*Luther's House of Learning* Gerald Strauss,1978      **Luther and the Reformation of the Later Middle Ages** Eric Leland Saak,2017-04-19 Saak re interprets Martin Luther as an Augustinian Hermit whose 95 Theses came as the culmination of the late medieval Reformation      Luther's Lectures on Genesis and the Formation of Evangelical Identity John A. Maxfield,2008-10-01 Martin Luther s lectures on Genesis delivered at the University of Wittenberg during the last decade of his life and later published by his students allow modern readers to view a sixteenth century professor engaging his students with the text of scripture and using that text to form them spiritually The lectures show how Luther attempted to form in his students a new identity an Evangelical identity enabling them to make sense of the rapidly changing society and church in which they were being prepared to serve primarily as pastors in the developing territorial churches of the Reformation This study uses the text of the lectures to outline the contours of the new identity that Luther laid out through his exposition of Genesis They include how Luther approached and taught his students to perceive the text of holy scripture how that text unveiled for Luther the nature of Christian life in the world and how Luther taught his students to view the past the present and the future of the church and the world through the book of Genesis Whether in the published editions of the lectures the historic Luther was actually misunderstood or was transformed in some way into the prophetic Luther of later memory the text reveals the Luther that his students heard and subsequent generations read      **Luther and Learning** Marilyn J. Harran,1985 These essays present a unique description and analysis of Luther s relation to the learning of his time by some of the most outstanding scholars of our time The essays also persuasively demonstrate the significance of Luther s contribution to learning for today s education theology and culture      *Reformations Old and New* Beat Kümin,2016-12-05 This collection of essays examines the practical impact of religious change in Central and North Western Europe from the 15th to the 17th century It focuses on the effects of reform on clergy church resources ecclesiastical patronage education and poor relief The title reflects the elementary conclusion that there was no one monolithic experience of Reformation that initiatives were taken for very different reasons and that they displayed innovative as well as conservative features While offering a great breadth of original research and subject matter all authors devote particular attention to three main themes the blend between continuity and change the share of religious factors in socio economic developments and the identification of winners and losers Taken together the essays illustrate the scarcity of unambiguous trends the tenacity of socio economic structures the modification of religious dogma by the real world and the conspicuous benefits of religious change for the social lites      **Martin Luther and the Rule of Faith** Todd R. Hains,2022-10-11 Martin Luther is known for challenging the Roman Catholic church yet reading God s Word was what Luther considered his primary task Though he is often portrayed as reading the Bible with a bare approach Todd R Hains considers how Luther s interpretation of the text was actually guided by the church s established practice of hermeneutics      Documents from the History of Lutheranism, 1517-1750 Eric Lund,

A unique resource from the Reformation to Pietism This unique collection of excerpts from Lutheran historical and theological documents many translated here for the first time presents readers with a full picture of how the Lutheran movement developed in its thought and practice The volume proceeds chronologically from Luther's lifetime to the beginnings of the Enlightenment Each chapter begins with a summary essay and proceeds thematically Covering not only theology but also church life popular piety and influential historical events the more than 200 primary documents excerpted here show not only the evolution and development of Lutheran doctrine but also its devotional writings hymns liturgical texts letters and diaries satire political documents woodcuts and pamphlet literature Lund's judicious selection careful translation and helpful introductions acquaint readers with the turbulence and fervor of this revolutionary Christian movement its struggles for survival and consolidation its flowering in the age of orthodoxy and pietism always with an eye to how it affected and was experienced by ordinary people

**Communities, Politics, and Reformation in Early Modern Europe** Thomas Brady, 2021-10-25 The studies united in this volume explore themes of community politics religion gender and social conflict and accommodation during the first decades of the Reformation movement Other chapters investigate historiographical themes especially the interpretation of early modern German history Two longer chapters address European themes the historical sociology of early modern societies in terms of legal definitions of status and modern conceptions of economic class and the difference between central and western European development in a global context Taken together the studies explore the transition zone between medieval and modern history in both microhistorical especially urban and regional and broadly comparative contexts Some of the studies are supplementary to the author's books on the sixteenth century Protestant Reformation at Strasbourg in southern Germany and in the Holy Roman Empire

**The Age of Reform, 1250-1550** Steven Ozment, 2020-08-25 Celebrating the fortieth anniversary of this seminal book this new edition includes an illuminating foreword by Carlos Eire and Ronald K Rittges The seeds of the swift and sweeping religious movement that reshaped European thought in the 1500s were sown in the late Middle Ages In this book Steven Ozment traces the growth and dissemination of dissenting intellectual trends through three centuries to their explosive burgeoning in the Reformations both Protestant and Catholic of the sixteenth century He elucidates with great clarity the complex philosophical and theological issues that inspired antagonistic schools traditions and movements from Aquinas to Calvin This masterly synthesis of the intellectual and religious history of the period illuminates the impact of late medieval ideas on early modern society With a new foreword by Carlos Eire and Ronald K Rittgers this modern classic is ripe for rediscovery by a new generation of students and scholars

**Communal Christianity** David Mayes, 2021-10-25 David Mayes proposes a new religious paradigm in early modern rural Germany Communal Christianity the religious practice prevalent among peasants in mid sixteenth century rural Upper Hesse is juxtaposed with the more formally organized Confessional sects e.g Lutheran Calvinist The author describes Communal Christianity's characteristics and persistence in the face of attempts at

confessionalization during the period of 1576 1648 and links its success in part to the decree of the 1555 Religious Peace of Augsburg that only one confessionalized Christian sect be officially recognized in a territory Confessional sects became marginalized and more locally well established peasant communes retained power The 1648 Peace of Westphalia encouraged reconciliation of confessionalized Christian sects paradoxically spurring the decline of Communal Christianity in certain locales

