twenty first century should and will build from a global human rights agenda *Women Online* Steven D. Atkinson, Judith Hudson, 1990 *Women Online* focuses on the problems of investigating interdisciplinary topics in women's studies working with controlled vocabularies and inconsistent indexing and locating feminist scholarship The authoritative contributors to the book not only analyze these problems in general terms but also suggest practical strategies for making online research more effective and productive The sixteen chapters in this much needed book are organized into three broad categories covering disciplines such as humanities and social sciences format of the material covered such as non bibliographic and cited reference databases and specific topics such as lesbian studies and women of color Chapter authors employ a variety of useful methods to analyze issues of coverage and content They compare the results of controlled vocabulary and free text or full text searching and make use of search examples cited reference and multi file searching and bibliometric techniques including analysis of recall precision overlap relevancy uniqueness and trends in file growth The Database Matrix provides an alphabetical listing of files discussed in the book and serves as a directory for online research in women's studies *Women Online* will be useful to librarians scholars and students who search databases as well as to producers who design and market them Household and kin Amy Swerdlow, 1989 Challenging the concept of the typical family the authors illustrate the diversity of household forms and kinship ties throughout history They explore the social political emotional and economic functions of the family as well as the importance of gender class race and culture in shaping it A variety of contemporary families are described and provocative questions are raised about families of the future Empowering Women Carmen Diana Deere, Magdalena León, 2001-01-15 The expansion of married women's property rights was a main achievement of the first wave of feminism in Latin America As Carmen Diana Deere and Magdalena Leon reveal however the disjuncture between rights and actual ownership remains vast This is particularly true in rural areas where the distribution of land between men and women is highly unequal In their pioneering twelve country comparative study the authors argue that property ownership is directly related to women's bargaining power within the household and community point out changes resulting from recent gender progressive legislation and identify additional areas for future reform including inheritance rights of wives 100 Years of the Nineteenth Amendment Holly J. McCammon, Lee Ann Banaszak, 2018-02-01 The year 2020 will mark the 100th anniversary of the Nineteenth Amendment giving many women in the United States the right to vote The struggle for suffrage lasted over six decades and involved more than a million women yet even at the moment of the amendment's enactment women's activists disagreed heartily over how much had been achieved whether it was necessary for women to continue organizing for political rights and what those political rights would bring Looking forward to the 100 year anniversary of the passage of the Nineteenth Amendment this collection of original essays takes a long view of the past century of women's political engagement to gauge how much women have achieved in the political arena The volume looks back at the decades since women won the right to vote to analyze the changes developments and even continuities in women

s roles in the broad political sphere Ultimately the book asks two important questions about the last 100 years of women s suffrage 1 How did the Nineteenth Amendment alter the American political system and 2 How has women s engagement in politics changed over the last 100 years As the chapters reveal while women have made substantial strides in the political realm voting at higher rates than men and gaining prominent leadership roles barriers to gender equality remain Women continue to be underrepresented in political office and to confront gender bias in a myriad of political settings The contributors also remind us of the important understanding to be gained from an intersectional perspective to women s political engagement In particular several chapters discuss the failure of the Nineteenth Amendment to provide full political rights and representation to African American Latina and poorer women The work also considers women s extra institutional activism in a wide variety of settings including in the feminist civil rights environmental and far right movements As the volume traces women s forceful presence and limitations in politics over the past century it also helps us look forward to consider the next 100 years what additional victories might be won and what new defeats will need women s response
