Crumley II, 2006-04-17 A Brief Introduction to the Philosophy of Mind is written to engage the beginning student offering a balanced accessible entr e into a notoriously complex field of inquiry Crumley introduces four core areas in contemporary philosophy of the mind the mind body problem mental content intentionality mental causation and the nature of consciousness The book is distinctive in its further coverage of such fascinating topics as the nature of mental images theories of concepts and whether or not computers can think as well as brief accounts of the disciplines with which the philosophy of mind is often associated among them neuroscience and cognitive psychology

An Introduction to the Philosophy of Mind E. J. Lowe, 2000-01-20 In this 2000 book Jonathan Lowe offers a lucid and wide ranging introduction to the philosophy of mind Using a problem centred approach designed to stimulate as well as instruct he begins with a general examination of the mind body problem and moves on to detailed examination of more specific philosophical issues concerning sensation perception thought and language rationality artificial intelligence action personal identity and self knowledge His discussion is notably broad in scope and distinctive in giving equal attention to deep metaphysical questions concerning the mind and to the discoveries and theories of modern scientific psychology It will be of interest to any reader with a basic grounding in modern philosophy

What is a Mind? Suzanne Cunningham, 2000 Designed for a first course in the philosophy of mind this book has several distinctive features Unlike any other book of its kind it offers extensive treatment of the emotions and of the problem of other minds Throughout the text insights from other relevant disciplines psychology neuroscience evolutionary biology anthropology computer science are integrated into a philosophical framework A section is devoted to a concise discussion of the factors to consider when assessing any theory An ongoing series of Notes on Terminology explains each of the technical terms used Each chapter is followed by a list of Issues for Discussion and Suggested Research Projects short focused assignments that introduce the reader to materials of interest outside the text

Philosophy of Mind Edward Feser, 2005 Using straightforward language without sacrificing philosophical depth this guide outlines the major schools of thought and their different perspectives on consciousness personal identity and the mind body problem It takes seriously the arguments both for and against dualism the view that there is a real distinction between mind and body and is thus the first introductory text to reflect the growing challenge by contemporary philosophers to the dominant materialist doctrine Full of examples and scenarios and featuring a glossary of key terms and chapter by chapter guides to further reading this is a clearly written balanced and up to date introduction to one of the most popular fields in modern philosophy

BOOK JACKET

Philosophy of Mind Barbara Gail Montero, 2022 How do we define consciousness or

intentionality Is the neurophysiology of pain all there is to pain How do words and mental pictures come to represent things in the world Do computers think Barbara Montero tackles these and other thorny issues at the heart of the field of philosophy of mind

Philosophy of Mind and Cognition David Braddon-Mitchell, Frank Jackson, 1996-11-14 The philosophy of mind and cognition has been transformed by recent advances in what is loosely called cognitive science This book is a thoroughly up to date introduction to and account of that transformation in which the many strands in contemporary cognitive science are brought together into a coherent philosophical picture of the mind The book begins with discussions of the pre history of contemporary philosophy of mind dualism behaviourism and early versions of the identity theory of mind and moves through discussions of functionalism in autonomy of psychology to topics such as eliminative materialism individualism and the problems of content and representation The synoptic nature of the discussion makes it ideal as the foundation of an undergraduate course in the philosophy of mind
