**Of Human Freedom** Jean-Paul Sartre, 1967 **Sartre in Search of an Ethics** Paul Crittenden, 2019-07-31 In the postwar years Jean Paul Sartre set himself the task of writing a book on ethics His concern was to take up issues raised by his existentialist ontology and to resolve problems in his bleak account of the human situation in Being and Nothingness I am searching he said for an ethics for the present time For several years he prepared background notes but then put the material aside as too abstract and idealistic leaving it for publication after his death Years later he returned to ethics this time in the hope of developing an account related to the Critique of Dialectical Reason But once again he left the inquiry incomplete There was yet a third attempt towards the end of his life when Sartre was blind and weak a poignant witness to his abiding interest in ethics This took the form of interviews with Benny Lvy which appeared in a controversial publication just before his death Sartre in Search of an Ethics is a study of each of these stages in his ethical quest with a focus on the major themes of his existentialist and dialectical ethics in the context of some of his main philosophical and literary writings

**Being and Nothingness** Jean-Paul Sartre, 2021-09-07 Revisit one of the most important pillars in modern philosophy with this new English translation the first in more than 60 years of Jean Paul Sartre's seminal treatise on existentialism This is a philosophy to be reckoned with both for its own intrinsic power and as a profound symptom of our time The New York Times In 1943 Jean Paul Sartre published his masterpiece *Being and Nothingness* and laid the foundation of his legacy as one of the greatest twentieth century philosophers A brilliant and radical account of the human condition *Being and Nothingness* explores what gives our lives significance In a new and more accessible translation this foundational text argues that we alone create our values and our existence is characterized by freedom and the inescapability of choice Far from being an internal passive container for our thoughts and experiences human consciousness is constantly projecting itself into the outside world and imbuing it with meaning Now with a new foreword by Harvard professor of philosophy Richard Moran this clear-eyed translation guarantees that the groundbreaking ideas that Sartre introduced in this resonant work will continue to inspire for generations to come

**Life/Situations** Jean-Paul Sartre, 1977 *Existentialism and Humanism* Jean-Paul Sartre, 2007 Over the past sixty years the writings of Jean Paul Sartre have probably been more influential in the West than those of any other philosopher and literary figure In his theoretical writings Sartre laid the foundation for an original doctrine of Existentialism His concern however was to relate his theory to human response and the practical demands of living To achieve this he carried his philosophical concepts into his novels and plays and there subjected them to the test of imagined experience His uniqueness lies in the success with which he demonstrated the utility of Existentialist doctrine while creating at the same time works of the highest literary merit Thus Sartre became the populariser of his own literary thought Originally delivered as a lecture in Paris in 1945 *Existentialism and Humanism* is Jean Paul Sartre's seminal defence of Existentialism as a doctrine true to Humanism as opposed to a purely nihilistic creed and a plan for its practical application to everyday human life This exploration of one of the central tenets of his philosophical thought has become the essential introduction to his work and a fundamental text for all students of philosophy page 4 of cover
