Philosophy And Literature An Introduction:

Philosophy and Literature Ole Martin Skilleås, 2001 What does philosophy think about literature And what does literary theory tell us about philosophy Find out how philosophy addresses the questions of the nature and value of literature and how literary analysis shows that philosophy's attempts to persuade its reader seem to conflict with its self definition as the discourse of pure and untainted reason Discover why Plato divided philosophy and literature banishing literature from his ideal state and how Aristotle answered Plato's criticisms of literature And explore how philosophy's drive to define phenomena takes us into different ways of defining literature

Philosophy of Literature Christopher New, 2002-01-04 Literature like the visual arts poses its own philosophical problems While literary theorists have discussed the nature of literature intensively analytic philosophers have usually dealt with literary problems either within the general framework of aesthetics or else in a way that is accessible only to a philosophical audience The present book is unique in that it introduces the philosophy of literature from an analytic perspective accessible to both students of literature and students of philosophy Specifically the book addresses the definition of literature the distinction between oral and written literature and the identity of literary works the nature of fiction and our emotional involvement with fictional characters the concept of imagination and its role in the apprehension of literary works theories of metaphor and postmodernist theory on the significance of the authors intentions to the interpretation of their work an examination of the relevance of truth and morality to literary appreciation Lucid and well organised and free from jargon philosophy of Literature An Introduction offers fresh approaches to traditional problems and raises new issues in the philosophy of literature

Philosophy Lowell Kleiman, Stephen Lewis, 1998-04 Philosophy and literature are natural allies philosophy supplying perennial themes raised anew from one generation to the next literature providing vivid illustrations of the meaning and poignancy of abstract thought Illuminates basic philosophical concepts through literary works This unique text introduces students to philosophy through the medium of great literature The book is divided into seven parts each devoted to the illumination of a basic philosophical concept such as Knowledge Truth Personal Identity Ethics and justice through the use of literary selections from Sophocles Oedipus the King James Joyce Araby Kafka The Metamorphosis and John Dos Passos The House of Morgan among many others The editors have given special attention to choosing the right combination of literary piece and philosophical issue to ensure that the story or play lend itself to philosophical scrutiny Selections of the best philosophical writings The questions raised by these selections are then explored further through some of the best philosophical writings available including the writings of Aristotle William James Plato Locke John Stuart Mill and many other classic philosophers as well as contemporary pieces

from Richard Rorty Peter Unger John Rawls John Hick and others In each chapter the editors have attempted to include the clearest presentation of a particular point of view sometimes going back to an earlier article not generally found in other current texts Throughout they have made an effort to balance the analytic tradition with hermeneutics and feminist philosophy Excellent introduction for students Every chapter is introduced with an essay by the editors that provides a unifying thread through the various philosophical and literary pieces that follow Each chapter ends with discussion questions and suggestions for further study The result is a volume that will provide students with a valuable tool for illuminating timeless as well as contemporary issues and an introduction to philosophy that they will remember and to which they can return over and over again **The Cambridge Introduction to Literature and Philosophy** Anthony J.

Finding Philosophers in Global Fiction Anway Mukhopadhyay,Saptarshi Mallick,Debashree Dattaray,2024-09-05 A cross cultural study that explores and redefines what philosophy philosophizing and philosophers are through the lens of literature The academic discipline of philosophy may tell us too rigidly what a philosopher is or should be but fictional narration often upholds the core conundrums of humankind in which philosophy germinates This collection of essays explores whether a study of philosophers at a planetary scale or at least on a broad cross cultural spectrum can decouple philosophy from its academic aspect and lend it a more inclusive domain Contributors to this volume play with three conceptual poles making them interact with each other and get modified through this interaction fiction narrative and philosopher How do these three terms get semantically modified and broadened in scope when we speak of the figures of philosophers in imaginative writing How do these terms assume different connotations in different cultural contexts interacting with the multiplicity of not just thought but also the media and tools of thought Do we always think only rationally Or do we also think with and through emotively powerful images symbols and tropes In the end *Finding Philosophers in Global Fiction* insists on the need to de elitize and democratize the concept of a philosopher by reflecting on the possibility of seeing a philosopher as one who sees things clearly from any vantage point **Dreams and Dreaming** ,2010-11-19 With recent advances of modern medicine more people reach the elderly age around the globe and the number of dementia cases are ever increasing This book is about various aspects of dementia and provides its readers with a wide range of thought provoking sub topics in the field of
