

Philosophy, Crime, and Criminology

Edited by
BRUCE A. ARRIGO AND
CHRISTOPHER R. WILLIAMS

Philosophy Of Crime

Jonathan Schonsheck

Philosophy Of Crime:

Philosophy, Crime, and Criminology Bruce A. Arrigo, Christopher R. Williams, 2010-10-01 Philosophy Crime and Criminology represents the first systematic attempt to unpack the philosophical foundations of crime in Western culture Utilizing the insights of ontology epistemology aesthetics and ethics contributors demonstrate how the reality of crime is informed by a number of implicit assumptions about the human condition and unstated values about civil society Charting a provocative and original direction editors Bruce A Arrigo and Christopher R Williams couple theoretically oriented chapters with those centered on application and case study In doing so they develop an insightful sensible and accessible approach for a philosophical criminology in step with the political and economic challenges of the twenty first century Revealing the ways in which philosophical conceits inform prevailing conceptions of crime Philosophy Crime and Criminology is required reading for any serious student or scholar concerned with crime and its impact on society and in our lives *The Philosophy of Crime and Punishment* I. M. Ragimov, 2015 **The New Philosophy of Criminal Law** Chad Flanders, Zachary Hoskins, 2015-12-16 There is no more vivid example of a state s power over its citizens than the criminal law By criminalizing various behaviours the state sets boundaries on what we can and cannot do And the criminal law is in many ways unique in the harshness of its sanctions But traditional criminal law theory has for too long focussed on the questions what is a crime and what is the justification of punishment The significance of the criminal law extends beyond these questions indeed critical philosophical questions underlie all aspects of the criminal justice system The criminal law engages us not just as offenders or potential offenders but also as victims suspects judges and jurors prosecutors and defenders and as citizens The authors in this volume go beyond traditional questions to challenge our conventional understandings of the criminal law In doing so they draw from a number of disciplines including philosophy history and social science **Philosophy of Criminal Law** Francis Wharton, 1880 On Criminalization Jonathan Schonsheck, 1994-01-31 When thinking about justified criminalization whether some action may morally be made a criminal offense philosophers tend to rely upon balancing Arguments favoring and opposing criminalization are weighed on a simple beam balance the weightier reasons prevail Jonathan Schonsheck argues that this methodology is deeply flawed among other infirmities it fosters the neglect of items essential to a defensible decision He urges the adoption of filtering a multi step procedure which directs one to discuss the moral authority of the state to consider measures less coercive than a criminal statute and to investigate the pragmatic consequences of criminalization This procedure he argues imposes a structure on disputes which facilitates philosophical progress Filtering is then applied to an array of public policy issues including laws which require the use of automobile seat belts and motorcycle helmets and laws which prohibit the use of certain psychoactive substances drugs Additionally the book addresses a number of more theoretical issues in the philosophy of the criminal law Throughout it engages the work of leading philosophers Derek Parfit Cass R Sunstein Richard J Arneson and especially Joel Feinberg **The Oxford**

Handbook of Philosophy of Criminal Law John Deigh, David Dolinko, 2011-09-22 This title contains 17 original essays by leading thinkers in the field and covers the field's major topics including limits to criminalization obscenity and hate speech blackmail the law of rape attempts accomplice liability causation responsibility justification and excuse duress and more

The Philosophy of Criminal Law Douglas N. Husak, 2010 This volume collects 17 of Douglas Husak's influential essays in criminal law theory The essays span Husak's original and provocative contributions to the major topics in the field including the grounds of criminal liability the significance of culpability the role of defences and the justification of punishment The volume includes an extended introduction by the author drawing together the themes of his work and exploring the goals of criminal theory Together the essays present a desert based analysis of issues in criminal theory that rejects the consequentialist approach more familiar among legal scholars The foremost concern of these essays is to ensure that the principles and doctrines of the criminal law preserve justice and do not sacrifice individuals for the common welfare Engagingly written the essays are accessible to non specialists and represent an excellent introduction to current issues and debates in the theory of criminal law

Attempts Gideon Yaffe, 2012-11-29 Gideon Yaffe presents a ground breaking work which demonstrates the importance of philosophy of action for the law Many people are serving sentences not for completing crimes but for trying to So the law governing attempted crimes is of practical as well as theoretical importance Questions arising in the adjudication of attempts intersect with questions in the philosophy of action such as what intention a person must have if any and what a person must do if anything to be trying to act Yaffe offers solutions to the difficult problems courts face in the adjudication of attempted crimes He argues that the problems courts face admit of principled solution through reflection either on what it is to try to do something or on what evidence is required for someone to be shown to have tried to do something or on what sentence for an attempt is fair given the close relation between attempts and completions The book argues that to try to do something is to be committed by one's intention to each of the components of success and to be guided by those commitments Recognizing the implications of this simple and plausible position helps us to identify principled grounds on which the courts ought to distinguish between defendants charged with attempted crimes

A Philosophy of Criminal Attempts Bebhinn Donnelly-Lazarov, 2015-04-30 Extends and adapts G E M Anscombe's philosophy to reveal attempting as a subjective species of intentional action Locates criminal attempts therein

