Machine Age Maya The Industrialization Of A Guatemalan Community:

Machine Age Maya Manning Nash, 1958 This is the story of the people of Cantel an Indian community in the western highlands of Guatemala It is the description and analysis of a people who have successfully moved from a simple farming technology not much removed from that of their pre Columbian ancestors to operating in the midst of Central America s largest textile mill The adaptation of this Indian community to factory work cash wages and the wider ties of the modern industrial world is a precipitate of history Chapter 1 page 1

Machine Age Maya ; the Industrialization of a Guatemalan Community Manning Nash, 1958 **Maya Resurgence in Guatemala** Richard Wilson, 1999-09-01 Across Guatemala Mayan peoples are struggling to recover from decades of cataclysmic upheaval religious conversions civil war displacement military repression Richard Wilson carried out long term research with Q eqchi speaking Mayas in the province of Alta Verapaz to ascertain how these events affected social organization and identity He finds that their rituals of fertility and healing abandoned in the 1970s during Catholic and Protestant evangelizations have been reinvented by an ethnic revivalist movement led by Catholic lay activists who seek to renovate the earth cult in order to create a new pan Q eqchi ethnic identity

Religious Transformation in Maya Guatemala John P. Hawkins, 2021-05 Drawing on over fifty years of research and data collected by field school students Hawkins argues that two factors cultural collapse and systematic social and economic exclusion explain the recent religious transformation of Maya Guatemala and the style and emotional intensity through which that transformation is expressed **Violent Memories** Judith Zur, 2019-05-20 This local study of the impact of political violence on a Maya Indian village is based on intensive fieldwork in the department of El Quiche Guatemala during 1988 1990 It examines the processes of fragmentation and realignment in a community undergoing rapid and violent change and relates local social cultural and psychological phenomena to t

Central America's Indians David Stephen, Phillip Wearne, 1984-04-01 In Latin America today we find one of the largest remnants of colonialism in the world The concept Indian itself is of course a European invention which served the colonizers well for reducing the varied and numerous cultures and societies which existed in the 16th century to an undifferentiated mass of subordinate and exploitable natives To put it succinctly this has traditionally been a relationship of oppression and exploitation of the Indians by the European settlers and their descendants the principal mechanisms of which has been the agrarian structure By depriving the Indian communities of their own land base and therefore of their economic self sufficiency the colonial and national governments and more particularly the ruling landowning classes created for themselves an almost inexhaustible cheap and subordinate labour supply Rebellious groups were pushed into the marginal fringes of jungles and inaccessible mountains or simply repressed through military might This basic system of economic exploitation which has a number of regional and local variants has been upheld over the centuries by a supporting structure of political power social constraints and ideological justification which has placed the Indians at the bottom of the social hierarchy and outside the mainstream of what has come

to be known as national culture Economically subordinate politically powerless and culturally isolated from the national decision making centres the native population of Latin America has become a marginalized underclass of rural proletarians exiles in their own countries discriminated against by the dominant Spanish speaking population even in such countries as Guatemala Bolivia Peru and Ecuador where they represent at least half of the total population Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Blue-Collar Stratification William Humbert Form, 2015-03-08 In studying the impact of industry on class organization social scientists have assumed that the effects of technological advance increase with time and that as technology molds dehumanizes and alienates workers the pressure mounts to change the system through political action William H Form tests these assumptions in his study The author considers whether workers have more to do with one another as societies industrialize whether they become more involved in organizations and whether these involvements become distinctively similar creating an organizational basis for a solidary working class movement To examine these questions he chooses four countries India Argentina Italy and the U S that vary in the extent of their industrial development He then compares samples of skilled semiskilled and unskilled workers in order to ascertain how specific technologies to which they have been exposed affect their behavior in systems such as the work group union party neighborhood and nation Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
