**The Functions of Law** Kenneth M. Ehrenberg, 2016 This book seeks to contribute to a legal positivist picture of law by defending two metaphysical claims about law and investigating their methodological implications One claim is that the law is a kind of artifact a thoroughgoing human creation for performing certain tasks or accomplishing certain goals That is artifacts are generally understood in terms of their functions When discussing artifacts the notion of function need not be as mysterious or problematic as might be the case with biological functions The other claim is that the law is an institution a specific kind of artifact that creates artificial roles which allow for the establishment and manipulation of rights and duties among those subject to the institution The methodological implication of this picture of law is that it is best understood in terms of the social functions that it performs and that the job of the legal philosopher is to investigate those functions This position is advanced against non positivist theories of law that nonetheless rely upon notions of law's function and is also advanced against positivist pictures that tend to de-emphasize or overlook the central role that function must play to understand the nature of law One key implication of this picture is that it can help explain how law might give people reasons to act beyond its use of force to do

J. A. Mooij, 1993 This book is a study of the role of the imagination It focuses on the imaginative use of language in literature poetry and narrative prose but it also touches on some more comprehensive issues for the questions it discusses are questions regarding the relationship between mind reality and unreality The first two chapters survey the thinking about the imagination in the history of philosophy The main trends and the main problems are discussed particularly in respect of the positive or negative evaluation of imagination The subsequent chapters investigate the role of the imagination from a closer point of view How is it that imagination appears in literary art Central topics of discussion are the nature of narrativity of fictional discourse and fictional objects of realistic fiction of symbolism and metaphor Moreover the similarities both real and imagined between literature and the other arts are explored In all chapters attention is paid to the problem of the value of art and literary imagination The last chapter addresses this issue head on In particular it attempts to define the value of literature in relation to science      **The Serials Directory**, 1987      Hints to Travellers in Portugal, Etc Portugal.
