Planning and Profits in Socialist Economies Jean-Charles Asselain, 2013-11-05 This study of economic reforms throughout Eastern Europe covers the history of attempts at decentralization The book Describes the centralized model and compares its requirements with the realities of socialist countries Discusses the economic policies of the post Stalinist period Examines the origin of the reforms which began in 1956 culminating in the Soviet economic reform of 1965 and the rehabilitation of profit Countries covered include the former USSR the former East Germany and Hungary *The Economics of Human Betterment* Kenneth E. Boulding, 1984-01-01 The Economics of Human Betterment is a comparative look at economic change and social progress It is about betterment a change or process and about institutions and countries as they evolve It is about human betterment and therefore concerned with perceived welfare and the identification of basic human needs And it is about economics but about means as means not means as ends This book asks in what way productive activities whether free market or planned whether in developed or in developing countries influence and reflect basic human values The essays contained herein represent some of the best up to date accounts available on such topics as the welfare state in Holland or the relationship between growth and betterment in Singapore Other essays take in the United Kingdom Japan India and the planned economy of the Soviet Union The contributors are all well known experts in their own field And their essays reveal a common conviction that economics is about people first and about things only in so far as they contribute to human betterment Problems of Communism, 1979 **Hearings, Reports and Prints of the House**
