The Lure of Fundamentalism

Lure Of Fundamentalism:

In-Between God Stephen Pickard, 2011-12-28 *In Between God* explores three important areas for contemporary Christianity: theology, community and discipleship. Part One inquires into the rhythms of faith as it interacts with themes of uncertainty and doubt, the nature of theological discourse, the task of systematic theology, evangelism and the various ways in which theology is done. Part Two discusses the importance of place in relation to the church and themes of innovation, undecidability and new forms of monastic community. Part Three addresses themes in discipleship, simplicity, mysticism, the passions and pilgrimage. A red thread connecting these essays is the character of the triune God who is the energy and life in between all things.

The Unity Principle Ellis Rivkin, 2003 Presents a dynamic interpretation of Jewish history from biblical to modern times as a set of interconnected and evolving events and relationships that spring directly from Judaism's core beliefs.

Diversity K. April, M. Shockley, 2006-11-28 This unique collection of papers from authors whose experience and nationalities are themselves diverse captures intellectual and personal reflections on diversity. The authors offer unique perspectives into diversity on an individual level as well as the experiential challenges of implementing diversity programs at the country, public sector, company and civil society levels. In doing so, the book identifies a variety of elements that define a multi-faceted reality that is at once contradictory, deeply personal, artistic, emotionally evocative and intellectually stimulating.

Fear Itself Stephen Hessel, Michèle Huppert, 2010 What are fear, horror and terror? This question central to our endeavour cannot be answered by one unified voice. It always cracks, falters and fades before it can fully enunciate its proclamation. We, the authors, know this and have planned accordingly. This volume presents meditations on this issue springing from the four corners of intellectual inquiry. Each author provides a distinctive approach with which to address the issue at hand. Literary theory, psychoanalysis, media studies, political science and many more disciplines occupy the same space between the covers of this book. We hope that through the cacophony of our diversity we will fill in the inevitable gaps when our voices fall short.

Uncertainty and Risk Gabriele Bammer, Michael Smithson, 2012-05-04 This is a major and deeply thoughtful contribution to understanding uncertainty and risk. Our world and its unprecedented challenges need such ways of thinking. Much more than a set of contributions from different disciplines, this book leads you to explore your own way of perceiving your own area of work. An outstanding contribution that will stay on my shelves for many years.

Dr Neil T M Hamilton, Director WWF International Arctic Programme. This collection of essays provides a unique and fascinating overview of perspectives on uncertainty and risk across a wide variety of disciplines. It is a valuable and accessible sourcebook for specialists and laypeople alike.

Professor Renate Schubert, Head of the Institute for Environmental Decisions and Chair of Economics at the Swiss Federal Institute of Technology. This comprehensive collection of disciplinary perspectives on uncertainty is a definitive guide to contemporary insights into this Achilles heel of modernity and the endemic hubris of institutional science in its role as public authority. It gives firm foundations to the fundamental historic shift now underway in

the world towards normalizing acceptance of the immanent condition of ignorance and of its practical corollaries contingency uncontrol and respect for difference Brian Wynne Professor of Science Studies Lancaster University Bammer and Smithson have assembled a fascinating important collection of papers on uncertainty and its management The integrative nature of Uncertainty and Risk makes it a landmark in the intellectual history of this vital cross disciplinary concept George Cvetkovich Director Center for Cross Cultural Research Western Washington University Uncertainty governs our lives From the unknowns of living with the risks of terrorism to developing policies on genetically modified foods or disaster planning for catastrophic climate change how we conceptualize evaluate and cope with uncertainty drives our actions and deployment of resources decisions and priorities In this thorough and wide ranging volume theoretical perspectives are drawn from art history complexity science economics futures history law philosophy physics psychology statistics and theology On a practical level uncertainty is examined in emergency management intelligence law enforcement music policy and politics Key problems that are a subject of focus are environmental management communicable diseases and illicit drugs Opening and closing sections of the book provide major conceptual strands in uncertainty thinking and develop an integrated view of the nature of uncertainty uncertainty as a motivating or de motivating force and strategies for coping and managing under uncertainty

Christianity and the Culture Machine Vincent F. Rocchio, 2016-08-05 *Christianity and the Culture Machine* is a precedent shattering approach to combining theories of media and culture with theology In this intensive examination of Christianity s role in the cultural marketplace the author argues that Christianity s inability to effectively contest the ideology of secular humanism is not a theological shortcoming but rather a communications problem the institutional church is too wedded to an outmoded

aesthetic of Christianity to communicate effectively Privileging authority and obedience over the egalitarian and transformative goal of Christianity the church fails to recognize how it undermines the vitality of the Christian narrative and message In the absence of a more compelling vision offered by the official church a new aesthetic can be found forming within the margins of popular culture texts Despite its past failures in representing the Bible in mainstream film and television the culture industry now offers more compelling versions of core Christian theology without even realizing it within the margins of the main storylines This book analyzes the aesthetic principles employed by these appropriations and articulations of Christian discourse as a means of theorizing what a new aesthetic of Christianity might look like **Letters**

Cosmic Chastity in an Age of Technocratic Lust: A Song of Three Popes Jeremiah Barker,2023-04-12 This book arises from the conviction that the ways in which John Paul II and Benedict XVI were confused as allies with American conservatism is as misleading unclear and confusing as any misapprehension of Francis s genuine orthodoxy As the author does not have a stake in reacting against a liberal Catholicism that he sees dying out anyway the bigger threat in his view sociologically for the North American church is falling into a right wing tribalism and Francis resists

precisely that First Things editor R R Reno highly critical of Francis has called for a redemption of hints and suggestions of a cogent argument in the Francis message Jeremiah Barker reappropriates Reno s call as a call to draw out or highlight what he takes to be the underlying rationale of the Francis message That underlying rationale he compellingly argues is strikingly identical to that of the two previous popes Barker who has learned much from Reno is in fact inspired by Francis s call and teaching and it is the aim of this book to draw out what inspires him and to identify what he hopes Reno and fellow John Paul II Catholics don t miss in the Francis message the theological ethical and spiritual core of his social teaching which Francis shares with that of John Paul II and Benedict XVI **Energising Networks** Eelke Wielinga, Sjoerd Robijn, 2023-09-14

Society is going through a transition period that is at least as profound as the Enlightenment at the end of the 18th century It is a transition that makes people look differently at each other and at the world In the terminology of Otto Scharmer ego consciousness is being replaced by eco consciousness people will understand that their faith depends on one another and on the eco systems they are part of This will not occur without a whole lot of trouble but it will happen This book by Eelke Wielinga and Sjoerd Robijn is an inspirational contribution to understanding what is going on Firstly because their vision on networks as living organisms and the energy people experience when they are part of such networks is explained in a clear and scientific way Secondly because the authors have developed a methodology to navigate on this energy in everyday practice The wingspan of the big story and the concrete application in what you experience in your own practice is what makes this book extraordinary I recommend this book to anyone who makes efforts to make a world that can be handed over with confidence to future generations by Prof Herman Wijffels former CEO RABO Bank and Dutch representative on the World Bank management board The Year of the Lord's Favor Tom Arthur, 2012-12-07 The Year of the Lord s Favor is commentary on the texts of the Revised Common Lectionary that is contextualized politically engaged and unflinchingly honest Comfort is cruel if it is based on an illusion These reflections connect honestly and realistically with the ordinary circumstances of experience They encourage the twenty first century Christian to live in a way that transcends sentimentality and fear and live a faith that makes things happen