**The Reform of Christian Doctrine in the Catechisms of Peter Canisius** Thomas Flowers, S.J.,2023-07-03 The catechisms of Peter Canisius reveal the contours of the struggle within the Catholic Church to reframe Christian identity in response to the Protestant Reformation Canisius published his first catechism in 1555 and immediately achieved phenomenal publishing success Yet his catechisms received neither endorsement nor approbation from Rome Canisius s catechesis proposed a confident vision of Christian identity grounded in the practice of Catholic piety The Roman Curia increasingly conceived of catechesis as a defensive bulwark against Protestant assault Although Canisius s catechisms often appear in scholarship as representatives of a combative post Reformation style of defending Catholic orthodoxy the combat in which they actually engaged was internal to the Catholic Church over how to reframe post Reformation Catholic identity

**The Reformation and Rural Society** C. Scott Dixon,2002-05-02 What was the effect of the Reformation movement on the parishioners of the German countryside This book examines the reform movement at the level of its implementation the rural parish Investigation of the Reformation and the sixteenth century parish reveals the strength of tradition and custom in village life and how this parish culture obstructed and frustrated the efforts of the Lutheran reformers The Reformation was not passively adopted by the rural inhabitants On the contrary the parishioners manipulated the reform movement to serve their own ends Parish documentation reveals that the system of parish rule diffused the disciplinary aims of the church and rendered the pastors impotent A look at parish beliefs suggests that the nature of parish thought worked to undermine the main tenets of the Lutheran faith and that the legacy of the Reformation was a dialogue between these two realms of experience

Enacting the Reformation in Germany Gerald

*Scholarly Self-Fashioning and Community in the Early Modern University* Richard Kirwan,2016-04-01 A greater fluidity in social relations and hierarchies was experienced across Europe in the early modern period a consequence of the major political and religious upheavals of the sixteenth and seventeenth centuries At the same time the universities of Europe became increasingly orientated towards serving the territorial state guided by a humanistic approach to learning which stressed its social and political utility It was in these contexts that the notion of the scholar as a distinct social category gained a foothold and the status of the scholarly group as a social elite was firmly established University scholars demonstrated a great energy when characterizing themselves socially as learned men This book investigates the significance and implications of academic self fashioning throughout Europe in the early modern period It describes a general and growing deliberation in the fashioning of individual communal and categorical academic identity in this period It explores the reasons for this growing self consciousness among scholars and the effects of its expression social and political desired and real

**Germany and the Holy Roman Empire** Joachim Whaley, 2011-11-24 Germany and the Holy Roman Empire offers a striking new interpretation of a crucial era in German and European history from the great reforms of 1495-1500 to the dissolution of the Reich in 1806 Over two volumes Joachim Whaley rejects the notion that this was a long period of decline and shows instead how imperial institutions developed in response to the crises of the sixteenth and seventeenth centuries notably the Reformation and Thirty Years War The impact of international developments on the Reich is also examined The first volume begins with an account of the reforms of the reign of Maximilian I and concludes with the Peace of Westphalia in 1648 It offers a new interpretation of the Reformation the Peasants War the Schmalkaldic War and the Peace of Augsburg and of the post-Reformation development of Protestantism and Catholicism The German polity successfully resisted the ambitions of Charles V and the repeated onslaughts of both the Ottomans and the French and it remained stable in the face of the French religious wars and the Dutch Revolt The volume concludes with an analysis of the Thirty Years War as an essentially German constitutional conflict triggered by the problems of the Habsburg dynasty and prolonged by the interventions of foreign powers The Peace of Westphalia which ended the conflict both reflected the development of the German polity since the late fifteenth century and created the framework for its development over the next hundred and fifty years

**Church and School in Early Modern Protestantism** Jordan Ballor, David Sytsma, Jason Zuidema, 2013-08-08 A great deal of scholarship has too often juxtaposed scholasticism and piety resulting in misunderstandings of the relationship between Protestant churches of the early modern era and the theology taught in their schools But more recent scholarship especially conducted by Richard A. Muller over the last number of decades has

remapped the lines of continuity and discontinuity in the relation of church and school This research has produced a more methodologically nuanced and historically accurate representation of church and school in early modern Protestantism Written by leading scholars of early modern Protestant theology and history and based on research using the most relevant original sources this collection seeks to broaden our understanding of how and why clergy were educated to serve the church Contributors include Yuzo Adhinarta Willem van Asselt Irena Backus Jordan J Ballor J Mark Beach Andreas Beck Joel R Beeke Lyle D Bierma Raymond A Blacketer James E Bradley Dariusz M Bryko Amy Nelson Burnett Emidio Campi Heber Carlos de Campos Jr Kiven Choy R Scott Clark Paul Fields John V Fesko Paul Fields W Robert Godfrey Alan Gomes Albert Gootjes Chad Gunnoe Aza Goudriaan Fred P Hall Byung Soo Paul Han Nathan A Jacobs Frank A James III Martin Klauber Henry Knapp Robert Kolb Mark J Larson Brian J Lee Karin Maag Benjamin T G Mayes Andrew M McGinnis Paul Mpindi Adriaan C Neele Godfried Quaadtvielig Sebastian Rehnman Todd Rester Gregory D Schuringa Herman Selderhuis Donald Sinnema Keith Stanglin David Steinmetz David Sytsma Yudha Thianto John L Thompson Carl Trueman Theodore G Van Raalte Cornelis Venema Timothy Wengert Reita Yazawa Jeongmo Yoo and Jason Zuidema
