Role Of Scale In Canada Us Productivity Differences In The Manufacturing Sector 1970 1979:

The Role of Scale in Canada/U.S. Productivity Differences in the Manufacturing Sector, 1970-1979 John Russel Baldwin, Paul K. Gorecki, Royal Commission on the Economic Union and Development Prospects for Canada, 1986
Understanding the reason for the productivity differences between Canadian and U S manufacturing industries is important if a sound industrial strategy is to be followed in the next decade This is particularly the case if Canada implements its policy of closer economic ties with the United States either in the form of the previous Trudeau Administration s sectoral free trade approach or the present Mulroney Administration s attempt to enhance access of Canadian goods to the United States

Industrial Dynamics B. Carlsson, 2012-12-06 This book is based on the papers presented at a conference on New Issues in Industrial Economics held at Case Western Reserve University Cleveland Ohio June 8 10 1987 The conference was organized by the Research Program in Industrial Economics RPIE in the Department of Economics at CWRU and was sponsored by The Cleveland Foundation the Eaton Corporation and The Standard Oil Company later renamed BP America Inc Their generous support is gratefully acknowledged All of the papers have been revised in several cases extensively since their presentation at the conference One of the primary reasons for organizing the conference was the concern that Industrial Economics has become too narrowly focused in most academic programs largely being confined to Industrial Organization i e issues of public policy towards enterprise with emphasis on antitrust and regulatory policy This subject definition leaves out a number of interesting and important questions about how industries evolve over time what the role of technological change and organizational change is in that process and the associated structural changes within industries and firms The object of this book is to derme these issues and suggest a framework within which they can be analyzed I would like to thank all the conference participants for their contributions particularly my colleagues at CWRU Asim Erdilek and William S Peirce without whose encouragement and support the conference would not have taken place ROLE OF SCALE IN CANADA-UNITED STATES PRODUCTIVITY DIFFERENCES IN THE MANUFACTURING SECTOR, 1970-1979

Contemporary Issues in Urban and Regional Economics Lawrence Yee, 2005 If all politics are local then all economics are regional and local Globalisation for all its mystery and so called inevitability has its foundations and bloodlines in urban and regional economics The economic impacts of poverty housing transportation education and crime are included This new book includes within its scope multiplier and impact analysis input output models growth theory migration urban and regional labour markets urban and regional public policy regional devolution small firms policy and foreign direct investment **U.S.-Canada Productivity Gap, Scale Economies, and the Gains from Freer Trade** Ponugoti

Someshwar Rao, Economic Council of Canada, 1988 THE ROLE OF SCALE IN CANADA John R. Baldwin, 1986 The United States and Canada Paul Wonnacott, 1987 Canada is the largest trading partner of the United States and the two governments have begun negotiations for a free trade agreement which would tie their relationship even closer This study analyzes the difficult problems that must be addressed in the negotiations including quite different perceptions in the two countries of what constitutes fair trade It suggests several possible ways of reducing differences over subsidies and countervailing duties It also addresses the exchange rate relationship between the two dollars and how this affects the trade outlook An appendix by John Williamson calculated a fundamental equilibrium exchange rate for the Canadian dollar

Canadian High-tech in a New World Economy David W. Conklin, France St-Hilaire, Institute for Research on Public Policy, 1988 A broad overview of Canadian high tech activities that suggests insights concerning the direction and scope of such industries as well as public policy Includes a study of Canada's competitiveness in the manufacturing sector and the use and production of new technology an examination of the characteristics of the information technology sector and the likely patterns of development and economic prospects the role of multi national corporations and their corporate decision making government policies that may stimulate Canadian high technology and enhance competitiveness a brief history of GATT tariff negotiations subsidies and possible agreements to limit their use the use of government procurement policies to assist domestic high tech firms regulation in the context of high tech policies the protection of intellectual property and education and research as the basis of a new high tech strategy particularly the Canadian record *Schumpeterian Dynamics and Metropolitan-Scale Productivity* Yeonwoo Lee, 2018-05-08 This title was first published in 2003 Schumpeter first put forward the premise that the incessant turbulence of an economy in motion carrying out new combinations of products production methods with new technologies and the opening of new markets is capable of explaining patterns of economic growth and change Focusing on US industrialized urban areas this volume tests this theory empirically Localized employment churn registered as job creation destruction dynamics is used to account for variations in US metro regional economic productivity performances during the 1986 1999 period The results suggest that the employment turnover and replacement dynamics have large and significant positive effects on localized productivity growth independent of a variety of industrial restructuring processes occurring simultaneously While employment churn effects are robust across US Census regions they do not exert a uniform influence on metro regional productivity performances across time Until 1996 job creation and destruction dynamics often cancelled each other out as metro regions underwent continued industrial restructuring Since 1996 however positive effects on metro region productivity growth have been consistently strong In addition to a strong positive effect on productivity of the emergence of a localized IT sector both an expanding service sector share of regional employment and a rising public spending share of regional output exert powerful downward pressure of localized productivity growth rates **Canada's Productivity Performance** Ponugoti Someshwar Rao, Tony Lemprière, Economic

Council of Canada,1992 This study discusses issues and problems associated with international productivity and real income comparisons It reviews the trends in Canada s productivity and the trends in Canada s labour productivity and real income performance relative to other G 7 countries with special reference to the United States It also outlines the theoretical underpinnings of an econometric model to explain productivity growth and gives a brief summary of regression results for Canada the United States Japan and West Germany It analyzes the causes of the slowdown in Canadian productivity since 1973 using the estimated equations In addition it examines the reasons for Canada s poor manufacturing productivity performance relative to that of the major economies and summarizes the findings of the study **Canadian Tax Journal** ,1986 Research on the "cost of Non-Europe": The internal markets of North America.
