Luther Burbank Lillian J. Bragdon, 1959      The Garden of Invention Jane S. Smith, 2009 A chronicle of the life of the celebrated plant breeder evaluates the ways in which his achievements influenced the agricultural industry in early twentieth century America in a history that discusses the formative years of bioengineering and agribusiness as they were directly shaped by Burbank's gardening accomplishments      *Reading Tutor, Grades 4 - 8* Maureen Betz, 2004-01-02 Make reading fun for students in grades 4 and up using Reading Tutor Biographies This 48 page book captures readers enthusiasm with interesting age appropriate biographies and activities relating to biographies The book includes activities that reinforce difficult comprehension skills and improve reading levels It is great for use in the classroom and at home      Morning Exercises for All the Year Joseph Charles Sindelar, 1914 This book aims at a systematic and orderly presentation of the morning or opening exercise in the elementary school The teaching of morals can usually be accomplished more effectively through an indirect method rather than by set lessons or formal teaching Character is largely a matter of habit with a daily emphasis on right attitude and right conduct When the birthdays of famous poets statesmen national heroes or national events occur the memory of their virtues naturally determines the topic of a lesson Through concrete examples presented in story and verse children learn to appreciate nobility of character and deed thus arousing their admiration and aspiration It is better to allow children to make their own inferences than to force the moral upon them      Stepping Stones , 1920