A Philosophy of the Social Construction of Crime Polizzi, David, 2015-11-19 It is well known that the social definition of individuals and ethnic groups helps legitimize how they are addressed by law enforcement The philosophy of the social construction of crime and criminal behaviour reflects how individuals such as police officers construct meaning from the perspective from which they emerge which in turn influences their law enforcement outlook In the field this is generally viewed through a positivist frame of reference which fails to critically examine assumptions of approach and practice Written by an international specialist in this area this is the first book which attempts to situate the social construction of crime and

criminal behaviour within the philosophical context of phenomenology and how these constructions help inform and ultimately justify the policies employed to address them Challenging existing thinking this is essential reading for academics and students interested in social theory and theories of criminology *Philosophical Foundations of Criminal Law* R.A. Duff, Stuart Green, 2011-03-10 *Philosophical Foundations of Criminal Law* gathers leading theorists to present original work on a range of foundational questions in criminal law theory The volume provides an overview of current philosophical work on the criminal law setting an agenda for further research and debate **Philosophical Foundations of International Criminal Law** Morten Bergsmo, Emiliano J. Buis, 2018-11-30 This first edition of *Philosophical Foundations of International Criminal Law* Correlating Thinkers contains 20 chapters about renowned thinkers from Plato to Foucault As the first volume in the series *Philosophical Foundations of International Criminal Law* the book identifies leading philosophers and thinkers in the history of philosophy or ideas whose writings bear on the foundations of the discipline of international criminal law and then correlates their writings with international criminal law **Crime, Justice, and Social Order** Alison Liebling, Joanna Shapland, Richard Sparks, Justice Tankebe, 2022 *Clarendon Studies in Criminology* aims to provide a forum for outstanding empirical and theoretical work in all aspects of criminology and criminal justice broadly understood The Editors welcome submissions from established scholars as well as excellent PhD work The Series was inaugurated in 1994 with Roger Hood as its first General Editor following discussions between Oxford University Press and three criminology centres It is edited under the auspices of these three criminological centres the Cambridge Institute of Criminology the Mannheim Centre for Criminology at the London School of Economics and the Center for Criminology at the University of Oxford Each supplies members of the Editorial Board and in turn the Series Editor Book jacket *Understanding Crime* Susan Guarino-Ghezzi, A. Javier Trevino, 2014-09-25 Explores the interdisciplinary nature and potential of the field of criminology covering the fields of sociology economics psychology biology philosophy and religious studies The conclusion demonstrates various theoretical approaches for policy development and discusses opportunities for incorporating academic contributions into the political process **Penal Philosophy** Gabriel de Tarde, 1912 **Offences and Defences** John Gardner, 2007-11-08 A selection of some of the author's best known and most provocative writings on criminal law Although it discusses the legitimacy of criminal punishment it proceeds on the footing that the criminal law does many important things apart from punishing people **Future Seeing and Philosophy of Philosophies ...** Edmund Shaftesbury, 1930 **Philosophy of Criminal Law** Douglas N. Husak, 1987-01-01 This text provides an analysis of the theories and principles of contemporary Anglo American substantive criminal law It is the author's view that the interpretation and application of the general principles of criminal liability presupposes a moral and political philosophy He argues that most of the leading criminal theorists have supposed that criminal theory can be empirical scientific and objective emphasizing such issues as action harm and causation **Why Punish?** Rob Canton, 2017-09-16 Why do we punish Is it because only punishment can achieve justice for victims and right

the wrong of a crime Or is it justified because it reduces crime by deterring potential offenders offering rehabilitative treatment to others and incapacitating the most dangerous The complex answers to this enduring question vary across time and place and are directly linked to people s personal cultural social religious and ethical commitments and even their sense of identity This unique introduction to the philosophy of punishment provides a systematic analysis of the themes of retribution deterrence rehabilitation incapacitation and restorative justice Integrating philosophical sociological political and ethical perspectives it provides a thorough and wide ranging discussion of the purposes meanings and justifications of punishment for crime and the extent to which punishment does could or should live up to what it claims to achieve Why Punish challenges criminology and criminal justice students as well as policy makers judges magistrates and criminal justice practitioners to think more critically about the role of punishment and the moral principles that underpin it Bridging abstract theory with the realities of practice Rob Canton asks what better punishment would look like and how it can be achieved

Treatment for Crime David Birks, Thomas Douglas, 2018-11-01 Preventing recidivism is one of the aims of criminal justice yet existing means of pursuing this aim are often poorly effective highly restrictive of basic freedoms and significantly harmful Incarceration for example tends to be disruptive of personal relationships and careers detrimental to physical and mental health restrictive of freedom of movement and rarely more than modestly effective at preventing recidivism Crime preventing neurointerventions CPNs are increasingly being advocated and there is a growing use of testosterone lowering agents to prevent recidivism in sexual offenders and strong political and scientific interest in developing pharmaceutical treatments for psychopathy and anti social behaviour Future neuroscientific advances could yield further CPNs we could ultimately have at our disposal a range of drugs capable of suppressing violent aggression and it is not difficult to imagine possible applications of such drugs in crime prevention Neurointerventions hold out the promise of preventing recidivism in ways that are both more effective and more humane But should neurointerventions be used in crime prevention And may the state ever permissibly impose CPNs as part of the criminal justice process either unconditionally or as a condition of parole or early release The use of CPNs raises several ethical concerns as they could be highly intrusive and may threaten fundamental human values such as bodily integrity and freedom of thought In the first book length treatment of this topic Treatment for Crime brings together original contributions from internationally renowned moral and political philosophers to address these questions and consider the possible issues recognizing how humanity has a track record of misguided harmful and unwarrantedly coercive use of neurotechnological solutions to criminality The Engaging Philosophy series is a new forum for collective philosophical engagement with controversial issues in contemporary society

Philosophy Of Crime Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Philosophy Of Crime**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
