Contemporary Readings in Social Problems Anna Leon-Guerrero, 2008-11-21 Companion reader to Anna Leon Guerrero's *Social Problems* 2nd Edition *Inequality in the United States* John Brueggemann, 2020-11-25 For courses in Inequality Social Stratification and Social Problems A thoughtful compilation of readings on inequality in the United States The main objective of this text is to introduce students to the subject of social stratification as it has developed in sociology The central focus is on domestic inequality in the United States with some attention to the broader international context The primary goal of the text is to offer an understanding of the history and context of debates about inequality and a secondary goal is to give some indication as to what issues are likely to arise in the future *Social Problems* Donileen R. Loseke, Joel Best, 2017 This collection of focused essays is directed at several levels of students of social problems It is accessible to the uninitiated who are not familiar with the constructionist literature and aimed at those who are not particularly interested in subtle theoretical and empirical issues of concern to academics studying social problems from constructionist perspectives Some readings focus on the construction of problems by scientists and other professionals others examine the work of social activists mass media and social service personnel Among the topics included are studies of social inequalities and individual deviance a comparison of the images of social problems in the United States with those in other countries and an examination of the importance of politics and power in constructing public images of social problems Constructionist perspectives have become the leading theoretical approach for sociology and allied fields in studying social problems Yet constructionists impact on the teaching of social problems has been far less dramatic Undergraduate courses on social problems are often subject to a theoretical barrage of eclectic perspectives Just as the first social problems textbooks did almost a century ago textbooks continue to present a series of unrelated chapters each devoted to a particular social problem *Social Problems* is an effort at systematic analysis rather than random thought on the subject *Social Problems* presents detailed case studies demonstrating how constructionist perspectives can actually be applied to understand particular social problems While these articles can be read alone the editors have organized these selections to correspond with the chapter topics in the second edition of Donileen Loseke's *Thinking about Social Problems* an accessible introduction to constructionist approaches At the same time some instructors who use this edited collection might wish to provide their own mix to the selection process Many of the contributions make multiple points and so reasonably could be used to illustrate other basic texts or classic studies in the field of social problems Donileen R. Loseke is professor of sociology at the University of South Florida Joel Best is professor and chair Department of Sociology and Criminal Justice University of Delaware He has also served as an advisory editor for *Aldine* in the area of social problems **Race and Racism in the United States** Charles A. Rosie Tighe,2022-07-14 This second edition of The Affordable Housing Reader provides context for current discussions surrounding housing policy emphasizing the values and assumptions underlying debates over strategies for ameliorating housing problems experienced by low income residents and communities of color The authors highlighted in this updated volume address themes central to housing as an area of social policy and to understanding its particular meaning in the United States These include the long history of racial exclusion and the role that public policy has played in racializing access to decent housing and well serviced neighborhoods the tension between the economic and social goals of housing policy and the role that housing plays in various aspects of the lives of low and moderate income residents Scholarship and the COVID 19 pandemic are raising awareness of the link between access to adequate housing and other rights and opportunities This timely reader focuses attention on the results of past efforts and on the urgency of reframing the conversation It is both an exciting time to teach students about the evolution of United States housing policy and a challenging time to discuss what policymakers or practitioners can do to effect positive change This reader is aimed at students professors researchers and professionals of housing policy public policy and city planning **Social Life and Institutions** Joseph Kinmont Hart,1924 **Research in Education** ,1973 *Resources in Education* ,1997-10 **The Origins of American Criminology** Francis T. Cullen,Cheryl Lero Jonson,Andrew J. Myer,Freda Adler,2011 The essays contained in this book capture the stories behind the invention of criminology s major theoretical perspectives and preserves information from the generation that defined the field for the past decades that otherwise would have been lost This history shows criminology to be a human enterprise Its ideas were not driven primarily by data nor were the theories invented solely as part of the scientific process To the contrary American criminology s great theories most often preceded the collection of data they guided and produced empirical inquiry not vice versa This volume demonstrates that humanity is what makes theory possible in that diverse experiences allow individual scholars to see the world differently and thus shape theoretical paradigms based on their own unique life stories W.E.B. Du Bois Brian L. Johnson,2008-09-05 Brian L Johnson s

remarkable biography of W E B Du Bois describes the evolution of religious views from Du Bois's birth until his resignation as editor of Crisis magazine in 1934 W E B Du Bois Toward Agnosticism 1868 1934 traces Du Bois's mounting skepticism through his earliest church experiences to his sociological training in Berlin culminating with his writings in Crisis magazine Johnson argues that despite Du Bois's frequent use of Protestant religious rhetoric the mature Du Bois was a critic of African American religious organizations and their leaders and a scientifically oriented agnostic who did not adhere to any religious orthodoxy
