The Reading Nation in the Romantic Period William St Clair, 2004-07-08 Publisher Description

Literature & Pedagogy Anthony Cordingley, 2025-04-01 Building upon the approach to reading literature pioneered by Bruce Gardiner at the University of Sydney for over four decades Literature and Pedagogy is devoted to the way that texts literary texts in particular seek to instruct us Bruce Gardiner has inspired generations of teachers and scholars in the field of literary criticism He stands for a scholarly ethos which is at risk of disappearing His distinctive academic career which was entirely devoted to research led teaching invites us to think about the relationships between literary studies and pedagogy It also invites us to ask what role a unique pedagogical style plays in the evolution of a discipline How does intergenerational transmission between teacher and student play out both within and beyond disciplinary boundaries This collection explores these questions while also documenting Gardiner's methods of scholarly as much as professional resistance to the neo liberalisation and neo conservatism of contemporary academic culture Contributors draw from inspiring encounters with him to reflect upon the rhetoric and motifs of pedagogy within literary works They put Gardiner's mode of reading into practice by offering new interpretations of pedagogical mechanisms employed within important literary works from the seventeenth century to the present and of cultural phenomena like colonial interpretations of the Australian lyrebird's song The volume also offers pieces inspired by Gardiner such as poetry art translation and creative non fiction as well as three unpublished

lectures by Gardiner himself Techniques and methodologies of literary education are traditionally believed to offer students the keys with which to unlock the secrets of texts and foster their appreciation Literature and Pedagogy offers a new perspective showing teachers and students of both education and literature how literary works present their own methods for reflecting critically upon how and why we learn read and teach British Romanticism in European Perspective Steve Clark,Tristanne Connolly,2015-09-08 What and when is British Romanticism if seen not in island isolation but cosmopolitan integration with European Romantic literature history and culture The essays here range from poetry and the novel to science writing philosophy visual art opera and melodrama from France and Germany to Italy and Bosnia The Poet and the Fly Robert Hudson,2020-07-28 Flies are the most ubiquitous of insects buzzing minuscule and seemingly insignificant they've been both plagues and minor annoyances for millennia Rather than ignore these incredibly mundane and seemingly insignificant creatures poets spanning centuries from the seventeenth to the twentieth and continents from North America to Asia have found that these ordinary bugs in fact illuminate deep spiritual mysteries In this revelatory book Robert Hudson considers seven poets each of whom wrote a provocative poem about a fly These poets all mystics in their own way ponder the simple fly and come to astounding conclusions Considering Emily Dickinson William Blake and several other poets The Poet and the Fly brings together the poetry the flies and the poets own lives to explore the imaginative and often prophetic insights that come from the startling combination of poetry and flies Ultimately the message each poet offers to us through the fly is as relevant today as it was in their own time the miracle of existence the gift of mortality the power of the imagination the need for compassion the existence of the soul the mystery of everything around us and the sacramental grace giving power of story *Romantic Writings* Stephen Bygrave,2017-09-29 Romantic Writings is an ideal introduction to the cultural phenomenon of Romanticism one of the most important European literary movements and the cradle of Modern culture Here you will find an accessible introduction to the well known male Romantic writers Blake Wordsworth Coleridge Byron Shelley and Keats Alongside are chapters dealing with poems by Charlotte Smith Mary Robinson Ann Barbauld Elizabeth Barrett Browning which challenge the idea that these men are the only Romantic writers As a further counterpoint the book also includes discussion of two German Romantic short stories by Kleist and Hoffman Throughout close reading of texts is matched by an insistence on reading them in their historical context Romantic Writings offers invaluable discussions of issues such as the notion of the Romantic artist colonialism and the exotic and the particular situation of women writers and readers Minor Literature in Late Romanticism James Najarian,2025-07-31 This book intervenes in the current discussion concerning so called minor English literature of the late 1820s and early 1830s Writing in the late Romantic period this study charts the declining economic market for individual poetry volumes as other markets were developing It examines selected authors over a short time period who consciously placed their works as minor arguing that minor is not only a category that has been used to classify the literary reputation of authors long after their deaths but a position that

