Keith V. Smith, Jane A. Smith

Mathematics Of Personal Finance Using Calculators And Computers:

The Mathematics of Personal Finance E. Thomas Garman, Bruce H. Brunson, 2002-08 The Mathematics of Personal Financial Planning 3e creates a solid foundation for the skills and applications that foster success of professional certification examinations in personal financial planning insurance credit counseling and financial counseling With a unique step by step learning format and algebraic expressions the text clearly presents mathematical computations and examples that will assist the student in mastering financial concepts and formulas

Understanding the Mathematics of Personal Finance Lawrence N. Dworsky, 2009-09-22 A user friendly presentation of the essential concepts and tools for calculating real costs and profits in personal finance Understanding the Mathematics of Personal Finance explains how mathematics a simple calculator and basic computer spreadsheets can be used to break down and understand even the most complex loan structures In an easy to follow style the book clearly explains the workings of basic financial calculations captures the concepts behind loans and interest in a step by step manner and details how these steps can be implemented for practical purposes Rather than simply providing investment and borrowing strategies the author successfully equips readers with the skills needed to make accurate and effective decisions in all aspects of personal finance ventures including mortgages annuities life insurance and credit card debt The book begins with a primer on mathematics covering the basics of arithmetic operations and notations and proceeds to explore the concepts of interest simple interest and compound interest Subsequent chapters illustrate the application of these concepts to common types of personal finance exchanges including Loan amortization and savings Mortgages reverse mortgages and viatical settlements Prepayment penalties Credit cards The book provides readers with the tools needed to calculate real costs and profits using various financial instruments Mathematically inclined readers will enjoy the inclusion of mathematical derivations but these sections are visually distinct from the text and can be skipped without the loss of content or complete understanding of the material In addition references to online calculators and instructions for building the calculations involved in a spreadsheet are provided Furthermore a related Web site features additional problem sets the spreadsheet calculators that are referenced and used throughout the book and links to various other financial calculators Understanding the Mathematics of Personal Finance is an excellent book for finance courses at the undergraduate level It is also an essential reference for individuals who are interested in learning how to make effective financial decisions in their everyday lives

Strategies in Personal Finance Keith V. Smith, Jane A. Smith, 2005 Every family should have financial goals for the future Being unprepared can lead to monetary chaos Financial Management of Your Future deals with strategies for accomplishing financial goals What investment returns are necessary to achieve explicit family goals How are returns logically related to risks for investment opportunities that are considered Can different families have different tolerances for experiencing investment risk Why is asset allocation the key investment decision for most families What are the characteristics and valuations of bonds stocks mutual funds real estate and international

securities that a family might consider How should a family construct monitor and revise a portfolio of investments over time How should careful estate planning be done by a family in order to delay or avoid taxes in passing on property to their children grandchildren and favorite charities And how can some of the concepts and techniques from modern portfolio theory be helpful to a family as it attempts to answer these questions This book deals with financial strategies for three adult age categories 1 Families of ages twenty to forty in the earlier years of active employment child raising and the beginning of saving for retirement 2 Families of ages forty to sixty in their years of maximum income high educational expenses for their children and more serious thinking about forthcoming retirement and 3 Families of ages sixty to eighty having retired or approaching full retirement

Introduction to Personal Finance John E. Grable, Lance Palmer, 2024-01-31 Every financial decision we make impacts our lives Introduction to Personal Finance Beginning Your Financial Journey 3rd Edition is designed to help students avoid early financial mistakes and provide the tools needed to secure a strong foundation for the future Using engaging visuals and a modular approach instructors can easily customize their course with topics that matter most to their students This course empowers students to define their personal values and make smart financial decisions that help them achieve their goals
