Roger Zelazny A Primary And Secondary Bibliography:

Roger Zelazny, a Primary and Secondary Bibliography Joseph L. Sanders, 1980 *Roger Zelazny* F. Brett Cox, 2021-05-11 Challenging convention with the SF nonconformist Roger Zelazny combined poetic prose with fearless literary ambition to become one of the most influential science fiction writers of the 1960s Yet many critics found his later novels underachieving and his turn to fantasy a disappointment F Brett Cox surveys the landscape of Zelazny's creative life and contradictions Launched by the classic 1963 short story A Rose for Ecclesiastes Zelazny soon won the Hugo Award for Best Novel with And Call Me Conrad and two years later won again for Lord of Light Cox looks at the author's overnight success and follows Zelazny into a period of continued formal experimentation the commercial triumph of the Amber sword and sorcery novels and renewed acclaim for Hugo winning novellas such as Home Is the Hangman and 24 Views of Mt Fuji by Hokusai Throughout Cox analyzes aspects of Zelazny's art from his preference for poetically alienated protagonists to the ways his plots reflected his determined individualism Clear eyed and detailed Roger Zelazny provides an up to date reconsideration of an often misunderstood SF maverick **Robert Silverberg, a Primary and Secondary Bibliography** Thomas D. Clareson, 1983 *Roger Zelazny* Theodore Krulik, 1986 Portrays the career beliefs and writings of this science fiction author known for his optimistic views of the future Andre Norton, a Primary and Secondary Bibliography Roger C. Schlobin, 1980 **Roger Zelazny** Carl B. Yoke, 1979-01-01 This is the first guide to the works of this well known SF writer When Roger Zelazny exploded on the science fiction in 1962 it was not with a whimper but a bang The fallout was a shower of simile symbol and allusion Images fresh and new burst in fields of variegated color Rich tapestries full of mythic characters and beasts unfolded in poetic excapes from reality and always with great style Yoke a close friend of Zelazny's since they shared a desk in the first grade here delineates the author's work from his very first explorations of fantasy through such classics as Lord of Light Home is the Hangman and the magestic Amber series Science Fiction Literature through History Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics authors works and subgenres written by a distinguished scholar This encyclopedia deals with written science fiction in all of its forms not only novels and short stories but also mediums often ignored in other reference books such as plays poems comic books and graphic novels Some science fiction films television programs and video games are also mentioned particularly when they are relevant to written texts Its focus is on science fiction in the English language though due attention is given to international authors whose works have been frequently translated into English Since science fiction became a recognized genre and greatly expanded in the 20th century works published in the 20th and 21st centuries are most frequently discussed though important earlier works are not neglected The texts are designed to be helpful to numerous readers ranging from students first encountering science fiction to experienced scholars in the field **Roger Zelazny** Jane M. Lindsfold, 1993 A thematic

assessment of the US science fiction author's 30 books and many short stories a brief review of his life and an account of the various literary and artistic visual and musical influences on him Includes a chronology and a selected primary bibliography Draws on extended correspondence with Zelazny Annotation copyright by Book News Inc Portland OR **The Bibliography of Contemporary American Fiction, 1945-1988** William McPherson, Jocelyn Sheppard, 1989 This volume records and describes bibliographical accounts of contemporary American fiction writers with emphasis on single author studies Its purposes are several to trace the historical development of the bibliography of individual writers to indicate the depth of bibliographical treatment of those writers currently available to scholars and librarians and finally to highlight the need for additional bibliographic research in the field **Ursula K. Le Guin, a Primary and Secondary Bibliography** Elizabeth Cummins Cogell, 1983 *Modern Retellings of Chivalric Texts* Gloria Allaire, 2018-12-21 Published in 1999 the ten essays in this collection identify and examine reworkings of identifiable source texts from the medieval or Renaissance periods The reasons for the modern adaptations depend variously on an individual author's personal perspectives the worldview of his or her society and the individual's place in it The various chapters therefore address issues such as why a particular model was chosen and how its retelling depends on the modern author's misreading or rereading of medieval chivalric conventions This book complements numerous existing studies of medievalism in the Enlightenment and Victorian eras by examining more recent adaptations of the much studied Arthurian romances but primarily extends the discussion on the nature of revivals to other medieval or Renaissance chivalric texts especially the Carolingian cycle epic The collection includes not only literary retellings of medieval texts but also some in different media such as theatre and cinema **E.E. "Doc" Smith** Joseph Sanders, 1986-01-01 A study of Smith's life and work as well as the impact that his fiction has had upon literary culture **The Poetics of Science Fiction** Peter Stockwell, 2014-06-11 The Poetics of Science Fiction uniquely uses the science of linguistics to explore the literary universe of science fiction Developing arguments about specific texts and movements throughout the twentieth century the book is a readable discussion of this most popular of genres It also uses the extreme conditions offered by science fiction to develop new insights into the language of the literary context The discussion ranges from a detailed investigation of new words and metaphors to the exploration of new worlds from pulp science fiction to the genre's literary masterpieces its special effects and poetic expression Speculations and extrapolations throughout the book engage the reader in thought experiments and discussion points with selected further reading making it a useful source book for classroom and seminar *American Reference Books Annual* Bohdan S.
