Real NASCAR Daniel S. Pierce,2010 Pierce offers a revealing new look at NASCAR racing from its postwar beginnings on Daytona Beach and Piedmont dirt tracks through the early 1970s when the sport spread beyond its Southern roots and

gained national recognition      Laws of the State of New York Passed at the ... Session of the Legislature New York (State),1984      Racing to the Bottom? Kathryn Harrison,2011-11-01 The spectre of a race to the bottom is increasingly prominent in debates about globalization and also within federal systems where the mobility of both capital and individuals prompts fears of interjurisdictional competition with respect to taxes and environmental and welfare standards While there has been no shortage of either political rhetoric or academic theorizing on this subject empirical studies have been in shorter supply This volume seeks to fill that gap by asking Are Canadian provinces engaged in a race to the bottom and if so what are the consequences The contributors apply insights from economics and political science to several policy fields What emerges is a theoretical and empirical picture of interprovincial competition that shows it to be more complex than the popular image of a race to the bottom and that also contradicts predictions of an inexorable downward spiral This timely practical volume will be of interest to public policy practitioners as well as to students and scholars of economics and political science      **The regional travel guide for Jurby (Isle of Man)** ,2025-09-24      **Sport Management** Russell Hoye,Aaron C.T. Thompson,Thomas J. Volgy,2024-08-01 This volume re examines the notion of the East Asian peace arguing that it requires updating for the current and near future context of US Chinese rivalry The East Asian peace refers to the remarkable change in conflict levels in eastern Eurasia over the past 80 years or even the past 130 years or so Prior to the late 1970s East Asia was regarded as the most conflictual region on the planet Although insurgencies have continued in places such as Myanmar Thailand and the Philippines after the 1980s East and Southeast Asia became one of the world s least conflictual regions Geopolitics and

economic development worked hand in hand to reduce conflict in the region and in this respect the East Asian peace has been a confluence of peace. The general problem with a confluence of peace is that the factors that shape it evolve over time and the specific circumstances in question seem to be evolving in a different direction with East Asia shaping up to be the most central locale of the contest between US and Chinese hegemony both regionally and perhaps globally. This book argues that the idea of the East Asian peace now requires adjustment to the current and near future context. The more general arguments presented here focus on alternative interpretations of how regional peace and order should be interpreted while the more specific arguments involve interpretations of Chinese and other countries' behavior in the context of the heightened rivalry between China and the United States. This book will be of much interest to students of East Asian politics, peace studies, foreign policy and international relations.
