Philosophy At The Limit:

Old Age from Antiquity to Post-Modernity, 2016 **Philosophy at the Limit** David Wood, 2023-08-11 First published in 1990 *Philosophy at the Limit* was originally part of the Problems of Modern European Thought book series. It pursues the theme of philosophy's confrontation with its own limits in modern philosophers from Hegel to Derrida, including Nietzsche, Wittgenstein, Heidegger, and Gadamer. The author focuses on questions of philosophical style, dialogue, and indirect communication, the structural closure of philosophical texts, and performative strategy in philosophy. The book is an accessible discussion of many of the complex issues that empower continental philosophy. It will appeal to students of philosophy and contemporary thought at every level and to the general reader interested in the heart of the debates in European thought.

Transcendence and Finitude in Drucilla Cornell's *Philosophy of the Limit* Roger Berkowitz, 2006 This paper situates Drucilla Cornell's work within a specific tradition of thinking the belonging together of law and freedom. From Kant to Heidegger, the possibility of freedom amidst legal obligation is one of the central questions of political and ethical philosophy. Following both Kant and Heidegger, Cornell thinks freedom as the free embrace of obligation. At the same time, Cornell insists that contemporary thinkers take seriously the radical meaninglessness, the absence of both freedom and obligation, that threatens the modern condition. Suspicious of both Kant's turn to a universal law of reason and Heidegger's free embrace of man's finite legal inheritance, Cornell accepts the increasingly widespread view that all meaning and all law are without ground. What is needed, Cornell argues, is a freely accepted embrace of law within and amidst the recognition of radical nihilism. Her insistence that finite beings can and must live in the paradoxical state of commitment to law in the face of the fact of law's meaninglessness is the ethical center of her work.

Imagining Law Renee J. Heberle, Benjamin Pryor, 2009-01-08 Drucilla Cornell's contribution to legal thought and philosophy is unique in its attention to diverse traditions and the possibilities of dialogue among them. Renee J. Heberle and Benjamin Pryor bring together scholars from a range of disciplines who reflect on Cornell's influence and importance to contemporary social and political theory and critically engage with ideas and arguments central to her published work. The final chapter is Cornell's own response to the contributors' views, establishing a record of a critical exchange among top scholars from across disciplines.

The Movement of Showing Johan de Jong, 2020-03-01 Explores why Derrida, Hegel, and Heidegger conceive of their thought as a movement rather than as a presentation of results or conclusions. This book explores the idea shared by Derrida, Hegel, and Heidegger that the value of their thought is not found in its results or conclusions but in its movement. All three describe the heart of their work in terms of a pathway, development, or movement that seems to deprive their thought of a solid ground. Johan de Jong argues that this is a structural vulnerability that is the source of its value, tracing Derrida's indirect method from his early to later works and critically considering his engagements with Hegel and Heidegger. De Jong's analysis locates an affinity among Hegel, Heidegger, and Derrida in a shared distrust of externality and against the grain of some Levinasian

commentaries argues that Derrida's indirectness results in an ethics of complicity. *The Movement of Showing* answers a central question that many polemics about continental philosophy and postmodernism revolve around: namely, with which methods does one philosophize responsibly? It shows the difference between critique and polemics and why simply taking up a position for or against is insufficient in order to think responsibly. The scope and focus of this book is unusual and requires a lot of mastery of various periods and ideas in philosophy. It stands in a category of its own. For those familiar with the ambitious trajectory in Western ontology and modern philosophy that connects and runs through Hegel, Heidegger, and Derrida, this book will be a thrill to read. Emilia Angelova, Concordia University. **Echoes** John Sallis, 1990-09-22. In *Echoes*

John Sallis mobilizes the figure of echo used by Heidegger to characterize originary thinking as the motif around which to organize a radical reading of Heidegger's most important texts. *Reinforced and Prestressed Concrete* F. K. Kong, R. H. Evans, 1998-04. This highly successful textbook has been comprehensively revised for two main reasons: to bring the book up to date and make it compatible with BS8110:1985 and to take into account the increasing use made of microcomputers in civil engineering. An important chapter on microcomputer applications has been added. **Imagination and**

Postmodernity Patrick L. Bourgeois, 2013-09-05. *Imagination and Postmodernity* addresses the role of the imagination in philosophy today. By focusing on philosophy at the boundary of reason with constant reference to Kant's view of the boundary limit, it is possible to advance a viable alternative to deconstructing the imagination. Patrick L. Bourgeois puts forth the claim that by refocusing the imagination in the postmodern conversation, a far-reaching contemporary position can be reached that reestablishes the position of the humanities as central against the anti-humanism of deconstruction. This work addresses some of the challenges and problems that emerge in conflicting positions within contemporary philosophy, including a concentration on the role of the imagination in the work of Paul Ricoeur in contrast and in opposition to its role in such postmodern thinkers as Derrida and Lyotard. This treatment requires going back to the role of the imagination in the period of Kant and his immediate followers in order to clarify the various ways of seeing the imagination then and now for the role today is anticipated in the nineteenth century. Finally, this work as a creative appropriation of the position of Paul Ricoeur presents a role for the imagination today that is more encompassing than most thinkers allow for. **A Guide on the**

The Sense of Space David Morris,2012-02-01 The Sense of Space brings together space and body to show that space is a plastic environment charged with meaning that reflects the distinctive character of human embodiment in the full range of its moving perceptual emotional expressive developmental and social capacities Drawing on the philosophies of Merleau Ponty and Bergson as well as contemporary psychology to develop a renewed account of the moving perceiving body the book suggests that our sense of space ultimately reflects our ethical relations to other people and to the places we inhabit

