is a collection of poems by William Wordsworth and Samuel Taylor Coleridge first published in 1798 and generally considered to have marked the beginning of the English Romantic movement in literature. The immediate effect on critics was modest but it became and remains a landmark changing the course of English literature and poetry. Wordsworth and Coleridge set out to overturn what they considered the priggish, learned and highly sculpted forms of 18th century English poetry and to make poetry accessible to the average person via verse written in common everyday language. They emphasize the vitality of the living voice used by the poor to express their reality. This language also helps assert the universality of human emotions. Even the title of the collection recalls rustic forms of art; the word 'lyrical' links the poems with the ancient rustic bards and lends an air of spontaneity while ballads are an oral mode of storytelling used by the common people. In the advertisement included in the 1798 edition, Wordsworth explained his poetical concept: 'The majority of the following poems are to be considered as experiments. They were written chiefly with a view to ascertain how far the language of conversation in the middle and lower classes of society is adapted to the purpose of poetic pleasure. If the experiment with vernacular language was not enough of a departure from the norm, the focus on simple uneducated country people as the subject of poetry was a signal shift to modern literature. One of the main themes of *Lyrical Ballads* is the return to the original state of nature in which people led a purer and more innocent existence. Wordsworth subscribed to Rousseau's belief that humanity was essentially good but was corrupted by the influence of society. This may be linked with the sentiments spreading through Europe just prior to the French Revolution.

William Wordsworth (7 April 1770 – 23 April 1850) was a major English Romantic poet who, with Samuel Taylor Coleridge, helped to launch the Romantic Age in English literature with their joint publication *Lyrical Ballads* (1798). Wordsworth's magnum opus is generally considered to be *The Prelude*, a semi-autobiographical poem of his early years that he revised and expanded a number of times. It was posthumously titled and published before which it was generally known as the poem to Coleridge. Wordsworth was Britain's poet laureate from 1843 until his death from pleurisy on 23 April 1850.

Samuel Taylor Coleridge (21 October 1772 – 25 July 1834) was an English poet, literary critic, philosopher and theologian who, with his friend William Wordsworth, was a founder of the Romantic Movement in England and a member of the Lake Poets. He wrote the poems *The Rime of the Ancient Mariner* and *Kubla Khan*, as well as the major prose work *Biographia Literaria*. His critical work, especially on William Shakespeare, was highly influential and he helped introduce German idealist philosophy to English-speaking culture. Coleridge coined many familiar words and phrases, including 'suspension of disbelief'. He had a major influence on Ralph Waldo Emerson and on American transcendentalism. Throughout his adult life, Coleridge had crippling bouts of anxiety and depression; it has been speculated that he had bipolar disorder, which had not been defined during his lifetime. He was physically unhealthy, which may have stemmed from a bout of rheumatic fever and other childhood illnesses. He was treated for these conditions with laudanum, which fostered a lifelong opium addiction.
