Congress. House. Committee on Ways and Means. Subcommittee on Trade,1997 **Health Care Antitrust** Aspen Health Law Center,1998 Antitrust laws touch upon a wide range of conduct and business relationships in the delivery of health care services and the issues that should be of concern to health care organizations are described Health Care Antitrust provides practical overviews of the principal legal issues relating to health care antitrust as well as a general understanding of antitrust analysis as applied to contractual relationships and business strategies that present antitrust risks in a managed care environment *Application of Most-Favoured-Nation Clauses by Investor-State Arbitral Tribunals* Tanjina Sharmin,2020-04-01 This book comprehensively examines various issues regarding the scope of Most Favoured Nation MFN Clauses in International Investment Agreements IIAs and addresses the reform interpretation and enforcement of IIAs with a specific focus on the MFN clause The book begins with a study of the history and evolution of the MFN It then presents a substantive analysis focusing on the drafting style and how it affects the scope of the MFN rules of interpretation and arbitral case law on the scope of the MFN procedural prerequisites to arbitration and jurisdiction of arbitral tribunals and the implications of adopting an expansive approach to the MFN clause The book s argument centres on the need for arbitral tribunals to interpret the MFN in a manner that reflects the expressed intent of the parties This requires taking into consideration the text of the MFN its purpose and the overall context of the IIA rather than relying on values and assumptions that have nothing to do with the original intent of the parties In making this argument the book draws on Articles 31 and 32 of the Vienna Convention on the Law of Treaties and other interpretative rules What sets the book apart is its comprehensive coverage of issues concerning the interpretation and application of the MFN in IIAs At the same time it addresses issues in connection with an expansive interpretation of MFN clauses as well as concerns regarding the legitimacy crisis in investor state arbitration Accordingly it contributes to future Investor State Dispute Settlement ISDS reform while also offering a wealth of theoretical and practical insights for future treaty drafters arbitrators and policymakers
