Philosophy For Lowbrows:

Philosophy for Lowbrows Stephen Beasley Linnard Penrose, 1941 The chapter in this book which will arouse most discussion is probably Arthur Isnt Religious because it contains a new definition of religion as it ought to be Tastes differ however and some readers may prefer the lively chapter entitled Myself or the discussion of free will contained in Drivers or the story of human evolution in The Human Day A Drama or perhaps even the closing chapter God The decorative chapter headings were drawn by Ernest R Norling of Los Angeles California **Philosophy for Lowbrows by One of Them**, 2013-10 This is a new release of the original 1942 edition The Lowbrow Art of Robert Williams Robert Williams, 1994 This book the first one featuring the amazing artwork of Robert Williams has been unavailable for many years The book contains an overview of Williams s early work until 1979 It features images from t shirt designs comics posters and oil paintings **Mystery, Violence, and Popular Culture** John G. Cawelti, 2004 For two years Philip Gambone traveled the length and breadth of the United States talking candidly with LGBTQ people about their lives In addition to interviews from David Sedaris George Takei Barney Frank and Tammy Baldwin *Travels in a Gay Nation* brings us lesser known voices a retired Naval officer a transgender scholar and drag king a Princeton philosopher two opera sopranos who happen to be lovers an indie rock musician the founder of a gay frat house and a pair of Vermont garden designers In this age when contemporary gay America is still coming under attack Gambone captures the humanity of each individual For some their identity as a sexual minority is crucial to their life s work for others it has been less so perhaps even irrelevant But whether splashy or quiet center stage or behind the scenes Gambone s subjects have managed despite facing ignorance fear hatred intolerance injustice violence ridicule or just plain indifference to construct passionate inspiring lives Finalist Foreword Magazine s Anthology of the Year Outstanding Book in the High School Category selected by the American Association of School Libraries Best Book in Special Interest Category selected by the Public Library Association **Three Screenplays** E. L. Doctorow, 2003 Published here for the first time the scripts to *The Book of Daniel* *Ragtime* and *Loon Lake* reveal a new aspect of Doctorow s remarkable talents and offer film students insight into the complex relationship between literature and motion pictures The Personalist, 1941 **From Lowbrow to Nobrow** Peter Swirski, 2005-10-24 Swirski begins with a series of groundbreaking questions about the nature of popular fiction vindicating it as an artform that expresses and reflects the aesthetic and social values of its readers He follows his insightful introduction to the socio aesthetics of genre literature with a synthesis of the century long debate on the merits of popular fiction and a study of genre informed by analytic aesthetics and game theory Swirski then turns to three nobrow novels that have been largely ignored by critics Examining the aesthetics of artertainment in Karel Capek s *War with the Newts* Raymond Chandler s *Playback* and Stanislaw Lem s *Chain of Chance* crossover tours de force *From Lowbrow to Nobrow* throws new light on the hazards and rewards of nobrow traffic between popular forms and highbrow aesthetics **When Highbrow Meets Lowbrow** Peter Swirski, Tero Eljas

