The Realm of Reason Christopher Peacocke, 2004 The Realm of Reason is a manifesto for a new rationalism in philosophy Christopher Peacocke develops an original theory of what makes a thinker entitled to form a given belief The theory is articulated in three principles of rationalism which together imply that all entitlement has an element that is independent of experience Peacocke elaborates this rationalism in detail for the classical issues of perceptual knowledge induction and the status of moral thought His new generalized approach to epistemology has applications throughout philosophy and it will interest all concerned with knowledge truth and rationality

Color Theory Aaron Fine, 2021-08-12 Giving an overview of the history of color theory from ancient and classical cultures to contemporary contexts this book explores important critical principles and provides practical guidance on the use of color in art and design Going beyond a simple recitation of what has historically been said about color artist and educator Aaron Fine provides an intellectual history critiquing prevailing Western ideas on the subject and challenging assumptions He analyses colonialist and gendered attitudes materialist and romanticist perspectives spiritualist approaches to color color in the age of reproduction and modernist and post modernist color strategies Highlighted throughout are examples of the ways in which attitudes towards color have been impacted by the legacy of colonialism and are tied up with race gender and class Topics covered include color models wheels and charts color interaction and theories of perception with over 150 images throughout By placing under examined tenets of color theory such as the color wheel and color primaries within the Western industrial context that generated them Fine helps you to connect color choices to color meanings and apply theory to practice

 Anttarr,2004-09 The Forbidden Gift is defining that intangible knowing that unmistakable feeling that tells you there is more
 more than you have previously ever had the chance to fully conceptually digest and savor defining that feeling behind whose
 many masks lie layer upon layer of uncomfortable sensations that as you progressed through life you merely adapted to and
 incorporated into the you that you are today Who are you Each chapter of this book is a walk through your life and the life of
 humankind in general Who am I is naturally followed by What is my purpose for living for being Who is responsible for all this
 What is the reason To answer these questions we must look into the heart the source of your reality and venture beyond the
 known into the unknown That is what this book is all about liberation from the unconscious forces that cause you to behave