Retreating the Political Phillippe Lacoue-Labarthe,Jean-Luc Nancy,2005-08-19 This collection of essays presents for the first time in English some of the key essays on the political by Philippe Lacoue Labarthe and Jean Luc Nancy Including several unpublished essays Retreating the Political offers some highly original perspectives on the relationship between philosophy and the political Through contemporary readings of the political in Freud Heidegger and Marx the authors ask if we can talk of an a priori link between the philosophical and the political they investigate the significance of the figure the human being as political subject in the history of metaphysics and they inquire how we can re treat the political today in the face of those who argue that philosophy is at an end

The limits of evolution G. H. Howison,1895

Merleau-Ponty at the Limits of Art, Religion, and Perception Kascha Semonovitch,Neal DeRoo,2011-10-27 This book poses the question of what lies at the limit of philosophy Through close studies of French phenomenologist Maurice Merleau Ponty s life and work the authors examine one of the twentieth century s most

interdisciplinary philosophers whose thought intersected with and contributed to the practices of art psychology literature faith and philosophy As these essays show Merleau Ponty's oeuvre disrupts traditional disciplinary boundaries and prompts his readers to ask what exactly constitutes philosophy and its others Featuring essays by an international team of leading phenomenologists art theorists theologians historians of philosophy and philosophers of mind this volume breaks new ground in Merleau Ponty scholarship including the first sustained reflections on the relationship between Merleau Ponty and religion and magnifies a voice that is talked over in too many conversations across the academic disciplines Anyone interested in phenomenology art theory and history cognitive science the philosophy of mind and the philosophy of religion will find themselves challenged and engaged by the articles included in this important effort at interdisciplinary philosophy

Politics of Security Michael Dillon, 2002-01-31 In this critique of security studies with insights into the thinking of Heidegger Foucault Derrida Levinas and Arendt Michael Dillon contributes to the rethinking of some of the fundamentals of international politics developing what might be called a political philosophy of continental thought Drawing on the work of Martin Heidegger *Politics of Security* establishes the relationship between Heidegger's radical hermeneutical phenomenology and politics and the fundamental link between politics the tragic and the ethical It breaks new ground by providing an etymology of security tracing the word back to the Greek *asphaleia* not to trip up or fall down and a unique political reading of Oedipus Rex Michael Dillon traces the roots of desire for security to the metaphysical desire for certitude and points out that our way of seeking that security is embedded in 20th century technology thus resulting in a global crisis *Politics of Security* will be invaluable to both political theorists and philosophers and to anyone concerned with international relations continental philosophy or the work of Martin Heidegger **In the Margins of Deconstruction** M.C.

Srajek, 2012-12-06 Although this book is a study of the work of Emmanuel Levinas and Jacques Derrida it would be mistaken to refer to it as a comparison The book develops a framework which might aid the reader of Levinas and Derrida in determining the scope and significance of their respective projects as far as a discourse of the sacred is concerned It does so by emphasizing their status as philosophers whose thought correlates but does not compare Within this correlation without obscuring either their differences or similarities we can see a common framework that consists of the following elements First it is clear from what and how Derrida and Levinas have written that the general import of their work lies in the area of ethics However in many ways it would be justifiable to say that their work is not about ethics at all Neither of them proposes a moral theory neither is interested in discussing the question of values vs social norms duty vs virtue and other issues that might pertain to the area of ethics To be sure these issues do come up in their work yet they are treated in a peculiarly different way For Derrida and Levinas ethics is not so much an inquiry into the problems of right and wrong but an inquiry into the problem of the ethical constitutedness of human beings *Global Modernities* Mike Featherstone, Scott Lash, Roland Robertson, 1995-06-05 *Global Modernities* is a sustained commentary on the international character of the most microcosmic

practices It demonstrates how the global increasingly informs the regional so deconstructing ideas like the nation state and national sovereignty The spatialization of social theory hybridization and bio politics are among the critical issues discussed

The Wedding Feast of the Lamb Emmanuel Falque,2016-09-01 A philosophical and theological study of the eucharist in the Catholic Church Emmanuel Falque s The Wedding Feast of the Lamb represents a turning point in his thought Here Falque links philosophy and theology in an original fashion that allows us to see the full effect of theology s backlash against philosophy By attending closely to the incarnation and the eucharist Falque develops a new concept of the body and of love By avoiding the common mistake of angelism consciousness without body Falque considers the depths to which our humanity reflects animality or body without consciousness He shows the continued relevance of the question How can this man give us his flesh to eat John 6 52 especially to philosophy We need to question the meaning of this is my body in a way that responds to the needs of our time Vatican II Because of the ways that Hoc est corpus meum has shaped our culture and our modernity this is a problem both for religious belief and for culture Praise for The Wedding Feast of the Lamb Animality embodiedness and eros such for Emmanuel Falque are the grounds for our hope as we kneel before the altar and await the words of consecration in the Eucharist and behold not only what nourishes us here but also an intimacy promised to us hereafter Here as a complement to theologies of the Eucharist is a phenomenology of the sacred liturgy perhaps the most capacious account of our desire for Christ in the Sacrament offered to us by a contemporary Kevin Hart The University of Virginia A generative text for advanced study of worship and a deeper engagement of phenomenological approaches to sacramental theology Homiletic The Journal of the Academy of Homiletics Report Commonwealth Shipping Committee,1914
