Pasadena Before the Roses Yvette J. Saavedra, 2018-10-09 Incorporated in 1886 by midwestern settlers known as the Indiana Colony the City of Pasadena has grown into a world famous tourist destination recognized for the beauty of its Tournament of Roses Parade the excitement of the annual Rose Bowl and the charm of the Old Town District But what existed before the roses Before it was Pasadena this land was Hahamog na the ancestral lands of the Tongva people Later it comprised the heart of the San Gabriel Mission lands and in the Mexican period it became Rancho San Pascual The 1771 Spanish conquest of this land set in motion several colonial processes that would continue into the twentieth century and beyond In *Pasadena Before the Roses* historian Yvette J Saavedra examines a period of 120 years to illustrate the interconnectedness of power ideas of land use and the negotiation of identity within multiple colonial moments

By centering the San Gabriel Mission lands as the region's economic, social, and cultural foundation, she shows how Indigenous, Spanish, Mexican, and American groups each have redefined the meanings of land use to build their homes and their lives. These visions have resulted in competing colonialisms that framed the racial, ethnic, gender, and class hierarchies of their respective societies. *The Browning of America and the Evasion of Social Justice* Ronald R. Sundstrom, 2008-10-09

Considers the effects of the browning of America on philosophical debates over race, racism, and social justice. Relational Formations of Race Natalia Molina, Daniel Martinez HoSang, Ramón A. Gutiérrez, 2019-02-05

Relational Formations of Race brings African American, Chicana, Latinx, Asian American, and Native American studies together in a single volume, enabling readers to consider the racialization and formation of subordinated groups in relation to one another. These essays conceptualize racialization as a dynamic and interactive process: group-based racial constructions are formed not only in relation to whiteness but also in relation to other devalued and marginalized groups. The chapters offer explicit guides to understanding race as relational across all disciplines, time periods, regions, and social groups. By studying race relationally and through a shared context of meaning and power, students will draw connections among subordinated groups and will better comprehend the logic that underpins the forms of inclusion and dispossession such groups face. As the United States shifts toward a minority-majority nation, Relational Formations of Race offers crucial tools for understanding today's shifting race dynamics.

Animals, Race, and Multiculturalism Luís Cordeiro-Rodrigues, Les Mitchell, 2017-12-20

This book focuses on multiculturalism, racism, and the interests of nonhuman animals. Each are in their own right rapidly growing and controversial fields of enquiry, but how do multiculturalism and racism intersect with the debate concerning animals and their interests? This is a deceptively simple question, but one that is becoming ever more pressing as we examine our societal practices in a pluralistic world. Collating the work of a diverse group of academics from across the world, the book includes writing on a wide range of subjects and addressing contemporary issues in this critical arena. Subjects covered include multiculturalism, group rights, and the limits of tolerance; ethnocentrism and animals; racism and discrimination; and non-Western alternatives to animal rights and welfare. The book will be of interest to researchers, lecturers, and advanced students, as well as a range of social justice organisations, government institutions, animal activist organisations, and environmental groups.

They Saved the Crops Don Mitchell, 2012 At the outset of World War II California agriculture seemed to be on the cusp of change Many Californians reacting to the ravages of the Great Depression called for a radical reorientation of the highly exploitative labor relations that had allowed the state to become such a productive farming frontier But with the importation of the first braceros guest workers from Mexico hired on an emergency basis after the United States entered the war an even more intense struggle ensued over how agriculture would be conducted in the state Esteemed geographer Don Mitchell argues that by delineating the need for cheap flexible farm labor as a problem and solving it via the importation of relatively disempowered migrant workers an alliance of growers and government actors committed the United States to an agricultural system that is in important respects still with us *They Saved the Crops* is a theoretically rich and stylistically innovative account of grower rapaciousness worker militancy rampant corruption and bureaucratic bias Mitchell shows that growers workers and officials confronted a series of problems that shaped and were shaped by the landscape itself For growers the problem was finding the right kind of labor at the right price at the right time Workers struggled for survival and attempted to win power in the face of economic exploitation and unrelenting violence Bureaucrats tried to harness political power to meet the demands of as one put it the people whom we serve Drawing on a deep well of empirical materials from archives up and down the state Mitchell s account promises to be the definitive book about California agriculture in the turbulent decades of the mid twentieth century

[Archives of Labor](#) Lori Merish, 2017-05-04 In *Archives of Labor* Lori Merish establishes working class women as significant actors within literary culture dramatically redrawing the map of nineteenth century US literary and cultural history Delving into previously unexplored archives of working class women s literature from autobiographies pamphlet novels and theatrical melodrama to seduction tales and labor periodicals Merish recovers working class women s vital presence as writers and readers in the antebellum era Her reading of texts by a diverse collection of factory workers seamstresses domestic workers and prostitutes

boldly challenges the purportedly masculine character of class dissent during this era Whether addressing portrayals of white New England factory girls fictional accounts of African American domestic workers or the first person narratives of Mexican women working in the missions of Mexican California Merish unsettles the traditional association of whiteness with the working class to document forms of cross racial class identification and solidarity In so doing she restores the tradition of working women s class protest and dissent shows how race and gender are central to class identity and traces the ways working women understood themselves and were understood as workers and class subjects

