Henderson,2018 Algebraic Art explores the invention of a peculiarly Victorian account of the nature and value of aesthetic form and it traces that account to a surprising source mathematics Drawing on literature art and photography it explores how the Victorian mathematical conception of form still resonates today **Converse in the Spirit** Kevin Fischer,2004 Underlining the importance to both of a living creative and spiritual tradition Converse in the Spirit argues that the relationship between Blake and Boehme was a meeting of like minds that transcended place and time that each regarded himself as part of a community of vision and aspiration and believed that any predominant form of thought and

understanding was only partial Through this Boehme is used to illuminate the more esoteric aspects of Blake and Blake those of Boehme Their writings are not a simple or direct description on the movements of divinity nor of what divinity is or is not but a medium for approaching it and for participating in the creation of the sacred the giving of personal individual form to the divine

Sources, Processes and Methods in Coleridge's 'Biographia Literaria' Kathleen M. Wheeler, 1980-11-27 This is Dr Wheeler's analysis of the Biographia Literaria one of the central prose texts of the Romantic period

Wordsworth's Poetry of Repetition Sarah Houghton-Walker, 2023-04-25 Repetition has connotations of something boring or unoriginal or lacking in poetic skill but repetition in several different senses dominates Wordsworth's poetry This book explores those moments of repetition placing them in the early nineteenth century context from which they emerged and teasing out through extended close attention to the poetry itself the complexities of repetition and recapitulation Drawing on extensive close readings of Wordsworth's poetry the book asks what it means to repeat and how saying things again often in a way which recognises both sameness and difference at the same time is fundamental to Wordsworth's attempt to write what he called sincere verse By analysing instances of repetition and the conjunctions which facilitate recapitulation within Wordsworth's writing the book attempts to understand the context in terms of ideas of repetition from which Wordsworth's works emerge and to consider repetition in a broad range of senses from repeated words and sounds within particular poems to ideas of translation allusion and echo Houghton Walker also argues the importance of the element of difference within even apparently pure repetition Such difference might be in perception attitude or understanding but for Wordsworth the subtle relationship between instances of what seems to be the same experience illuminates the potential for poetry to portray simultaneously the specific and the universal to hold within its lines both immediate and general truths at the same time
