**The Philosophy of History** Georg W. F. Hegel, 2007-06-01 Purchase of this book includes free trial access to [www.millionbooks.com](http://www.millionbooks.com) where you can read more than a million books for free This is an OCR edition with typos Excerpt from book Spirit and in the History of the World regard everything as only its manifestation we have in traversing the past however extensive its periods only to do with what is present for philosophy as occupying itself with the True has to do with the eternally present Nothing in the past is lost for it for the Idea is ever present Spirit is immortal with it there is no past no future but an essential now This necessarily implies that the present form of Spirit comprehends within it all earlier steps These have indeed unfolded themselves in succession independently but what Spirit is it has always been essentially distinctions are only the development of this essential nature The life of the ever present Spirit is a circle of progressive embodiments which looked at in one aspect still exist beside each other and only as looked at from another point of view appear as past The grades which Spirit seems to have left behind it it still possesses in the depths of its present

**GEOGRAPHICAL BASIS OF HISTORY** Contrasted with the universality of the moral Whole and with the unity of that individuality which is its active principle the natural connection that helps to produce the Spirit of a People appears an extrinsic element but inasmuch as we must regard it as the ground on which that Spirit plays its part it is an essential and necessary basis We began with the assertion that in the History of the World the Idea of Spirit appears in its actual embodiment as a series of external forms each one of which declares itself as an actually existing people This existence falls under the category of Time as well as Space in the way of natural existence and the special principle which every world historical people embodies has this principle at the same time as a natural

**A Companion to the Philosophy of History and Historiography** Aviezer Tucker, 2011-06-28 A COMPANION TO THE PHILOSOPHY OF HISTORY AND HISTORIOGRAPHY The philosophy of historiography examines our representations and knowledge of the past the relation between evidence inference explanation and narrative Do we possess knowledge of the past Do we just have probable beliefs about the past or is historiography a piece of convincing fiction The philosophy of history is the direct philosophical examination of history whether it is necessary or contingent whether it has a direction or whether it is coincidental and if it has a direction what it is and how and why it is unfolding The fifty entries in this Companion cover the main issues in the philosophies of historiography and history including natural history and the practices of historians Written by an international and multi disciplinary group of experts these clearly written entries present a cutting edge updated picture of current research in the philosophies of historiography and history This Companion will be of interest to philosophers historians natural historians and social scientists

*Knowledge and Explanation in History* Ronald F. Atkinson, 1978-11-30

**Philosophy of History**

M.C. Lemon, 2003-08-29 *Philosophy of History* is an essential introduction to a vast body of writing about history from classical Greece and Rome to the modern world M C Lemon maps out key debates and central concepts of philosophy of history placing principal thinkers in the context of their times and schools of thought Lemon explains the crucial differences between speculative philosophy as an enquiry into the content of history and analytic philosophy of history as relating to the methods of history The first two parts of the book trace each of these traditions whereas the third part revisits both in the light of recent contributions to the discipline This guide provides a comprehensive survey of historical thought since ancient times Its clear terminology and lucid argument will make it an invaluable source for students and teachers alike

*The Principles of History* R. G. Collingwood, 1999-03-18 Published here for the first time is much of a final and long anticipated work on philosophy of history by the great Oxford philosopher and historian R G Collingwood 1889-1943 The original text of this uncompleted work has only recently been discovered It is accompanied by further shorter writings by Collingwood on historical knowledge and inquiry selected from previously unpublished manuscripts held at the Bodleian Library Oxford All these writings besides containing entirely new ideas discuss further many of the issues which Collingwood famously raised in *The Idea of History* and in his *Autobiography* The volume includes also two conclusions written by Collingwood for lectures which were eventually revised and published as *The Idea of Nature* but which have relevance also to his philosophy of history A lengthy editorial introduction sets these writings in their context and discusses philosophical questions to which they give rise The editors also consider why Collingwood left *The Principles of History* unfinished at his death and what significance should be attached to the fact that it contains no reference to the idea of historical understanding as re enactment This volume will be a landmark publication not just in Collingwood studies but in philosophy of history generally

*Philosophies of History* Robert Burns, Hugh Rayment-Pickard, 2000-09-13 This important book charts the development of philosophical thinking about history over the past 250 years combining extracts from key texts with new explanatory and critical discussion The book is designed to make the work of thinkers such as Hume Herder Hegel Dilthey Nietzsche Heidegger and Foucault accessible to students with no prior knowledge of Western philosophy An introductory section is followed by nine further chapters exploring contrasting schools of thought The volume reveals the origins of contemporary trends in the discipline and relates wider philosophical reflections to the study of history itself It also points to connections between philosophy of history and literary and cultural theory which have developed in recent decades

**Philosophies of History** Rolf Gruner, 1985

*Understanding History* Jonathan Gorman, 1992-01-01 Has any question about the historical past ever been finally answered Of course there is much disagreement among professional historians about what happened in the past and how to explain it But this incisive study goes one step further and brings into question the very ability of historians to gather and communicate genuine knowledge about the past *Understanding History* applies this general question from the philosophy of history to economic history of American slaveholders Do we understand the American slaveholders Has the last

word on the subject been said Both the alleged profitability of slavery and the purported causes of the American Civil War are philosophically analyzed Traditional narrative history and econometric history are examined and compared and their different philosophical assumptions made explicit The problem of justifying historical methodologies is first set in the wider context of the philosophical problem of knowledge then lucidly explained and resolved along pragmatic lines The novelty of Gorman s approach lies in its comparison of narrative with econometric history its analysis of empathetic understanding in terms of cost benefit analysis and its elucidation of the metaphysical presuppositions of empiricism It stands out especially for the clarity rigor and simplicity of its arguments Published in English
