determinism to democracy Ethics of Terrorism & Counter-Terrorism Georg Meggle, Andreas Kemmerling, Mark Textor, 2013-05-02 We are supposed to wage war against Terrorism but exactly what we are fighting against in this war there is nearly no consensus about And much worse nearly nobody cares about this conceptual disaster the main thing being whether or not you are taking sides with the good guys This volume is an analytical attempt to end this disaster What is Terrorism Are terrorist acts to be defined exclusively on the basis of the characteristics of the respective actions Or should we restrict such actions to acts performed by non state organisations And most important is terrorism already by its very nature to be morally condemned But having a clear idea of what Terrorism is would be only the beginning Rational moral assessment still needs two further components The relevant facts and the relevant values and norms Now in a field where systematic disinformation has been even proclaimed to be the official policy facts are obviously very hard to get at This volume is mainly interested in Ethics What s wrong with Terrorism And what is morally right or morally wrong respectively with all the different means of Counter Terrorism What are the moral boundaries for waging war against terrorism What are the right ways of dealing with terrorists And what about the alleged anti terrorism wars on Afghanistan and Iraq With contributions from Marcelo Dascal Tomis Kapitan Daniel Messelken Seumas Miller Olaf L Mueller Igor Primoratz Charles P Webel Per Bauhn R diger Bittner C A J Tony Coady Haig Khatchadourian Georg Meggle Peter Simpson Carolin Emcke Ralf Groetker Laurence Lustgarten Thomas Mertens Aleksandar Pavkovic Filimon Peonidis Janna Thompson V ronique Zanetti

virtuous as long as they deliver the goods It challenges the traditional defense of profit maximization arguing that profit maximization is morally ambitious because it requires businessmen to form normative abstractions and to cultivate a virtuous character In so doing the author also challenges the moral basis of corporate social responsibility Proponents of CSR argue that businessmen can do good while doing well This book argues that businessmen already do good by maximizing profit drawing upon the histories of the wheel the refrigerator and the shipping container as well as the biographies of J P Morgan John D Rockefeller and Thomas Edison to demonstrate the role of values in the creation of material goods and the role of the virtues in value creation The author challenges readers to rethink the relationship between profit value and virtue Die

Privileged Populists Micah J. Fleck,2022-02-10 Counter revolution has long been a tool of propagandists to redirect populist movements from achieving actual liberation for themselves But what happens when counter revolutionaries begin to believe their own claims of genuine revolution What leads to such a phenomenon And how big a role does mainstream political ideology and policy play in the mass ignorance and revisionism that has now allowed nationalism to influence national elections Privileged Populists sets out to answer these questions while aiming to understand the organic emergence of anti political populism within the context of late stage capitalism in the West This book analyses how these elements inform and validate each other as means of appealing to the growing sense of cultural angst and economic unrest within the conservative working class and unwittingly giving undue credence to some of the most extreme right wing ideological claims

in the process What results is a journey through the history of revolutionary thought and how that history has been distorted over time as well as an anthropological investigation of populism itself as a naturally occurring logic within groups and how it can be exploited in the absence of substantive mainstream solutions to present day economic crises Jewish Radicalisms Frank Jacob, Sebastian Kunze, 2019-12-16 Jewish radical thoughts and actions can be described in a variety of terms and dimensions Often there is a connection implied between left wing ideas and activists as well as their radicalism This volume surveys Jewish radicalisms and present different approaches on this global historical phenomenon which are conceptualised as three different phenomena Cultural political and religious radicalism The volume is focussed on the 20th century and tries to grasp the manifold Ideas of Jewish radicalism and thereby wants to open up the discussion on this category This discussion is needed not only within Jewish Studies to engage with this topic and broaden our understanding of Jewish Radicalism as well as to form a useful applicable category This volume is to be understood as a call for and a contribution to this debate
