Matisse A Social Critique:

Matisse Aleksandr Georgievich Romm,1937 **Matisse** Alexander Romm,1947 **Matisse** Alexander Romm,2013-10
This is a new release of the original 1947 edition *The Collected Essays and Criticism, Volume 2* Clement Greenberg,1986
Clement Greenberg 1909 1994 champion of abstract expressionism and modernism of Pollock Mir and Matisse has been
esteemed by many as the greatest art critic of the second half of the twentieth century and possibly the greatest art critic of
all time On radio and in print Greenberg was the voice of the new American painting and a central figure in the postwar
cultural history of the United States Greenberg first established his reputation writing for the Partisan Review which he
joined as an editor in 1940 He became art critic for the Nation in 1942 and was associate editor of Commentary from 1945
until 1957 His seminal essay Avant Garde and Kitsch set the terms for the ongoing debate about the relationship of modern
high art to popular culture Though many of his ideas have been challenged Greenberg has influenced generations of critics
historians and artists and he remains influential to this day Matisse's Poets Kathryn Brown,2017-09-21 Throughout his
career Henri Matisse used imagery as a means of engaging critically with poetry and prose by a diverse range of authors
Kathryn Brown offers a groundbreaking account of Matisse s position in the literary cross currents of 20th century France
and explores ways in which reading influenced the artist s work in a range of media This study argues that the livre d artiste
became the privileged means by which Matisse enfolded literature into his own idiom and demonstrated the centrality of his
aesthetic to modernist debates about authorship and creativity By tracing the compositional and interpretive choices that
Matisse made as a painter print maker and reader in the field of book production this study offers a new theoretical account
of visual art s capacity to function as a form of literary criticism and extends debates about the gendering of 20th century
bibliophilia Brown also demonstrates the importance of Matisse s self placement in relation to the French literary canon in
the charged political climate of the Second World War and its aftermath Through a combination of archival resources art
history and literary criticism this study offers a new interpretation of Matisse s artist s books and will be of interest to art
historians literary scholars and researchers in book history and modernism *Making It Modern: Essays on the Art of the*
Now Linda Nochlin,2022-03-08 A selection of key essays on art from the nineteenth century to the present day by one of the
most influential voices in art history This illustrated collection of essays brings together some of art historian Linda Nochlin s
most important writings on modernism and modernity from across her six decade career Before the publication of her
seminal essay on feminism in art Why Have There Been No Great Women Artists she had already firmly established herself as
a major practitioner of a politically sophisticated and class conscious social art history Nochlin was part of an important
cohort of scholars writing on modernity determined to rethink the narratives of the subject under the pressure of
contemporary events such as student uprisings the women s liberation movement and the Vietnam War with the help of
politically engaged literary criticism that was emerging at the same time Nochlin embraced Charles Baudelaire s conviction

that modernity is meant to be of one's time and that the role of an art historian was to understand the art of the past not only in its own historical context but according to the urgencies of the contemporary world. From academic debates about the nude in the eighteenth century to the work of Robert Gober in the twenty-first, whatever she turned her analytic eye to was conceived as the art of the now. Including seven previously unpublished pieces, this collection highlights the breadth and diversity of Nochlin's output across the decades, including discussions on colonialism, fashion, and sex.

Modern Art on Display K. Porter Aichele, 2016-05-19 *Modern Art on Display: The Legacies of Six Collectors* is structured as a sequence of case studies that pair collectors of modern art with artists they particularly favored: Duncan Phillips and Augustus Vincent Tack; Albert Barnes and Chaim Soutine; Albert Eugene Gallatin and Juan Gris; Lillie Bliss and Paul C. Zanne; Etta Cone and Henri Matisse; G. David Thompson and Paul Klee. The case studies are linked by a thematic focus on the integral relationship between the collectors' acquired knowledge about the work they amassed and their innovative display models. This focus brings a new perspective to the history of collecting and interpreting modern art in America for nearly half a century (1915-1960). By examining the books the collectors themselves read and analyzing archival photographs of their displays, the author makes a case for the historical significance of how the collectors presented the art they acquired before their collections were institutionalized.

Russian and Soviet Views of Modern Western Art, 1890s to Mid-1930s Ilia Dorontchenkov, 2009-06-10 From the first Modernist exhibitions in the late 1890s to the Soviet rupture with the West in the mid-1930s, Russian artists and writers came into wide contact with modern European art and ideas. Introducing a wealth of little-known material set in an illuminating interpretive context, this sourcebook presents Russian and Soviet views of Western art during this critical period of cultural transformation. The writings document complex responses to these works and ideas before the Russians lost contact with them almost entirely. Many of these writings have been unavailable to foreign readers and until recently were not widely known even to Russian scholars. Both an important reference and a valuable resource for classrooms, the book includes an introductory essay and shorter introductions to the individual sections.
