Browning, Dale Rogers Marshall, David H. Tabb, 1990 This engaging up to date collection of original essays focuses on the continuing struggle for minorities to gain political power in American cities The essays included in this book were written specifically for this text by top urban scholars who have done extensive analysis of the development of urban policy in response to minority concerns Each selection addresses a particular city's racially based electoral coalitions and leadership as well as examining recent political changes their impact and future implications Each essay also features the editors successful Political Incorporation Model which provides a framework melding research on ethnic coalition with mobilization strategies and allows students to effectively compare one U S city to another [Interpreting Racial Politics in the United States](#) Ronald Schmidt, Sr., 2020-12-30 Few subjects of social scientific inquiry need interpretive analysis more than the topic of racial politics yet most US political science employs a narrowly behavioralist orientation This book argues that it is time for political scientists studying race to more fully engage the issues that generate its political significance Drawing on the work of interpretive political scholars and methods Ron Schmidt Sr addresses core questions regarding racial politics in the US to demonstrate the value of using interpretive methods to better understand the meaning and significance of political actions structures and conflicts involving racial identities not instead of behavioral research but as a necessary addition Interpreting Racial Politics in the United States will greatly enhance the evolving conversations concerning race and inequality within the US It will be of great interest to students and scholars of politics and sociology but also to those interested in deepening their understanding of racial politics [Political Monopolies in American Cities](#) Jessica Trounstein, 2008-09-15 Around the same time that Richard J Daley governed Chicago greasing the wheels of his notorious political machine during a tenure that lasted from 1955 to his death in 1976 Anthony Dutch Hamann's reform government centralized authority to similar effect in San Jose In light of their equally exclusive governing arrangements a similarity that seems to defy their reputations Jessica Trounstein asks whether so called bosses and reformers are more alike than we might have realized Situating her in depth studies of Chicago and San Jose in the broad context of data drawn from more than 240 cities over the course of a century she finds that the answer a resounding yes illuminates the nature of political power Both political machines and reform governments she reveals bias the system in favor of incumbents effectively establishing monopolies that free governing coalitions from dependence on the support of their broader communities Ironically Trounstein goes on to show the resulting loss of democratic responsiveness eventually mobilizes residents to vote monopolistic regimes out of office Envisioning an alternative future for American cities Trounstein concludes by suggesting

solutions designed to free urban politics from this damaging cycle Race, Poverty, and American Cities John Charles Boger, Judith Welch Wegner, 1996-09-09 Precise connections between race poverty and the condition of America's cities are drawn in this collection of seventeen essays Policymakers and scholars from a variety of disciplines analyze the plight of the urban poor since the riots of the 1960s and the resulting 1968 Kerner Commission Report on the status of African Americans In essays addressing health care education welfare and housing policies the contributors reassess the findings of the report in light of developments over the last thirty years including the Los Angeles riots of 1992 Some argue that the long standing obstacles faced by the urban poor cannot be removed without revitalizing inner city neighborhoods others emphasize strategies to break down racial and economic isolation and promote residential desegregation throughout metropolitan areas Guided by a historical perspective the contributors propose a new combination of economic and social policies to transform cities while at the same time improving opportunities and outcomes for inner city residents This approach highlights the close links between progress for racial minorities and the overall health of cities and the nation as a whole The volume which began as a special issue of the North Carolina Law Review has been significantly revised and expanded for publication as a book The contributors are John Charles Boger Alison Brett John O Calmore Peter Dreier Susan F Fainstein Walter C Farrell Jr Nancy Fishman George C Galster Chester Hartman James H Johnson Jr Ann Markusen Patricia Meaden James E Rosenbaum Peter W Salsich Jr Michael A Stegman David Stoesz Charles Sumner Stone Jr William L Taylor Sidney D Watson and Judith Welch Wegner Morality Politics in American Cities Elaine B. Sharp, Yvette M. Alex-Assensoh, 2005 Topless bars casino gambling needle exchange programs for drug addicts there's no question morality issues remain front and center in urban politics Presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns Drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use By analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues Far more than a statistical study Morality Politics in American Cities is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies Here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs These stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues They also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues Overall

the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions As provocative as it is informative Morality Politics in American Cities demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve Its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics Governing American Cities Michael

