Relationships and Sex Education 3-11 Sacha Mason, Richard Woolley, 2019-03-21 Where do babies come from The prospect of this age

old question is one that causes significant apprehension for many professionals working with children but this isn't where the anxiety ends. This book argues that it is essential to have clear strategies to support children's questions about relationships growing up and sex so that they are enabled to develop positive and confident views about themselves and those around them. It examines important concerns such as the role of media in children's lives in shaping their views on relationships and explores how issues of gender and sexuality are considered more fluidly. Whether working in an academy, free schools, faith schools, the independent sector or elsewhere, this book supports you to help children to deal with a wide range of relationships issues meeting the requirements of the new legislation on relationships education for primary-aged children as a foundation for relationships and sex education. Drawing on research with teachers about their apprehensions about teaching the subject and children's experience of its delivery, the authors give a full picture of common concerns and difficulties and how to successfully meet them and support children from 3-11 and the transition to secondary school. Topics covered include platonic friendships, developing self-respect and respect for others and enabling personal choice and safety. Sacha Mason and Richard Woolley explore issues surrounding notions of age and stage development. They discuss how children develop at different rates and that each child is unique in relation to learning in this area. They outline a distinct pedagogical approach to managing children's individual needs for relationships and sex education. They also look at supporting children with SEND when considering how to implement relationships education in primary schools. This second edition includes new chapters on children's development and needs and developing inclusive relationships education. The book has been updated throughout with summaries of the latest research, case studies, ideas for developing practice and signposts to key websites and resources. The chapters provide all the support you need to confidently promote children's healthy development.

Social Work with Lesbians and Gay Men Helen Cosis-Brown, Christine Cocker, 2011-01-19. The book clearly links knowledge and practice and is structured in such a way so that theories relevant to social work practices with lesbians and gay men are covered before specific areas of practice are addressed.

Sexualities and Society Megan Todd, 2020-11-11. *Sexualities and Society* adopts a fresh sociological perspective to explore the development of sexualities across both public and private spheres, giving thoughtful consideration to heterosexualities, cis bi and trans identities. Divided into three parts, the book starts with an exploration into the history of sexuality before covering the key theories and how research into sexualities has been and could be conducted. Parts two and three examine how sexualities are framed by cultural factors and social institutions including the media, religion and politics and considers the impact of how significant issues such as identity, age, health and violence relate to sexuality. Employing a range of international case studies, up-to-date policy developments and engaging learning features such as discussion points and fact file sections, this book is essential reading for students studying sexuality across sociology, social policy, social care, media and politics.

New Intimacies, Old Desires Oishik Sircar, Dipika Jain, 2017-06-21. In the last 15 years, queer movements in many parts of the world have helped

secure the rights of queer people These moments have been accompanied by the brutal rise of crony capitalism the violent consequences of the war on terror the hyper juridification of politics the financialization managerialization of social movements and the medicalization of non heteronormative identities practices How do we critically read the celebratory global proliferation of queer rights in these neoliberal times This volume responds to the complicated moment in the history of queer struggles by analysing laws state policies and cultures of activism to show how new intimacies between queer sexuality and neoliberalism that celebrate modernity and the birth of the liberated sexual citizen are in fact reproducing the old colonial desire of civilizing the native By paying particular attention to the problematics of race religion and class this volume engages in a rigorous self reflexive critique of global queer politics and its engagements confrontations and negotiations with modernity and its investments in liberalism legalism and militarism with the objective of queering the ethics of our queer politics Published by Zubaan *Sex and Uncertainty in the Body of Christ* Susannah
