Stavenhagen, 2005-04-05 In a time when racism is on the rise as a source of conflict and social justice has been increasingly demanded by the civic society this collection stands as a timely reminder that to ignore the racial factor in the globalization forces is as mistaken as eliminating class analysis The essays published here supplement the literature of comparative race relations from the standpoint of the theory of institutional racism and its effect on public policies such as immigration citizenship security and policing

Race, Money, and the American Welfare State Michael E. Brown, 2018-10-18

The American welfare state is often blamed for exacerbating social problems confronting African Americans while failing to improve their economic lot Michael K Brown contends that our welfare system has in fact denied them the social provision it gives white citizens while stigmatizing them as recipients of government benefits for low income citizens In his provocative history of America's safety net from its origins in the New Deal through much of its dismantling in the 1990s Brown explains how the forces of fiscal conservatism and racism combined to shape a welfare state in which blacks are disproportionately excluded from mainstream programs Brown describes how business and middle class opposition to taxes and spending limited the scope of the Social Security Act and work relief programs of the 1930s and the Great Society in the 1960s These decisions produced a welfare state that relies heavily on privately provided health and pension programs and cash benefits for the poor In a society characterized by pervasive racial discrimination this outcome Michael Brown makes clear has led to a racially stratified welfare system by denying African Americans work whites limited their access to private benefits as well as to social security and other forms of social insurance making welfare their main occupation In his conclusion Brown addresses the implications of his argument for both conservative and liberal critiques of the Great Society and for policies designed to remedy inner city poverty

Uprooting Racism Paul Kivel, 2011-09-27 In 2008 the United States elected its first black president and recent polls show that only twenty two percent of white people in the United States believe that racism is a major societal problem On the surface it may seem to be in decline However the evidence of discrimination persists throughout our society Segregation and inequalities in education housing health care and the job market continue to be the norm Post 9 11 increased insecurity and fear have led to an epidemic of the scapegoating and harassment of people of color Uprooting Racism offers a framework for understanding institutional racism It provides practical suggestions tools examples and advice on how white people can intervene in interpersonal and organizational situations to work as allies for racial justice Completely revised and updated this expanded third edition directly engages the reader through questions exercises and suggestions for action and takes a detailed look at current issues such as affirmative action immigration and health care It also includes a wealth of information about specific cultural groups such as Muslims people with mixed heritage Native Americans Jews recent immigrants Asian Americans and Latinos Previous editions of Uprooting Racism have sold more than fifty thousand copies Accessible personal supportive and practical this book is ideal for students community activists teachers youth workers and anyone interested in issues of diversity multiculturalism and social justice Paul Kivel is an award winning author and an accomplished trainer and speaker He has been a social justice activist a nationally and internationally recognized anti racism educator and an innovative leader in violence prevention for over forty years

Race and the Making of American Liberalism Carol A. Horton, 2005-09-08 Race and the Making of American Liberalism traces the roots of the contemporary crisis of progressive liberalism deep into the nation's racial past Horton argues that the contemporary conservative claim that the American liberal tradition has been rooted in a color blind conception of individual rights is inaccurate and misleading In contrast American liberalism has alternatively served both to support and oppose racial

hierarchy as well as socioeconomic inequality more broadly Racial politics in the United States have repeatedly made it exceedingly difficult to establish powerful constituencies that understand socioeconomic equity as vital to American democracy and aspire to limit gross disparities of wealth power and status Revitalizing such equalitarian conceptions of American liberalism Horton suggests will require developing new forms of racial and class identity that support rather than sabotage this fundamental political commitment

Human Rights and Charity Law Kerry O'Halloran, 2016-03-10 The 60 or so nations that subscribe to the common law tradition had for centuries broadly accepted the same legal definitions of what constitutes a charity In recent years however a number of countries have embarked on charity law reform processes designed to strengthen the regulatory framework and to review and encode common law concepts A primary driver of reform was the need to modernise national charity law and ensure human rights compatibility In light of these reforms this book takes stock of how charity law is adapting to face the challenges presented by human rights The book identifies the key areas where human rights and charity law intersect and examines the importance of those areas the principles involved and their political significance It offers a comparative analysis of selected common law countries including England Wales Ireland US Canada Australia and New Zealand assessing the extent of national human rights and charity compatibility Kerry O Halloran also goes on to consider tensions arising from the intersection of human rights and charity law including the significance of cultural values and heritage the importance of proportionality and striking a balance between public and private interests in current society

Race and Social Equity Susan T Gooden, 2015-01-28 In this compelling book the author contends that social equity specifically racial equity is a nervous area of government Over the course of history this nervousness has stifled many individuals and organizations thus leading to an inability to seriously advance the reduction of racial inequities in government The author asserts that until this nervousness is effectively managed public administration social equity efforts designed to reduce racial inequities cannot realize their full potential Chapters 2 and 8 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
