Andrew, 1978-01-01 This book is a study of the six temples which the Church of Jesus Christ of the Latter day Saints constructed in the nineteenth century Though sharing the characteristics of various revival styles the buildings demonstrate a progressive modification of these styles so as to express the functions of the temples and to reflect the theology and politics of the Mormons The four temples in Utah designed by the church president Brigham Young and his builder architects symbolize the merging of spiritual and temporal concerns and the author believes were meant to play an instrumental role in the transformation of America into a millennial kingdom of God and a second Garden of Eden Thus the temples are studied within the specific context of Mormonism and the broader spectrum of American cultural history as well The account begins in Ohio where the believers in Joseph Smith s restored gospel erected a temple resembling the New England meetinghouse in form and use It follows the Mormons to Nauvoo Illinois where the second temple was built in the 1840s The author demonstrates how the developing theology and the introduction of secret rituals began to change the meaning and the architectural form of the temple as the style and

architectural symbols were incorporated on the exterior of the temple From Illinois the Mormons moved to Utah where four temples were built The most important at Salt Lake City is discussed in detail The author evaluates the contributions of Brigham Young to its design illustrates and discusses the drawings of the architect and offers an interpretation of the symbolism of the building She also discusses the attempt of the Mormons to establish an independent Kingdom of God in preparation for the Second Coming of Christ and relates the Salt Lake City temple and the other Utah buildings to this effort Her conclusion is that the Salt Lake City temple was to have a civic as well as religious function as the governmental center of the Kingdom of God The other three Utah temples were intended to extend the authority of the Mormon government throughout Utah

Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That s how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections Public Opinion, 1871 Howard Hughes Donald L. Barlett, James B. Steele, 2011-04-11 The life that inspired the major motion picture The Aviator starring Leonardo DiCaprio and directed by Martin Scorsese Howard Hughes has always fascinated the public with his mixture of secrecy dashing lifestyle and reclusiveness This is the book that breaks through the image to get at the man Originally published under the title Empire The Life Legend and Madness of Howard
