Carroll, Jinhee Choi, 2009-02-09 Designed for classroom use this authoritative anthology presents key selections from the best contemporary work in philosophy of film The featured essays have been specially chosen for their clarity philosophical depth and consonance with the current movement towards cognitive film theory Eight sections with introductions cover topics such as the nature of film film as art documentary cinema narration and emotion in film film criticism and film's relation to knowledge and morality Issues addressed include the objectivity of documentary films fear of movie monsters and moral questions surrounding the viewing of pornography Replete with examples and discussion of moving pictures throughout

Verbal Art Anders Pettersson, 2000 Anders Pettersson presents a comprehensive account of the foundations of literature grounded in an original analysis of the interactions between author and reader Drawing on post-Gricean pragmatics and Nicholas Wolterstorff's notion of presentationality Pettersson develops the idea of the verbal text and conveys an integrated and nuanced understanding of literary experience its conditions and the values it affords In the second part of *Verbal Art* he systematically examines the cognitive affective and formal aspects of the literary work and explores their interrelations Pettersson demonstrates the implications and applications of the theory through a series of detailed studies of literary works taking care to show that his theory is compatible with a broad variety of perspectives Combining an intimate knowledge of modern literary theory and the aesthetics of literature with innovative applications of linguistics and cognitive psychology to the literary work he provides a thorough treatment of fundamental problems in the area including the concept of a text or work the concept of form and the distinctiveness of the literary use of language The Singularity of Literature Derek

Attridge, 2017-04-07 The *Iliad* and *Beowulf* provide rich sources of historical information The novels of Henry Fielding and Henry James may be instructive in the art of moral living Some go further and argue that Emile Zola and Harriet Beecher Stowe played a part in ameliorating the lives of those existing in harsh circumstances However as Derek Attridge argues in this outstanding and acclaimed book none of these capacities is distinctive of literature What is the singularity of literature Do the terms literature and the literary refer to actual entities found in cultures at certain times or are they merely

expressions characteristic of such cultures Attridge argues that this resistance to definition and reduction is not a dead end but a crucial starting point from which to explore anew the power and practices of Western art Derek Attridge provides a rich new vocabulary for literature rethinking such terms as invention singularity otherness alterity performance and form He returns literature to the realm of ethics and argues for the ethical importance of literature demonstrating how a new understanding of the literary might be put to work in a responsible creative mode of reading *The Singularity of Literature* is not only a major contribution to the theory of literature but also a celebration of the extraordinary pleasure of the literary for reader writer student or critic This Routledge Classics edition includes a new preface by the author **Philosophy of the Arts** Gordon Graham,2005-11-16

Philosophy of the Arts presents a comprehensive and accessible introduction to those coming to aesthetics and the philosophy of art for the first time The third edition is greatly enhanced by new sections on art and beauty modern art Aristotle and katharsis and Hegel Each chapter has been thoroughly revised with fresh material and extended discussions As with previous editions the book is jargon free and will appeal to students of music art history and literature as well as philosophy looks at a wide range of the arts from film painting and architecture to fiction music and poetry discusses a range of philosophical theories of thinkers such as Hume Kant Gaender Collingwood Derrida Hegel and Croce contains regular summaries and suggestions for further reading Knowledge and Indifference in English Romantic

Prose Tim Milnes,2003-02-27 This 2003 study sheds light on the way in which the English Romantics dealt with the basic problems of knowledge particularly as they inherited them from the philosopher David Hume Kant complained that the failure of philosophy in the eighteenth century to answer empirical scepticism had produced a culture of indifferentism Tim Milnes explores the way in which Romantic writers extended this epistemic indifference through their resistance to argumentation and finds that it exists in a perpetual state of tension with a compulsion to know This tension is most clearly evident in the prose writing of the period in works such as Wordsworth s Preface to Lyrical Ballads Hazlitt s Essay on the Principles of Human Action and Coleridge s Biographia Literaria Milnes argues that it is in their oscillation between knowledge and indifference that the Romantics prefigure the ambivalent negotiations of modern post analytic philosophy

Nelson Goodman and the Case for a Kalological Aesthetics N. Gkogkas,2008-07-31 Based on Nelson Goodman s conception of language and of pragmatically inherited meaning this book looks at the arts as systems of particular symbols The author offers an approach to kalology as a metaphysical implication of symbolological functioning Considering Ethics in Dance, Theatre and Performance Fiona Bannon,2018-08-01 This book asks important questions about making performance through the means of collaboration and co created practice It argues that we can align ethics and aesthetics with collaborative performance to realise the importance of being in association with one another and being engaged through our shared imaginations Evident in the examples of practice visited in this study is the attention given by a number of practitioners to the development of shared co operative modes of creation Here we can appreciate ethical work as being

relational forged in association with the others as we cultivate ideas that matter In looking at a range of work from practitioners including Meg Stuart Rosemary Lee Deufert Philschke and Fevered Sleep Considering Ethics in Dance Theatre and Performance explores ways that we rehearse by attending to ethics aesthetics and co creation In learning to listen to observe to co operate and to negotiate these practitioners reveal the ways that they bring their work into existence through the transmission of shared meaning *Metaphor and Diaspora in Contemporary Writing* J. Sell, 2012-01-06 Choose ten major contemporary diasporic writers from Abdulrazak to Zadie ask ten leading authorities to write about their use of metaphor and this is the result a timely reassertion of metaphor s unrivalled capacity to encompass sameness and difference and create understanding and empathy across boundaries of nationality race and ethnicity From Text to Literature S. Olsen, A. Pettersson, 2005-09-14 The articles in this collection focus attention on the concept of literature and on the relationship between this concept and the concepts of a literary work and a literary text Adopting an analytic approach the articles attempt to clarify how these concepts govern our thinking about the phenomenon of literature in various ways exploring the issues which arise when these concepts are employed as theoretical instruments for describing and analyzing the phenomenon of literature **Anthropological and historical sciences. of a musical work emerged in the sixteenth century placing its emergence instead around 1800 She describes how the concept of a work then came to define the norms expectations and behaviour that we now associate with classical music Out of the historical thesis Goehr draws philosophical conclusions about the normative functions of concepts and ideals She also addresses current debates among conductors early music performers and avant gardists Introduction I The Analytic Approach Status and identity Analytical positions I Analytical positions II Critique and transition II The Historical Approach Normativity and Practice The central claim Musical meaning I Musical meaning II Musical production I Musical production II Werktreue Confirmation and challenge *Acta Philosophica Fennica* ,1935 **Aesthetics as Space** Ossi
