Just as we read a book and address fundamental themes such as What does it mean to love or How do we develop identity we should also be asking What is my responsibility when I decide what resources to use If we understand literature as equipment for living in a warming world we may be able to help students make some sense out of their world and some decisions about how to act

On a Farther Shore William Souder, 2012 Rachel Carson founder of the modern environmental movement began work on her seminal book *Silent Spring* in the late 1950s when a dizzying array of synthetic pesticides had come into use Leading this chemical onslaught was the insecticide DDT Effective against crop pests as well as insects that transmitted human diseases such as typhus and malaria DDT had at first appeared safe But as its use expanded alarming reports surfaced of collateral damage to fish birds and other wildlife *Silent Spring* was a chilling indictment of DDT and its effects and it shocked the public and forced the government to take action despite a withering attack on Carson from the chemicals industry The book awakened the world to the heedless contamination of the environment and eventually led to the establishment of the Environmental Protection Agency and to the banning of DDT and a host of related pesticides
