**The Publishers' Trade List Annual** ,1886     *John A.: 1815-1867* Richard J. Gwyn,2007 But it wasn't easy The wily Macdonald faced constant crises throughout these years from Louis Riel's two rebellions through to the Pacific Scandal that almost undid his government and his quest to find the spine of the nation the railroad that would link east to west Gwyn paints a superb portrait of Canada and its leaders through these formative years and also delves deep to show us Macdonald the man as he marries for the second time deals with the birth of a disabled child and the assassination of his close friend Darcy McGee and wrestles with whether Riel should hang pub desc v 2     The Canadian Encyclopedia James H. Marsh,1999 This edition of The Canadian Encyclopedia is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first

entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada **Canadian Rail**, 1973 **John A** Richard J. Gwyn, 2009-03-18 The first full scale biography of Canada's first prime minister in half a century by one of our best known and most highly regarded political writers The first volume of Richard Gwyn's definitive biography of John A Macdonald follows his life from his birth in Scotland in 1815 to his emigration with his family to Kingston Ontario to his days as a young rising lawyer to his tragedy ridden first marriage to the birth of his political ambitions to his commitment to the all but impossible challenge of achieving Confederation to his presiding with his second wife Agnes over the first Canada Day of the new Dominion in 1867 Colourful intensely human and with a full measure of human frailties Macdonald was beyond question Canada's most important prime minister This volume describes how Macdonald developed Canada's first true national political party encompassing French and English and occupying the centre of the political spectrum To perpetuate this party Macdonald made systematic use of patronage to recruit talent and to bond supporters a system of politics that continues to this day Gwyn judges that Macdonald if operating on a small stage possessed political skills of manipulation and deception as well as an extraordinary grasp of human nature of the same calibre as the greats of his time such as Disraeli and Lincoln Confederation is the centerpiece here and Gwyn's commentary on Macdonald's pivotal role is original and provocative But his most striking analysis is that the greatest accomplishment of nineteenth century Canadians was not Confederation but rather to decide not to become Americans Macdonald saw Confederation as a means to an end its purpose being to serve as a loud and clear demonstration of the existence of a national will to survive The two threats Macdonald had to contend with were those of annexation by the United States perhaps by force perhaps by osmosis and equally that Britain just might let that annexation happen to avoid a conflict with the continent's new and unbeatable power Gwyn describes Macdonald as Canada's first anti American And in pages brimming with anecdote insight detail and originality he has created an indelible portrait of the irreplaceable man the man who made us Macdonald hadn't so much created a nation as manipulated and seduced and connived and bullied it into existence against the wishes of most of its own citizens Now that Confederation was done Macdonald would have to do it all over again having conjured up a child nation he would have to nurture it through adolescence towards adulthood How he did this is however another story He never made the least attempt to hide his vice unlike say his contemporary William Gladstone with his sallies across London to save prostitutes or Mackenzie King with his

crystal ball gazing Not only was Macdonald entirely unashamed of his behaviour he often actually drew attention to it as in his famous response to a heckler who accused him of being drunk at a public meeting Yes but the people would prefer John A drunk to George Brown sober There was no hypocrisy in Macdonald's make up nor any fear from John A Macdonald

investigates the role of material culture and materiality in defining and solidifying national identity in everyday practice Examining a range of things from art objects clay fragments and broken stones to clothing food and urban green space the contributors to this volume explore the importance of matter in making the nation appear real close and important to its citizens Symbols and material objects do not just reflect the national visions deployed by elites and consumed by the masses but are themselves important factors in the production of national ideals Through a series of theoretically grounded and empirically rich case studies this volume analyzes three key aspects of materiality and nationalism the relationship between objects and national institutions the way commonplace objects can shape a national ethos and the everyday practices that allow individuals to enact and embody the nation In giving attention to the agency of things and the capacities they afford or foreclose these cases also challenge the methodological orthodoxies of cultural sociology Taken together these essays
