*Philosophical Letters* Richard O'Donnell, 2002-09      *The Journal of Philosophy*, 1927 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy 1933      **Schelling, Freedom, and the Immanent Made Transcendent** Daniele Fulvi, 2023-09-28 This book offers a cutting edge interpretation of the philosophy of F W J Schelling by critically reconsidering the interpretations of some of his successors It argues that Schelling's philosophy should be read as an ontology of immanence highlighting its relevance for ongoing debates on ethics and freedom The book builds on a key notion from Schelling's *Philosophy of Revelation* where he outlines the process through which transcendence must return to immanence in order to be grasped and understood The author identifies Jaspers Heidegger and Deleuze as the main interpreters of Schelling's philosophical activity highlighting their relevance for subsequent Schelling scholarship Heidegger and Jaspers refer to Schelling's philosophy in negative terms namely as an incomplete and unviable philosophical system whereas Deleuze holds the immanent core of Schelling's ontological discourse in high regard The author's analysis demonstrates that reading Schelling's philosophy as an ontology of immanence not only avoids Heidegger's and Jaspers's criticisms but is also more fitting to Schelling's original meaning Accordingly his reading allows us to fully grasp Schelling's thought in all its strength and consistency as a philosophy that avoids metaphysical abstractions and maintains the concreteness of concepts like God nature freedom by binding them to a solid and material account of Being Finally the author uses Schelling to propose an innovative reading of freedom as a matter of resistance and of philosophy as an activity whose main purpose is that of seeking the actual extent and place of human life and freedom within nature The author originally emphasises the relevance of these conclusions on contemporary debates in Postcolonial Critical Theory and Environmental Ethics *Schelling Freedom and the Immanent Made Transcendent* From *Philosophy of Nature* to *Environmental Ethics* will appeal to scholars and advanced students working in 19th century Continental philosophy German idealism and Postcolonial Critical Theory and Environmental Ethics      *Jonathan Edwards's Philosophy of History* Avihu Zakai, 2009-07-26 Avihu Zakai analyzes Jonathan Edwards's redemptive mode of historical thought in the context of the Enlightenment As theologian and philosopher Edwards has long been a towering figure in American intellectual history Nevertheless and despite Edwards's intense engagement with the nature of time and the meaning of history there has been no serious attempt to explore his philosophy of history Offering the first such exploration Zakai considers Edwards's historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations Zakai analyzes the ideological origins of Edwards's insistence that the process of history depends solely on God's redemptive activity in time as manifested in a series of revivals throughout history reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time In response to the Enlightenment refashioning of secular

historical time and its growing emphasis on human agency Edwards strove to re establish God s preeminence within the order of time Against the de Christianization of history and removal of divine power from the historical process he sought to re enthrone God as the author and lord of history and thus to re enchant the historical world Placing Edwards s historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America
