The Betrayal of Substance Mary C. Rawlinson, 2021-02-09 Hegel's Phenomenology of Spirit exerts a unique influence on contemporary philosophy Major figures from Jacques Derrida and Luce Irigaray to Jean Paul Sartre and Judith Butler were shaped in large part through their engagement with Hegel's challenging masterwork It unfolds a grand narrative of the ways of thinking and acting that comprise human experience Along the way Hegel seeks to incorporate all the fundamental structures of human life from political community to consciousness to selfhood into a whole that encompasses the total movement of human knowledge and culture Mary C Rawlinson offers a critical reading of the Phenomenology of Spirit that exposes three crucial elisions Hegel's effacements of sexual difference human mortality and literary style In attempting to arrive at an absolute knowing that would transcend all differences Hegel discounts specificity in each of these areas in favor of a generic subject Rawlinson turns Hegel's critique of abstraction against him showing how his own phenomenological analysis undermines his attempt to master difference Rawlinson's critique reveals Hegel's attempt to erase the difference of his own style highlighting his images tropes and rhetorical strategies Demonstrating how the power of Hegel's phenomenological method goes beyond even Hegel's own project of a pure logic The Betrayal of Substance is a magisterial rereading of the Phenomenology of Spirit that encompasses crucially overlooked sites of complexity and difference

Bykova, 2019-01-10 Philosophical Thought in Russia in the Second Half of the 20th Century is the first book of its kind that offers a systematic overview of an often misrepresented period in Russia's philosophy Focusing on philosophical ideas produced during the late 1950s early 1990s it reconstructs the development of genuine philosophical thought in the Soviet period and introduces those non dogmatic Russian thinkers who saw in philosophy a means of reforming social and intellectual life Covering such areas of philosophical inquiry as philosophy of science philosophical anthropology the history of philosophy activity approach as well as communication and dialogue studies the volume presents and thoroughly discusses central topics and concepts developed by Soviet thinkers in that particular fields Written by a team of internationally recognized scholars from Russia and abroad it examines the work of well known Soviet philosophers such as Mikhail Bakhtin Evald Ilyenkov and Merab Mamardashvili as well as those important figures such as Vladimir Bibler Alexander Zinoviev Yuri Lotman Georgy Shchedrovitsky Genrich Batishchev Sergey Rubinstein and others who have often been overlooked By introducing and examining original philosophical ideas that evolved in the Soviet period the book

confirms that not all Soviet philosophy was dogmatic and tied to orthodox Marxism and the ideology of Marxism Leninism It shows Russian philosophical development of the Soviet period in a new light as a philosophy defined by a genuine discourse of exploration and intellectual progress rather than stagnation and dogmatism In addition to providing the historical and cultural background that explains the development of the 20th century Russian philosophy the book also puts the discussed ideas and theories in the context of contemporary philosophical discussions showing their relevance to nowadays debates in Western philosophy With short biographies of key thinkers an extensive current bibliography and a detailed chronology of Soviet philosophy this research resource provides a new understanding of the Soviet period and its intellectual legacy 100 years after the Russian Revolution **The Mount Holyoke** ,1894 *The American Overseas* United States.