authors adopt themselves Minor poets turn from long ambitious works to shorter lyrics on a limited number of subjects They respond to the Romantic ideology and its emphasis on individual vision achievement and reputation but choose instead the minor This book explores the work of Charles Lamb as a theorist of the minor as well as Thomas Hood Felicia Hemans Winthrop Mackworth Praed and Mary Mitford as exemplars of this style It links their work to literary Romanticism and yet responds to it in a strategically self limited way by posing as ancillary *The Politics of Songs in Eighteenth-Century Britain*, 1723-1795 Kate Horgan, 2015-10-06 Horgan analyses the importance of songs in British eighteenth century culture with specific reference to their political meaning Using an interdisciplinary methodology combining the perspectives of literary studies and cultural history the utilitarian power of songs emerges across four major case studies **Print Politics** Kevin Gilmartin, 1996-12-05 Literary study of the popular radical press in England 1800-1830 **Romanticism and Women Poets** Harriet Kramer Linkin, Stephen C. Behrendt, 2021-10-21 One of the most exciting developments in Romantic studies in the past decade has been the rediscovery and repositioning of women poets as vital and influential members of the Romantic literary community This is the first volume to focus on women poets of this era and to consider how their historical reception challenges current conceptions of Romanticism With a broad revisionist view the essays examine the poetry these women produced what the poets thought about themselves and their place in the contemporary literary scene and what the recovery of their works says about current and past theoretical frameworks The contributors focus their attention on such poets as Felicia Hemans Letitia Elizabeth Landon Charlotte Smith Anna Barbauld Mary Lamb and Fanny Kemble and argue for a significant rethinking of Romanticism as an intellectual and cultural phenomenon Grounding their consideration of the poets in cultural social intellectual and aesthetic concerns the authors contest the received wisdom about Romantic poetry its authors its themes and its audiences Some of the essays examine the ways in which many of the poets sought to establish stable positions and identities for themselves while others address the changing nature over time of the reputations of these women poets **The Routledge Companion to Romantic Women Writers** Ann R. Hawkins, Catherine S. Blackwell, E. Leigh Bonds, 2022-12-30 The Routledge Companion to Romantic Women Writers overviews critical reception for Romantic women writers from their earliest periodical reviews through the most current scholarship and directs users to avenues of future research It is divided into two parts The first section offers topical discussions on the status of provincial poets on women's engagement in children's literature the relation of women writers to their religious backgrounds the historical backgrounds to women's orientalism and their engagement in debates on slavery and abolition The second part surveys the life and careers of individual women some 47 in all with sections for biography biographical resources works modern editions archival holdings critical reception and avenues for further research The final sections of each essay offer further guidance for researchers including Signatures under which the author published and a List of Works accompanied whenever possible with contemporary prices and publishing formats To facilitate research a robust Works Cited includes all texts mentioned or

quoted in the essay British Romanticism in Asia Alex Watson, Laurence Williams, 2019-02-15 This book examines the reception of British Romanticism in India and East Asia including China Japan Korea and Taiwan Building on recent scholarship on Global Romanticism it develops a reciprocal cross cultural model of scholarship in which Asian Romanticism is recognized as itself an important part of the Romantic literary tradition It explores the connections between canonical British Romantic authors including Austen Blake Byron Shelley and Wordsworth and prominent Asian writers including Natsume S seki Rabindranath Tagore and Xu Zhimo The essays also challenge Eurocentric assumptions about reception and periodization exploring how since the early nineteenth century British Romanticism has been creatively adapted and transformed by Asian writers

Fatal Women of Romanticism Adriana Craciun, 2002-12-12 Incarnations of fatal women or femmes fatales recur throughout the works of women writers in the Romantic period Adriana Craciun demonstrates how portrayals of femmes fatales or fatal women played an important role in the development of Romantic women s poetic identities and informed their exploration of issues surrounding the body sexuality and politics Craciun covers a wide range of writers and genres from the 1790s through the 1830s She discusses the work of well known figures including Mary Wollstonecraft as well as lesser known writers like Anne Bannerman By examining women writers fatal women in historical political and medical contexts Craciun uncovers a far ranging debate on sexual difference She also engages with current research on the history of the body and sexuality providing an important historical precedent for modern feminist theory s ongoing dilemma regarding the status of woman as a sex
