Jesus Richard Bauckham, 2011-07-28 Two billion people today identify as Christians with the implication that Jesus is the focus of their relationship with God and their way of living in the world Such followers of Jesus are now more numerous and make up a greater proportion of the world's population than ever before Despite its decline in the West Christianity is rapidly increasing in areas such as Africa and China Richard Bauckham explores the historical figure of Jesus evaluating the sources and concluding that they provide us with good

historical evidence for his life and teaching In order to place Jesus in his proper historical context as a Jew from Galilee in the early first century of our era Bauckham looks at Jewish religion and society in the land of Israel under Roman rule He explores Jesus symbolic practices as well as his teachings looks at his public career and emphasises how his actions such as healing and his association with notorious sinners were just as important as his words Bauckham shows that Jesus was devoted to the God of Israel with a special focus on God s fatherly love and compassion and like every Jewish teacher he expounded the Torah but did so in his own distinctive way With a discussion about the way Jesus understood himself and what finally led to his death as a criminal on a Roman cross he concludes by considering the significance Jesus has come to have for Christian faith worldwide ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Byzantine Text-Type & New Testament Textual Criticism Harry Sturz, 2022-06-08 Should the Byzantine text type be considered valuable in determining the original text of the New Testament Does it bear independent witness to ancient readings Dr Harry Sturz in a book published in 1984 maintained that it should be valued and that it could help with finding older readings and thus contribute to our knowledge of and confidence in the text of the Greek New Testament His position that the Byzantine text type should be weighed along with other witnesses to the ancient text differs from those who dismiss Byzantine manuscripts which were largely copied later but also from those who hold that the Byzantine text has priority or even is determinative of what the final reading should be He uses carefully laid out arguments and numerous specific examples in making his case This book is divided into two parts The first outlines the positions both for relying on the Byzantine text and for largely ignoring it Part two examines the evidence and outlines an argument that neither side of this debate should win the field but rather that the Byzantine text should be valued but not made exclusive Energion Publications is pleased to offer this reprint edition reproducing the text of the old book exactly and adding a preface by Dr David Alan Black We believe that Dr Sturz's arguments provide a strong case and are as relevant today as they were in 1984 We also believe that not just scholars but all believers should be made aware of discussions about the text of Scripture so that they can understand the arguments for the reliability of the text we have today This book is primarily aimed at students of New Testament textual criticism and at scholars who are seeking to refine their art The first section especially is accessible to any serious reader While the second section does include Greek text and excellent references the main argument is clear and accessible