Colonial Intimacies Erika Perez, 2018-01-25 A gem of historical scholarship Vicki L Ruiz author of *From Out of the Shadows Mexican Women in Twentieth Century America* How do intimate relationships reveal reflect enable or enact the social and political dimensions of imperial projects In particular how did colonial relations in late eighteenth and nineteenth century southern California implicate sexuality marriage and kinship ties In *Colonial Intimacies* Erika P rez probes everyday relationships encounters and interactions to show how intimate choices about marriage social networks and godparentage were embedded in larger geopolitical concerns Her work reveals through the lens of social and familial intimacy subtle tools of conquest and acts of resistance and accommodation among indigenous peoples Spanish Mexican settlers Franciscan missionaries and European and Anglo American merchants Concentrating on Catholic conversion compadrazgo baptismal sponsorship that often forged interethnic relations and intermarriage P rez examines the ways indigenous and Spanish Mexican women helped shape communities and sustained their culture She uncovers an unexpected fluidity in Californian society shaped by race class gender religion and kinship that persisted through the colony s transition from Spanish to American rule *Colonial Intimacies* focuses on the offspring of interethnic couples and their strategies for coping with colonial rule and negotiating racial and cultural identities P rez argues that these sons and daughters experienced conquest in different ways tied directly to their gender and in turn faced different options in terms of marriage partners economic status social networks and expressions of biculturality Offering a more nuanced understanding of the colonial experience *Colonial Intimacies* exposes the personal ties that undergirded imperial relationships in Spanish Mexican and early American California

Tierra Y Libertad Steven Bender, 2010-09-29 One of the quintessential goals of the American Dream is to own land and a home a place to raise one s family and prove one s prosperity Particularly for immigrant families home ownership is a way to assimilate into American culture and community However Latinos who make up the country s largest minority population have largely been unable to gain this level of inclusion Instead they are forced to cling to the fringes of property rights and ownership through overcrowded rentals transitory living arrangements and at best home acquisitions through subprime lenders In *Tierra y Libertad* Steven W Bender traces the history of Latinos struggle for adequate housing opportunities from the nineteenth century to today s anti immigrant policies and national mortgage crisis Spanning southwest to northeast rural to urban Bender analyzes the legal hurdles that prevent better housing opportunities and offers ways to approach sweeping legal

reform *Tierra y Libertad* combines historical cultural legal and personal perspectives to document the Latino community's ongoing struggle to make America home

Imperial Metropolis Jessica M. Kim, 2019-08-09 In this compelling narrative of capitalist development and revolutionary response Jessica M Kim reexamines the rise of Los Angeles from a small town to a global city against the backdrop of the U S Mexico borderlands Gilded Age economics and American empire It is a far reaching transnational history chronicling how Los Angeles boosters transformed the borderlands through urban and imperial capitalism at the end of the nineteenth century and how the Mexican Revolution redefined those same capitalist networks into the twentieth Kim draws on archives in the United States and Mexico to argue that financial networks emerging from Los Angeles drove economic transformations in the borderlands reshaped social relations across wide swaths of territory and deployed racial hierarchies to advance investment projects across the border However the Mexican Revolution with its implicit critique of imperialism disrupted the networks of investment and exploitation that had structured the borderlands for sixty years and reconfigured transnational systems of infrastructure and trade Kim provides the first history to connect Los Angeles's urban expansionism with more continental and global currents and what results is a rich account of real and imagined geographies of city race and empire

Native Hubs Renya K. Ramirez, 2007 An ethnography of urban Native Americans in the Silicon Valley that looks at the creation of social networks and community events that support tribal identities

Mongrels, Bastards, Orphans, and Vagabonds Gregory Rodriguez, 2008-10-14 An unprecedented account of the long term cultural and political influences that Mexican Americans will have on the collective character of our nation In considering the largest immigrant group in American history Gregory Rodriguez examines the complexities of its heritage and of the racial and cultural synthesis *mestizaje* that has defined the Mexican people since the Spanish conquest in the sixteenth century He persuasively argues that the rapidly expanding Mexican American integration into the mainstream is changing not only how Americans think about race but also how we envision our nation Brilliantly reasoned highly thought provoking and as historically sound as it is anecdotally rich *Mongrels Bastards Orphans and Vagabonds* is a major contribution to the discussion of the cultural and political future of the United States

California and Hawai'i Bound Henry Knight Lozano, 2021-08 Henry Knight Lozano explores how U S boosters writers politicians and settlers promoted and imagined California and Hawai'i as connected places and how this relationship reveals the fraught constructions of an Americanized Pacific West from the 1840s to the 1950s
