Lyndal Osborne Lyndal Osborne, Roger Boulet, Edmonton Art Gallery, 1990-01-01 *North American Women Artists of the Twentieth Century* Jules Heller, Nancy G. Heller, 2013-12-19 First Published in 1997 North American Women Artists of the Twentieth Century A Biographical Dictionary was created to fill a gap of there being a comprehensive reference work like this available even though the bibliography in English on various aspects of the history of women artists has grown exponentially during the past ten years As researchers the editors have been frustrated many times by being unable to locate basic information about many of the artists included in this volume especially those working outside the United States This leads directly to another reason for producing this particular kind of reference book to try and create a better understanding between and among the artists and art audiences in these countries

The Surface of Meaning Robert Bringhurst, 2008 The design and manufacture of books can tell as much about a people or a culture as the ambience of its streets and the architecture of its buildings In our everyday lives books surround us even if we are among the many who never read another one after high school Their very jacket design asks us to make meaning of their presence and when we open them the layout of words and stories within their covers makes us readers even before we begin to read To Robert Bringhurst typographer poet and writer the presence of books and the story of books in Canada are preludes to understanding our culture From the tattered book of Canadian poetry your moody cousin carried everywhere to the pristine hardcover book of Atwood s latest work in your brainy co worker s hands book design says much about who and where we are as Canadians In *The Surface of Meaning* Robert Bringhurst takes us on another of his walking tours this time through the bramble of English and French Canadian books and book design from the mid 18th Century to the present day Along the way he discovers a true image trove of identity culture and history And he does what no other work on books and publications does He creates a truly national survey of Canadian books by bringing Canada s long history of Aboriginal story telling into a context of book It is a context that goes into the depths of our prehistory far beyond the printed page *The Surface of Meaning* is a tribute to Canadian books and publishing It is irresistible to readers who love books as well as to designers and others who may simply prefer to look at them