Jones-Correa,2001-11-29 The new immigrants who have poured into the United States over the past thirty years are rapidly changing the political landscape of American cities Like their predecessors at the turn of the century recent immigrants have settled overwhelmingly in a few large urban areas where they receive their first sustained experience with government in this country including its role in policing housing health care education and the job market Governing American Cities brings together the best research from both established and rising scholars to examine the changing demographics of America s cities the experience of these new immigrants and their impact on urban politics Building on the experiences of such large ports of entry as Los Angeles New York Miami Houston Chicago and Washington D C Governing American Cities addresses important questions about the incorporation of the newest immigrants into American political life Are the new arrivals joining existing political coalitions or forming new ones Where competition exists among new and old ethnic and racial groups what are its characteristics and how can it be harnessed to meet the needs of each group How do the answers to these questions vary across cities and regions In one chapter Peter Kwong uses New York s Chinatown to demonstrate how divisions within immigrant communities can cripple efforts to mobilize immigrants politically Sociologist Guillermo Grenier uses the relationship between blacks and Latinos in Cuban American dominated Miami to examine the nature of competition in a city largely controlled by a single ethnic group And Matthew McKeever takes the 1997 mayoral race in Houston as an example of the importance of inter ethnic relations in forging a successful political consensus Other contributors compare the response of cities with different institutional set ups some cities have turned to the private sector to help incorporate the new arrivals while others rely on traditional political channels Governing American Cities crosses geographic and disciplinary borders to provide an illuminating review of the complex political negotiations taking place between new immigrants and previous residents as cities adjust to the newest ethnic succession A solution oriented book the authors use concrete case studies to help formulate suggestions and strategies and to highlight the importance of reframing urban issues away from the zero sum battles of the past **American Urban Politics in a Global Age** Paul Kantor,Dennis R. Race, Power, and Political Emergence in Memphis Sharon D. Wright, 2021-12-12 Race Power and

Political Emergence in Memphis examines black political behavior and empowerment strategies in the city of Memphis. Each chapter of the text focuses on three themes: mobilization, emergence, and incorporation. By analyzing the effects of race on black political development in Memphis, scholars will be able to examine broader questions about its effects in other cities. How do political machines use substantial black electorates to their advantage? What forms of protest do black communities conduct to rebel against machine rule? What primary mobilization tactics have black citizens used during the different periods of their political development? Why do blacks mobilize more quickly in some cities? In cities with large and predominantly black populations, what elements prevent black candidates from winning citywide races? What constraints do newly elected black mayors face? What benefits do black citizens gain from their representation? After a predominantly black governing coalition is elected, what obstacles remain? Can black citizens translate proportional representation into strong political incorporation? How much power can African Americans realistically expect to gain in cities? This book is the most comprehensive case study of the city's political scene written to date. The text primarily shows that white racism is not the only obstacle to black political development. Black citizens can have population majorities but lose elections for other reasons. Their ability to win elections and gain full incorporation depends heavily on whether they minimize internal conflict and establish coalitions with middle class citizens and the business establishment.

Big-city Politics, Governance, and Fiscal Constraints George E. Peterson, 1994. Big city mayors and other political leaders face the triple challenge of assembling a winning political coalition, translating this into an effective governing coalition, and coping with a tightening local budget constraint. The challenge is still greater when elections have produced a change in ethnic control of local government, bringing into power new groups that want to use government spending to serve their constituents' demands but are resisted by those controlling the economic resources. This volume explores the political transition now going on in big cities. One group of chapters examines recent electoral politics in Chicago, Philadelphia, Los Angeles, Miami, and San Antonio, where different types of ethnic and class lines have been drawn and where different strategies have been employed to adjust political machines to the new realities. A second group of chapters considers the business of governing under the conflicting pressures of community organizations, the press, the business community, and higher levels of government. A final group of chapters examines the fiscal and budgetary constraints upon big city governments and the difficulty that these governments, no matter how well motivated, face in generating jobs and economic opportunity for their political constituents.
