The Most Illustrious Ladies of the Italian Renaissance Marian Andrews, Christopher Hare, 1904 **The Most Illustrious Ladies of the Italian Renaissance** Christopher Hare, 2020-10-18 The Period of the Renaissance has ever been so attractive to the historian that many learned volumes have been written on the subject and it has been illustrated by much brilliant eloquence An army of patient students have devoted long years to serious research in hunting out forgotten treasures buried in foreign libraries archives chronicles diaries and letters innumerable Yet I venture to hope that there may still be room for a modest attempt to bring some of these vast stores of knowledge more especially as they touch upon woman's life within reach of those readers who have no leisure for profound and special study To them I would dedicate these sketches of some typical women of the Italian Renaissance which may be regarded as brief appreciations rather than full and complete biographies