Vanhanen,2017-06-27 This book examines nobrow a cultural formation that intertwines art and entertainment into an identifiable creative force In our eclectic and culturally turbocharged world the binary of highbrow vs lowbrow is incapable of doing justice to the complexity and artistry of cultural production Until now the historical power aesthetic complexity and social significance of nobrow arertainment have escaped analysis This book rectifies this oversight Smart funny and iconoclastic it scrutinizes the many faces of nobrow throwing surprising light on the hazards and rewards of traffic between high entertainment and genre art **The Lowbrow Experimental Mathematician** Jason Earls,2010 Outlook and Independent ,1922 **Highbrow, Lowbrow, Brilliant, Despicable** The Editors of New York Magazine,Christopher Bonanos,2017-11-07 A celebration of New York magazine s first fifty years stocked with new material along with ground breaking writing from the magazine s archives **Taking Ethics Seriously** John Hooker,2018-04-09 This book develops an intellectual framework for analyzing ethical dilemmas that is both grounded in theory and versatile enough to deal rigorously with real world issues It sees ethics as a necessary foundation for the social infrastructure that makes modern life possible much as engineering is a foundation for physical infrastructure It is not wedded to any particular ethical philosophy but draws from several traditions to construct a unified and principled approach to ethical reasoning Rather than follow the common academic practice of seeking a reflective equilibrium of moral intuitions and principles it builds on a few bedrock principles of rational thought that serve as criteria for valid argumentation It develops the ideas from the ground up without presupposing any background in ethics or philosophy Epistemologically the book views ethics as parallel to mathematics in that it relies on generally accepted proof techniques to establish results Whereas mathematics rests on such proof paradigms as mathematical induction and proof by contradiction ethics can be seen as relying on proof by applying consistency tests such as generalizability and respect for autonomy Utilitarianism also plays a key role but it is reconceived as a deontological criterion This approach obviously requires that these criteria be formulated more rigorously than is normally the case To accomplish this the book begins with the classical idea that an action is distinguishable from mere behavior by virtue of its having a coherent rationale where coherence requires passing certain consistency tests such as generalizability An action is therefore inseparable from its rationale and generalizability is defined in terms of consistency with the rationale A utilitarian criterion receives a similar treatment with respect to a means end rationale Respect for autonomy is grounded in a carefully developed action theory that takes into account such concepts as joint autonomy implied consent and the permissibility of interference with unethical behavior It provides an account of responsibility that is both practical and theoretically satisfying and it yields a novel solution of the much discussed trolley car dilemmas The book is written for a general audience and strives to be as readable and engaging as possible while maintaining rigor It begins by dispelling a raft of misconceptions that trivialize ethics and block its development as an essential tool of modern life such as the notion that ethics is just a matter of opinion without rational foundation After presenting the ethical principles just described along with many examples

it provides several chapters that analyze real life dilemmas many obtained from the author s students and professional workshop participants One cannot understand physics or chemistry without seeing how their principles are applied to real problems and the same is true of ethics These chapters demonstrate that a unified normative theory can deal with a wide range of real cases while achieving a reasonable level of objectivity and rigor Highbrow/Lowbrow Lawrence W. LEVINE,2009-06-30 In this unusually wide ranging study spanning more than a century and covering such diverse forms of expressive culture as Shakespeare Central Park symphonies jazz art museums the Marx Brothers opera and vaudeville a leading cultural historian demonstrates how variable and dynamic cultural boundaries have been and how fragile and recent the cultural categories we have learned to accept as natural and eternal are For most of the nineteenth century a wide variety of expressive forms Shakespearean drama opera orchestral music painting and sculpture as well as the writings of such authors as Dickens and Longfellow enjoyed both high cultural status and mass popularity In the nineteenth century Americans in addition to whatever specific ethnic class and regional cultures they were part of shared a public culture less hierarchically organized less fragmented into relatively rigid adjectival groupings than their descendants were to experience By the twentieth century this cultural eclecticism and openness became increasingly rare Cultural space was more sharply defined and less flexible than it had been The theater once a microcosm of America housing both the entire spectrum of the population and the complete range of entertainment from tragedy to farce juggling to ballet opera to minstrelsy now fragmented into discrete spaces catering to distinct audiences and separate genres of expressive culture The same transition occurred in concert halls opera houses and museums A growing chasm between serious and popular between high and low culture came to dominate America s expressive arts If there is a tragedy in this development Lawrence Levine comments it is not only that millions of Americans were now separated from exposure to such creators as Shakespeare Beethoven and Verdi whom they had enjoyed in various formats for much of the nineteenth century but also that the rigid cultural categories once they were in place made it so difficult for so long for so many to understand the value and importance of the popular art forms that were all around them Too many of those who considered themselves educated and cultured lost for a significant period and many have still not regained their ability to discriminate independently to sort things out for themselves and understand that simply because a form of expressive culture was widely accessible and highly popular it was not therefore necessarily devoid of any redeeming value or artistic merit In this innovative historical exploration Levine not only traces the emergence of such familiar categories as highbrow and lowbrow at the turn of the century but helps us to understand more clearly both the process of cultural change and the nature of culture in American society **Adult Catalog: Title** Los Angeles County Public Library,1970 **Chasing Lost Time** Jean Findlay,2015-03-10 Provides a biography of Marcel Proust translator C K Scott Moncrieff a man revealed to be a homosexual Catholic a secretly lonely partygoer a covert spy in Mussolini s Italy and a brave war hero The New Metropolitan ,1922 **Outlook** Alfred Emanuel Smith,Francis
