 Carter,1915 Yellow Orang-Utan Industries Simon Gray,2020-09-06 Yellow Orang Utan Industries is the most successful of
 corporations ever not that anyone can say specifically what it is they do The founder and president of Yellow Orang Utan
 Industries hides from the public using a computer generated fake president to do most of the talking he d ordinarily be doing
 himself The fake president Piano Smedley is universally liked and attributed to the corporation s success But when news
 breaks that a body answering Piano Smedley s description has been found problems arise The real president s personal
 assistant Gertrude finds herself grieving the fake president even when she knows better The task of programming the
 replacement fake president is based on data from departments who can t make up their mind and the real president becomes

even less engaged with business than before The executive board of directors make an appearance to take control but by the time the new fake president appears interest in Yellow Orange Industries is plummeting Gertrude's made some new friends amongst the corporation though One of them is Wellington who interprets the stock market remarkably well and quite loyally thinks he can help the corporation If any of them could get through to the real president Except also Wellington's remarkable skills and this earnest belief may be because Wellington's a prototype android and nobody was supposed to find that out *The World-Thinker and Other Stories* Jack Vance, D.
